

IN NEW YORK
Proceeding to Death in France.
CABINET FOR THE CABINET.
Thirty Brooklyn Aldermen Indicted—Other News.
Blizzard in New York.
New York, N. Y., Jan. 6.—Not since the terrible snow storm five years ago has New York experienced anything so nearly like a blizzard as that which has been blowing here since last night. Traffic on Broadway is almost suspended, while on some less prominent streets the blockade is complete. Snow drifts in places are four to five feet deep. Snow fell fully all the afternoon.
Cold in France.
PARIS, Jan. 6.—Cold weather continues unabated. Two persons were frozen to death at Toulouse, and one at Bordeaux.
Prefers to be Senator.
MONTREAL, Jan. 6.—When questioned regarding the report that he might be appointed postmaster general under Cleveland, W. W. Wood replied: "If there is any such disposition on the part of the president I have not heard of it, and could scarcely say whether or not I could accept such an appointment. I have an ambition for only one position, that of U. S. senator, which I regard as the highest office in the gift of the people."
Aldermen Indicted.
BROOKLYN, N. Y., Jan. 6.—The grand jury has indicted 30 aldermen for extravagant expenditure in connection with the recent Columbian celebration. Names of the indicted are not made public.
Fallure.
BANDY HOOK, Jan. 6.—Wickham & Co. of Huren, one of the most extensive fishing concerns in this country, has failed for a quarter of a million.
Republicans Win.
LINCOLN, Neb., Jan. 6.—The deadlock in the senate was broken this morning by election of Correll, Republican, as president. Four of the five Democrats voted for him.
Specie Goes.
NEW YORK, Jan. 6.—Two million dollars gold and a million ounces of silver have been taken for export tomorrow.
They Have the Scruples.
BISMARCK, Jan. 6.—Probably only two of the three electoral votes of North Dakota will be cast Monday. Republicans will not vote on account of conscientious scruples as to the election.
Storm in New Jersey.
LONG BRANCH, Jan. 6.—A fierce snow and wind storm along Jersey coast has brought terrible damage to property. A heavy sea is running. Shrewsbury hotel at Seabright is being undermined, the street being washed away by the raging sea.
Montana Politics.
HELENA, Jan. 6.—Both houses of legislature adjourned till Monday. The most important business done this morning was the appointment of a committee to consider the conduct of seat from Choteau county. Committee consists of one Populist, Beecher, who is chairman, two Republicans, two Democrats.
The Maybrick Case.
BOSTON, Jan. 6.—"In the name of God, I arraign you, the head of the British government, for the murder of Florence Elizabeth Maybrick, now dying in a convict prison at Dartmoor," so writes Miss Abigail Maybrick, authoress, known to the literary world as Gail Hamilton, to Mrs. Wm. E. Gladstone, prime minister of Great Britain. Miss Maybrick declares there is no evidence against the imprisoned woman's guilt, and demands a great government for the feeble hands of a woman living tomb, and demanding the annihilation of her innocences.
Shore Girls.
NEW YORK, Jan. 6.—Henry Watling today of the Atlantic City, N. J., toward the professed belief that Mr. Watling had the professed woman's gull, and a great government for the feeble hands of a woman living tomb, and demanding the annihilation of her innocences.
Swallowed a Chain.
HABASCO, Wis., Jan. 6.—An autopsy remarkable in itself, and with surprising results was held on the body of the mammoth elephant "Tip" who died a few days ago, through long of a tractable disposition.

NOT A BLOW AT CANADA.
New President Harrison's Action Toward Canadian Railways is Regarded.
Toronto, Ont., Jan. 6.—Professor Goldwin Smith, in reference to the dispatch from Washington concerning the alleged threats of proceedings against the Canadian railways, has this to say:
"I believe if the threatened action is taken it will not be intended as a blow against Canada. I was at Washington when the McKinley bill was going through Congress, and in daily intercourse with those engaged in the discussion, some of whom liked the bill about as well as I did, it never was said or even hinted, to me that the object was to coerce Canada. The bill, like our own national policy of protection, was passed in the interest of the political party which brought it forward, and so with this meditated action against our railways—it may be taken not as a measure of hostility to Canada, but as a measure of justice to American companies. If our case was the same, our government would probably do the same thing. The Canadian Pacific railway, it is true, has by its political attitude and conduct made itself obnoxious to Americans. At the time of our last election its president put forth an anti-American manifesto, and the road made an extremely tyrannical use of its influence, especially in Manitoba, in favor of a government which was appealing for support to dislike and distrust of the Americans.
That a road fed by American traffic and connections should be acting as the mainstay of the anti-American party and policy here may seem anomalous to the Washington government. Against the Grand Trunk, which, as one of the senators said, is politically inoffensive, there is no feeling whatever. The president of the Canadian Pacific railway says his line will not materially suffer if the threatened action is taken. The road is as much English as American or as much American as Canadian. It discriminates, if the statements made as to comparatives are correct, against Canadian traffic, and therefore its quarrel will hardly be ours, nor need we allow it to influence our general policy toward the United States.
Killed at the Plow.
MONTROSE, Cal., Jan. 6.—Lafayette Steele was killed Tuesday while plowing near his house. It was at first supposed that he had been murdered, but upon investigation it appears in all probability the killing was the result of an accident. At the time of the murder a neighbor, who was plowing, fired his rifle several times in the direction of the place where the deceased was found, and it was the opinion of the coroner's jury that the deceased was killed by one of the stray bullets. The coroner's jury accordingly found that deceased came to his death from a gunshot wound inflicted by some person unknown.
Successor to Villard.
ST. PAUL, Minn., Jan. 6.—When Henry Villard was in St. Paul last month he was closeted with Governor Merriam for parts of several days, and when he returned to New York he was followed in a few days by the latter. During the absence of Merriam a story was current to the effect that Villard was to retire from the Northern Pacific road, and would be succeeded by Merriam. It was the general belief that the "smelling" committee of the railroad company would advise retirement of Villard as a matter of policy, his expensive management having been exposed to that committee.
Breweries in Mexico.
CITY OF MEXICO, Jan. 6.—James Naser, a financier of New York, is here for the purpose of securing concessions from the Mexican government for the establishment of extensive breweries in the principal cities of the republic. Naser states he has negotiated for English capitalists within the last year for the purpose of building breweries in San Francisco, Denver, Baltimore, Detroit, Rochester, Portsmouth, N. H., and Newark, N. J. These purchases involve an expenditure of more than \$8,000,000. He is also vice-president and director of the Mexican Quarry company, New York.
A New Railroad.
SAN FRANCISCO, Jan. 6.—Charles Gos, who was formerly engaged in business in this city, but has been

franny. When cutting upon the elephant's stomach, the knife encountered resistance, further work disclosed the presence of an iron chain four feet long, weighing ninety pounds. This explains the elephant's death, and the disappearance of the chain on the occasion of Zip's recent rampage.
Oregon Banker Dead.
PORTLAND, Jan. 6.—William B. Ladd, the pioneer banker of this city, and one of the wealthiest men on the Pacific coast, died here today.
Typhus in New York.
NEW YORK, Jan. 6.—Two new typhus cases are reported this morning, making 14 deaths so far.
Cleveland's P. M. General.
WASHINGTON, D. C., Jan. 6.—A Washington special says: The Pacific slope is to have a representative in the cabinet, and W. W. Foote of California is to be the man. The position which is to be offered Foote, if he has not already been offered it, is that of postmaster general.
About Eminent Men.
WASHINGTON, D. C., Jan. 6.—Senator Kenna's condition is improving this morning.
NEW YORK, Jan. 6.—Bandmaster Cappa, of Cappa's famous 7th regiment band, is dead.
WASHINGTON, D. C., Jan. 6.—Blaine is reported somewhat better this morning.
Wyoming Official.
DENVER, Jan. 6.—Official figures of vote in Wyoming show election of all three Republican electors; Coffin, Democrat, for congress; Osborn, Democrat, for governor; and Clark, Democrat, for judge of the supreme court.
Minister to Resign.
CHICAGO, Jan. 6.—It is understood that the resignation of Minister to England Robert T. Lincoln will be one of the first to be placed at the disposal of President Cleveland after his inauguration. It developed that during his recent vacation in this country the son of Old Abe made arrangements to resume his law practice by the opening of the world's fair, and it is stated by friends that he expects a democrat in his place so as to enable him to get back to America by the end of April. This will probably be the first diplomatic plum at the disposal of the president.
Washington Senatorship.
OLYMPIA, Jan. 6.—The contest for a successor to John B. Allen, of Walla Walla, for United States senator, is assuming shape, as members of the legislature gather for the session which opens Monday. Conservative men with political experiences concede that the favor is with Allen, as his own successor, and that Judge Geo. Turner, of Spokane, has more confidence than actual support. Caucuses will be held on Monday, and speculation is now rife regarding the official make-up of the house. Hoole, of Clallam, and Mentzer, of Thurston, are the most active aspirants for speaker, although others are in the field. Morrison, of King county, is also seeking votes, though contrary to the wishes of his delegation, who fear he will injure Allen's chances. T. J. Nicklin, of Whatcom, will likely be chief clerk, Harry Carrol, of Seattle, reading clerk, and Major C. M. Barton of Olympia, will be secretary of the senate.
The Monterey's Trial.
SAN FRANCISCO, Jan. 6.—The new coast defense vessel Monterey had her official trial trip on San Francisco bay yesterday, and, as far as can be ascertained now, filled every contract requirement. It is the opinion of the contractors and also members of the naval trial board that she will exceed 5400 horse power, required by contract. Full data can not be worked up for a week or two, but approximate computations made show a horse power of 3062 on the main engines alone, and 100 to 150 more horse power can be added for auxiliary engine. Her maximum speed was over fifteen knots. The feature of the trial run which attracted the greatest attention on the part of the naval engineers was the entirely successful performance of the Ward coal boilers, an American invention, which is used for the first time on so large a scale or "in battery," and which the navy department placed in the Monterey as an experiment. The trial run established the success of the experiment to the satisfaction of all the engineer officers.
A New Railroad.
SAN FRANCISCO, Jan. 6.—Charles Gos, who was formerly engaged in business in this city, but has been

completing arrangements with several capitalists and a number of railroad men in connection with the building and equipment of 150 miles of road from Port Angeles to Gray's harbor. "The proposed road out of Port Angeles will run westward about 50 miles," said Gos today, "and passing south of big Lake Sutherland will run south down Guillamite valley. The road will open up that section of the Olympic range 14 miles south of Port Angeles where copper, silver and coal abound. Already 50 miles of road have been surveyed and the stakes driven. Better than all, the only pass all the roads have been looking for months has been discovered and taken possession of. The building and equipping of the new road will cost about \$5,000,000, and will open up part of a country heretofore known to be one of the richest in Washington, but which could not possibly be developed, owing to the lack of railroad facilities."
OPEN THE RIVER.
The Dallas Sun: All who are in favor of a portage road should be up and doing something towards securing the aid from the state, otherwise our people will be held in bondage for the next twelve years, at least, as it is a fact it would take that length of time to build a ship, railroad or locks and canal if the general government made appropriations for either at the next session of congress.
The private corporations will charge just so much for transporting the products to market as the farmers will stand. It is known that they only make a reduction in rates when they find the products secure another outlet, or the rates are too high to allow the shipper to pay over two-thirds of the price he receives for producing it to the railroad company.
We today publish the petition that is being circulated by parties directly interested in defeating the only relief of the people of the Inland Empire can hope for in shipping their products to the seaboard—an appropriation from the legislature to build a portage road around the obstructions above this city.
REFORM.
It is in the air. It is demanded in city, county and state government. The people are paying too much for the luxury of government and getting too little. As our forefathers fought against British taxation, so the people now must fight the tax gatherer and the tax eater. The number of people who want a soft snap at the expense of the taxpayer is legion. Mr. Ford is right in his fight on the innumerable clerks. It is a sure source of corruption of a free government to give away the public funds where there has been no actual value received. With no capital but a pen holder furished by the state the young man or young woman is not entitled to become a public charge.
IT WILL BE USED.
How much better off are the people of this state for a state board of equalization having added thirty-one millions to their assessable property? They are certainly no richer. They will all be called upon to pay fifteen dollars on the hundred additional taxes. Will any of this cent be returned to them? Not a cent. It will all be used and as much more if it is ever levied. Who authorized the state tax board to levy the extra 15¢?

Mr. David M. Jordan, of Edmeston, N. Y. Colorless, Emaciated, Helpless.
A Complete Cure by HOOD'S SARSAPARILLA.
This is from Mr. D. M. Jordan, a retired farmer, and one of the most respected citizens of Otsego Co., N. Y. "Fourteen years ago I had an attack of gravel, and have since been troubled with my Liver and Kidneys gradually growing worse. Three years ago I was so low that I could scarcely walk. I looked more like a corpse than a living being. I had no appetite and for five weeks I ate nothing but green. I was badly emaciated—had no more color than a marble statue. Before I had finished the first bottle I noticed that I felt better, suffered less, the inflammation of the bladder had subsided, the color began to return to my face, and I began to feel hungry. After I had taken three bottles I could eat anything without hurting me. Why, I got so hungry that I had to eat 5 times a day. I have now fully recovered, thanks to Hood's Sarsaparilla. I feel well and am well. All who know me marvel to see me so well." D. M. JORDAN.
HOOD'S PILLS are the best after-dinner pills, assist digestion, cure headache.

Pronounced Hopeless, Yet Saved.
From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all, eight bottles; it has cured me, and thank God I am now a well and hearty woman." Trial bottles free at Dan'l. J. Fry's drugstore, 225 Corn'l. St. Regular size, 30c, and \$1.00.

Jacob Schartback was granted a liquor license in Mt. Angel for three months.
Petition granted for privilege to lay water main along Asylum avenue.
Spencer Horatio Walpole was admitted to the county poor farm.

Infantile Development.
It is wonderful enough that in infants of a few weeks or months should make unmistakable manifestations of the simpler emotions of fear, affection and anger. But that an emotion so complex as jealousy should appear so early as at the age of ten months is especially remarkable, and indicates a degree of development at this age which, in the absence of observation, might justly be deemed incredible.
Darwin observed jealousy in an infant of 10 months, but adds, "It would probably be exhibited by infants at an earlier age if they were tried in a fitting manner."—Cor. Science.

A Yarn from Red Bluff.
A few days ago James R. Holt went for a quilt along the banks of the Sacramento river. Under a cover of brush he discovered a nice flock of birds, but when he raised his gun to have a particular view he was surprised to find the flock flying and he blazed away. The noise fluttering which followed told him the result and he ran for his prize, and just as he was reaching out his hand to catch a wounded quail he was suddenly shocked to discover an enormous rattlesnake in the line of the bird.
He approached the bird again with his gun cocked and ready for a sudden shot, and learned that the snake was dead. When he fired at the bird he killed the snake and six quail, although

RAILROAD JOTTINGS.
A charter has been granted the Olean and Eastern company, in Pennsylvania, to build a line from Genesee Fork to Oswego, Potter county, Pa., a distance of fourteen miles.
The Union Tank Line company is having fifty cars built for the transportation of oil to California. They will be equipped with couplers adopted by the Master Car Builders' association.
The St. Paul has adopted the Kinsman block system on its Evanston division. The feature of this system is an automatic whistling signal to engineers in case two trains enter the same block.
J. B. Purves, Jr., has been appointed master mechanic of the Boston and Albany's East Albany shops to succeed his father, who, after serving forty years has taken the position of assistant master mechanic.
The longest electric railway in the world is reported to be contemplated in Russia. The project is to construct a line from St. Petersburg to Archangel a port on the White sea, a distance of more than 730 kilometers (450 miles).
By the completion of the Atlantic Coast line's "short cut" from Wilson, N. C., to Florence, S. C., via Fayetteville, the distance between eastern cities and Columbia, Charleston, Savannah and Florida points has been reduced sixty-one miles.

FASHION'S FANCIES.
White silk and Angora mitts for little ones are now in order.
Dark red hats trimmed with black velvet, ostrich tips and garnet buckles are worn on suite with gowns of ladies' cloth and velvet.
Some of the prettiest evening bonnets are only a headress of a tiny twist of velvet holding tips and lace wings in front, leaving the entire top of the head exposed.
The finest striped gowns are pretty combined with elbow sleeves puffs, berthe ruffle and empire belt of colored velvet, edged with silver or gilt passementerie.
Men's pearl colored gloves, worn at weddings, the theater, etc., seem now to be preferred with as inconspicuous stitching and finishing as is consistent with fashion and good taste.
The prettiest empire gowns are those having a close fitting lining of silk beneath the transparent gauze that hangs loosely over the lining, with a little fitting on the sides; the lining is even finished with an empire belt, making it a complete robe under the outer material. —Dry Goods Economist.

ODDS AND ENDS.
Austria is reported to have only 153 periodicals.
In Holland many women are practicing dentistry.
Of the foreign merchants in China only twenty-seven are American.
There are nearly a million people in Great Britain who wear eyeglasses. This is crowding Germany closely for the distinction of being the land of spectacles.
In the limited space between Worth street and the Battery, in New York city, where there are many large wholesale houses, it is stated that 15,000 women are employed as typewriters.
In about 100 of the synagogues in this country Sunday meetings are now held, at which lectures are delivered by the rabbis who had conducted the regular Jewish service on the previous day.

1831 THE CULTIVATOR 1893 AND Country Gentleman
THE BEST OF THE AGRICULTURAL WEEKLIES, DEVOTED TO Farm Crops and Processes, Horticulture and Fruit-Growing, Live-Stock and Dairying.
While it includes a minor department of Rural Enterprise, such as the poultry yard, entomology, bee-keeping, greenhouse and graper, veterinary recipes, farm questions and answers, bird-reading, domestic economy, and a summary of the news of the week, its most interesting and valuable feature is the most important of all questions—When to buy and when to sell. It is liberally illustrated, and by recent management, contains more reading matter than ever before. The subscription price is \$2.50 per year, but we offer a special reduction in our CLUB RATES FOR 1893.
Two Subscriptions, in one remittance \$4.00
Six Subscriptions, " " 10.00
