## THE DEADLY DYNAMITE.

### Explosion in a Tunnel Under the East River.

### LIVES AND BUILDINGS ARE DESTROYED

### A Bomb Thrower Gets in His Work at Milwaukee.

LONG ISLAND CITY, N. Y., Dec. 28.—At 8 o'clock this morning a box of dynamite was exploded in a shaft of the new East river tunnel near the junction of Jackson street and Vernon avenue. The explosion set fire to a four story brick building adjoining, and shattered every pane of glass in buildings for blocks around. Nine bodies are already reported taken from the shaft. A score or more of persons were injured by the falling timber, glass, etc. The explosion was so terrific that nearly every building on Jackson avenue, from 5th street to Borden avenue, was either destroyed or badly damaged. The injured structures include the postoffice, and Sylvester & Co's factory. Fire immediately started in the debris and is now burning.

### MILWAUKEE BOMB-THROWER.

MILWAUKEE, Wis., Dec. 28.—At 2 o'clock this morning a bomb was thrown into the Lane building on the south side, the plant of the Milwaukee street railway company, and a tremendous explosion followed. In a moment the interior of the building was ablaze. In a few minutes the fire was beyond control and in less than an hour the entire plant was consumed, entailing a loss of half a million. The plant included the immense storage stables for the electric motors, machine shops and stables. The 60 horses in the stables were gotten out alive. The company is crippled by the fire for the time. It is supposed the man who threw the bomb is a firebug who has started a dozen other disastrous blazes within a month.

Today a number of fire insurance companies gave orders to cease writing insurance on manufacturing plants in this city. The mayor this afternoon offered a reward of \$2500 for arrest of persons who started any fire since the big fire of Oct. 29th, or any future fire for the next thirty days. It is also decided to add one hundred men to the police force for night duty. Two more bodies were found in the ruins of yesterday tannery fire. One is that of Stephen Treidler. The other is unknown.

As far as learned three are killed, and a score wounded. The explosion was caused by an attempt of workmen to thaw out three barrels of dynamite cartridges with bonfire in the rear of tenements. A number of injured may die.

Corrected list killed: Henry Obrien, Mrs. Root, John Hopkins, John Dancy, Barber Rock. The last three died in the hospital. A number of others are expected to die. McFarty, workman in charge of the dynamite, is arrested for criminal carelessness. He is severely wounded. He says in 35 years' experience with dynamite this is the first accident that has occurred. He can't account for it. The dynamite was in a box through which steam pipes ran to thaw it out. He reported the Italian who slept in the shanty near the scene was blown to fragments.

### THE Canal Scheme.

WASHINGTON, Dec. 28.—Two years ago Senator Frye prophesied that time would show that the Panama canal scheme was corrupt, and that within a year or two light would be thrown upon it, and the fate of the republic would tremble under the shock. That condition exists today. There has been some talk to the effect that the Panama and Nicaragua canal schemes are parallel, and that the disaster that has overtaken the French people will cause public men in this country to hesitate in giving their votes to sanction a guarantee of the Nicaragua bonds, fearing that scandal might result. Mr. Frye sees nothing of the kind, and is emphatic in his declaration to that effect. Said he: "There is a very good reason to advance, which is that the government should exercise supervision over the Nicaragua canal and control all that is done there, and there is no reason why any legislator should be afraid to cast his ballot for the bill, which has this end in view. I believe this measure will pass the senate, but of course such a prediction cannot be made as to the

## POLITICAL AND GENERAL.

### Suffering a Fuel Famine in Kansas.

### IMPORTATION OF RAGS PROHIBITED

### Editor Dead—Republicans Leave—No Crisp Conference.

### Suffering in Kansas.

HORTON, Kans., Dec. 28.—The storm proved very hard on settlers in Western Kansas counties. It is impossible for railroads to get enough fuel on the border to keep people warm, so great is the demand all along the lines for coal. Reports come in from inhabitants that they are using everything that will burn to keep from freezing.

### Imported Rags.

BOSTON, Dec. 28.—Collector Beard has received a sweeping order from the treasury department at Washington, concerning importation of rags. The order absolutely prohibits importation of rags from ports where cholera is known to be prevailing, or may hereafter prevail.

### Banditti Claims.

CITY OF MEXICO, Dec. 28.—It is authoritatively stated that a number of ranchmen and other residents on the Rio Grande border will file with the government claims for damages through deprivations of bandits and so-called revolutionists from Texas. The claims, it is understood, will be formally presented to the United States government for indemnity, on the ground that the United States is responsible for not suppressing outlawry which originated in its territory.

### No Conference.

NEW YORK, Dec. 28.—Speaker Crisp arrived here this morning but during the forenoon he did not call on Cleveland. The latter said he did not know of any conference between himself and Crisp.

### Records Burned.

MUNCIE, Ind., Dec. 28.—Fire in the court house this morning destroyed fifty thousand dollars worth of property, besides doing considerable damage to the records, which will likely lead to much confusion and litigation.

### Died in Poverty.

SAN FRANCISCO, Dec. 28.—Joseph Bachman, who died here Monday, was quietly buried at the Jewish cemetery in this city today. Many of the prominent merchants of the city contributing means for defraying the funeral expenses. Twenty years ago Bachman was one of the leading grain operators of Portland, Or. He assumed charge of the Bank of Oregon, an institution that eventually wound up its affairs in disgust, causing two Bachman brothers to flee the country and remain in hiding for fear of arrest. Bachman resided here several years prior to his death.

### Call Editor Dead.

SAN FRANCISCO, Dec. 28.—Loring Pickering, proprietor of the Morning Call of this city, died this morning after an illness of several weeks, caused by a complication of stomach and kidney troubles.

### The Sealing Business.

OTTAWA, Ont., Dec. 28.—According to present advice, only one Nova Scotia schooner in British Columbia is likely to join the sealing fleet next spring, and it is not certain even that one will come, so disheartened have Eastern shipping men become in regard to the prospects of the sealing industry, to engage in which they sent a fleet of 10 vessels around Cape Horn last year. The vessel talked of as an aspirant for sealing honors is the famous Kingfisher, a companion sister to the Agnes Macdonald, and one of the fastest sailers afloat. The Kingfisher was chartered by the Dominion government last season as a fisheries protective cruiser. She is Canadian built, from plans by the famous Burgess, and of her class probably one of the fastest vessels. The Kingfisher will probably leave Halifax for British Columbia next month.

### Blew out the Gas.

NEW YORK, Dec. 28.—Janitor Denis Gerrity, 85 years old, was found dying in a room at 85 Nassau street with his wife beside him dead. The gas jet was turned on full head. It is believed the old man blew the gas out when the couple retired.

### Leave Their Party.

NEW YORK, Dec. 28.—Sheridan Shook and Edward J. Gilmore have signified their intention of leaving the republicans and giving their allegiance to Tammany hall. For years both staunch republicans Shook in particular stood high in the esteem of that party.

## FOREIGN NEWS.

### PARIS, Dec. 28.—Le Figaro pro-

poses to have information to the effect that Dr. Brouardel, who had charge of the post-mortem examination of the body of Baron Reinach, has reported to the government that Reinach died of poison taken eight hours before death, and that the Reinach family has demanded a judicial inquiry to establish the

fact that he had not committed suicide. The belief that he was murdered is based on the known fact that within the time between the taking of the poison into the stomach and death he made strenuous efforts to stop the attacks of the press, and seemed much cast down when he found it impossible to do so. It argues that he would not have cared particularly about the attacks had he been conscious of the fact that he would be a corpse within a few hours. The fact is called to mind that two others who possessed damaging knowledge also disappeared mysteriously and suddenly. It is well known these deaths were a great relief to certain persons.

LONDON, Dec. 28.—London is buried under a dense fog, and it is difficult to see anyone a few feet away.

Many accidents have occurred in Glasgow, Manchester and Newcastle, owing to frozen boilers bursting, and two persons were killed by an accident of this character at Aldridge.

Twelve skaters lost their lives by drowning in Great Britain Monday.

The poor are suffering terribly in London. Last night the Salvation Army shelters were crowded, all being accommodated whether able to pay a small charge for lodging or not. The Salvation Army also entertained a multitude with free Christmas dinners. Quantities of coal were also distributed by charitable agencies to the needy poor, and a special visitation was made to districts where suffering most abundant.

The privation in London among the unemployed increases with advancing winter, and notwithstanding the numbers already here, the multitudes continue to throng in from all points of the country.

Advice from Lancashire state that the locked-out employes in the cotton manufacturing districts had a hungry holiday, thousands of them being dependent upon charity for sustenance. Hundreds are wandering about begging, and it is feared the rigorous weather will cause the loss of many lives.

### QUERETARO, Mexico, Dec. 28.—

Thousands of people from the city of Mexico and other cities are in attendance at the successful Christmas cocking mains and bull fights. All the leading bull fighters of Mexico display their prowess in the fights of Mexico. Three bandit leaders were severely gored and several fine horses killed.

### ST. PETERSBURG, Dec. 28.—A

British consul who visited the famine districts reports that the peasants are dying like flies from hunger and disease, and that there are no signs of relief from the horrors of a hard winter. Cholera is raging severely on the Cossack shore. There have been hundreds of deaths in the last fortnight.

### LONDON, Dec. 28.—Rev. Wm.

Perrin, of St. Luke's church, has been appointed bishop of British Columbia.

### PARIS, Dec.—There are three

cases of Asiatic cholera at Dunkirk.

### NORTH HOWELL PRAIRIE.

John Steele of Ysquina is visiting his relatives at this place.

### Prof. Luse has dismissed his school

for the holidays.

### Messrs. E. C. and E. G. Wiesner,

who are attending the Portland university, are expected home for a week's holiday visit.

### The storm here seems not to have

been so severe as in some neighboring localities, but outside stock need so much shelter and care that the farmers will be glad to see the ground bare again.

### Notwithstanding the difficulty in

the way of traveling about, there is the usual number of social events booked for holiday week, and those who wish to attend oyster suppers, dancing or play parties may choose either of these or all, as the case may be.

### Considering the snow and rain

there was a large number out to witness the Christmas exercises. The program was well rendered in every particular and among many others worthy of special notice, was the recitation of W. Stevens entitled "My Dear Little Wife," and also the performing of an exercise and part song by ten young ladies, "The Wise and the Foolish Virgins." The ladies particularly, and all who assisted in the management of this affair, deserve praise for making it what it was, a success.

### Deafness Can't be Cured.

By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give one hundred dollars for any case of deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Sent for circular, free. E. J. Cheney & Co., Toledo, O. Sold by druggists, 75 cents.

## For Women

Hood's Sarsaparilla is Especially Adapted to Cure Difficulties Peculiar to the Sex

The restoring and invigorating properties of Hood's Sarsaparilla, combined with its power to vitalize and enrich the blood, especially adapt it for all troubles peculiar to women—that tired feeling, or debility caused by change of season, climate or life. Hood's Sarsaparilla has accomplished very gratifying results in many cases. Read this: "I was for a long time a sufferer from

Female Weakness, and tried many remedies and physicians, to no good purpose. One day I read one of the Hood's Sarsaparilla books, and thought I would try a bottle of the medicine. It made a great difference in my condition that I took three bottles more and found myself perfectly well. I have also given

## Hood's Sarsaparilla

to the children and it keeps them in good health. I am willing that this shall be used for the benefit of others." Mrs. SARAH MUIR, 805 16th Ave., S. Minneapolis, Minn.

## Hood's PILLS cure all Liver, Bili,

lousness, Jaundice, Indigestion, Sick Headache

## FROM OREMAWA.

Snow about all gone. Lots of water and slush left.

Lake Labish is lake again. There is water enough to float a steamer on some of the meadows.

There was a very interesting time at the Harrison institute on Christmas eve. Three trees chock full of presents, made the children happy. There was also a Christmas tree at Kaiser school house on Friday evening. Some parties got to snowballing and then ended up with a fight. Two of the boys made a forced loan to the justice for their fun.

There is going to be some very interesting advertising in some of the papers before long if one of the Rev. ex-employees does not settle up his bills. There is a project on foot to force him to settle with the widow that he owes, or be advertised thoroughly.

Mr. Thompson and wife are entertaining their daughter and grandchild over the Christmas time. Mr. Staiger spent Sunday at home in Salem.

One of the Indian boys was buried during the snow storm last week. He had been sick almost a year.

## A Herald of the Infant Year.

Clip the last thirty years or more from the contents of the sequel, and will represent the term of the unbounded popularity of Hovetter's Stomach Bitters. The opening of the year 1881 will be glorified by the appearance of a fresh aim (man of the year) in the medicinal world, and action of this world-famous medicine will be lucidly set forth. Everybody should read it. The scientific and anatomical calculations to be found in this brochure are always astonishingly accurate and the statistics, illustrations, humor and other reading matter rich in interest and value. The Standard Company, of Pittsburgh, Pa., publish it themselves. They employ more than sixty hands in the mechanical work, and more than eleven months in the year are consumed in its preparation. It can be obtained, without cost of all druggists and country dealers, and is printed in English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish.
