#### To Prevent Strikes.

CHICAGO, Dec. 26 .- All the railroad organizations, with the exception of the switchmen, are, it is said, to once more form themselves into an amalgamated association. atters have reached a stage where ne government is prepared to arrest certain conspirators. Andrieux is regarded as the manager of the plot and the first blow will be struck at him. When warned he would be arrested, Andrieux said: "I have nothing to fear; if I am arrested, it will be to save Floquet from disgrace and punishment. The government is seeking clues to prove the existence of a Boulangist and royalist plot, and desires to make out I am mplicated in it. It seems to me the real plot is altogether of another character. I have taken precautions. If I do go to a dungeon, the public will know the motive for my arrest." The precaution Andrieux has taken. It is said, was to deposit with trustworthy parties in London duplicates of all the documentary evidence he has collected against prominent republicans. This, however, will not effect the action of the government. The government is greatly encouraged by the emphatic vote of confid- fect. nce in the chamber of deputies. A local paper says the government has proof of a conspiracy to effect revolution, and involving the same lotters as in 1888. It is learned en more vigorous measures will be taken than in 1888.
