Union Men Recede.

[illegible], Jan. 7.—Last evening General Agent Ferry, of the [illegible] road, called 80 union freight handlers into his office and in the plainest terms told them they could not be loyal to both, and that it was for them to say whether they were ready to give allegiance to the company which paid them wages or the union. Fifteen stepped to company's side, and five, who stood by union, were paid off and discharged.

Immigration.

WASHINGTON, Jan. 7.—In the senate yesterday Chandler (rep.), of New Hampshire, spoke about three hours, devoting most of his argument to the bill to suspend immigration, which measure he favored. In the course of his speech, Chandler spoke of the inconsistency of admitting the ten dollar immigrants and excluding the self supporting and industrious under the labor contract law. Referring to the North German Lloyd Steamship company, Mr. Chandler said it was the favorite route of the secretary of the treasury, the assistant treasurer, the commissioner of immigration, and other treasury officials. He invoked the assistance of the North German Lloyd to carry out the provision not to bring 2,200 passengers on one steamship, and he invoked in all sincerity the newspaper press of the country to aid him in this great work of beneficence and humanity.

After further argument, the bill was modified in some particulars and ordered printed.

New Steamers.

TACOMA, Jan. 7.—The steamers Alaska and Arizona, Atlantic liners, are to be brought around the Horn, and will be placed on the Tacoma and Oriental route. Both vessels have been leased by Bodwell, Carlisle & Co. The statement has been printed before, and been denied, the information now comes from high Northern Pacific authority. The steamships are the property of the Guion line, and are part of the fleet which has for years plied between New York and Liverpool. Owing to the recent restriction on steerage traffic ordered by treasury department, the Guion line is going to go out of business.

Missouri's Governor.

Civil Service.

WASHINGTON, Jan. 7.—The president has extended by amendment to the postal rule classification, the postal service so as to include all free delivery offices, of which there are understood to be 601. Fifty three of these offices are at present classified. Before the extension, the civil service rules applied only to those postoffices which had as many as fifty employes; now the service extends to all offices where carriers are employed.

Against Coming In.

At the meeting of residents and tax payers of North Salem and Englewood precincts last night over Wade's store, J. H. McCormick was elected chairman and B. F. Boise Jr., secretary. After several speeches against the proposition to extend the city limits northward, resolutions were adopted, with only one dissenting vote out of the one hundred and over present the principal part of which reads as follows:

Resolved, that it would be grossly unjust to us and against moral right for the legislature to extend the limits and authority of said city over us without our consent and against our protest.

Resolved, further that we think we know our interests better than outsiders can, and desire to retain control of them.

The following committee was appointed to look after the extension matter before the legislature: Judge Boise, J. E. McCoy, L. A. Savage, J. H. McCormick, Wm. Kaiser and H. A. Olsman. A committee was also appointed to get signers to a remonstrance against being included in the city limits.

A man's wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so too!

UNIVERSITY ITEMS.

Several new students entered during the week.

The students gave a surprise party to Miss Carrie Bradshaw on last Saturday evening.

The holiday candy-pulling at the Woman's college gave the students who could not go home, a Christmas pleasure.

We are much pleased at the number of visitors at chapel, among whom were Prof. S. A. Starr, Secy. J. R. Weatherbee, E. C. Weisner and Wm. Heerdt.

There will be a free lecture by Prof. M. Artemus Golildge of the Royal British Phrenoligical association of London, on the subject of Phreno-Physiology, on Monday evening at 7:30. Every body cordially invited.

B. B. Barker declaimed "Grattans' reply to Mr. Corry" making a good rendition of that strong yet guarded invective. Miss Mattie Beaty read an essay on "Genius" that was bright and sparkling with genius. Our chapel rhetoricals are always interesting.

Dr. Whitaker returned from California, Wednesday. He visited the University of California, the University of the Pacific and the Leland Stanford Jr., university, and says our students are peers of those attending any of the three named institutions. Bishop Goodell will come to Salem in the near future and will devote some time to the interests of the Willamette university.

An Enemy Baffled.

There is an enemy with whom thousands are familiar all their lives, because they are born with a tendency to biliousness. With this enemy they are constantly battling with ineffectual weapons. Hostetter's Stomach Bitters will baffle it. Mere purgatives will not reform a disordered condition of the liver indicated, not by constipation alone, but also by sick headaches, yellowness of the skin and eye balls, nausea, furred tongue and uneasiness more particularly upon pressure on the right side, upon and below the short ribs. Avoid drastic purgatives which gripe and weaken the intestine, and substitute this world famous anti-bilious cordial which likewise removes malarial, stomachic and kidney complaints, rheumatism and nervousness. As a laxative of the bowels, painless but effectual, it improves appetite, sleep and the ability to digest, and possesses the additional advantage of a standard tonic.

SUGGESTED COMMENT.

There are a great many fine appearing young men among the legislators.

If they feel so inclined, members of the legislature can hear some good preaching tomorrow.

The city of Salem and its improved streets receive many compliments from the assembling legislators.

Bill Nye is informed that he is not needed in Salem this winter. The legislature is in session.

There is no senator to elect, but the asylum investigation and state prison reform ought to furnish some political excitement.

THE JOURNAL, DAILY and WEEKLY will have full legislature reports. It will print all the proceedings, suppressing nothing. It will also give full opinions of pending legislation.

Legislators without distinction of party want to read the CAPITAL JOURNAL. It represents the side of the people always. The WEEKLY will be sent to your constituents over the session for 25cts.

Members of the legislature who may wish to see their home papers or examine exchanges are welcome to call at the JOURNAL office. We have chairs, stove, light, desks, and opinions. The former are free. The latter are not for sale.

There is a larger number of young men and new men in the Oregon legislature than ever before. This bodes well for the state. This new material may strike a new gait in legislating for old Oregon. They have history to make and it should not be ancient history.

Oregon should not go unrepresented at the World's Fair, if the members of this session of the legislature go without their salaries to provide for it. But that is not necessary. There is money enough in the state treasury to pay the members, their clerks, and to make a fine display of Oregon resources at Chicago.

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my Lungs, cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave my self up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all, eight bottles; it has cured me, and thank God I am now a well and hearty woman." Trial bottles free at Dan'l. J. Fry's drugstore, 225 Com'l. Deaf for a Year
Caused by
Catarrh in the Head

Catarrh being a CONSTITUTIONAL disease, requires a CONSTITUTIONAL REMEDY like Hood's Sarsaparilla to cure it:

"Three years ago, as a result of catarrh, I entirely lost my hearing and was deaf for more than a year. I tried various things to cure it, and had physicians, but no improvement was apparent. **I could distinguish no sound.** I was intending putting myself under the care of a specialist, when some one suggested that Hood's Sarsaparilla might do me some good. I began taking it without the expectation of any lasting help. To my **surprise and great joy** I found when I had taken three bottles that my **hearing was returning.** I kept on till I had taken three more. It is now over a year and I can **hear perfectly well.** I am troubled but very little with the catarrh. I consider this a **remarkable case,** and recommend

Hood's Sarsaparilla

to all who have catarrh." HERMAN HICKS, 30 Carter Street, Rochester, N. Y.

CASTORIA
for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."
CARLOS MARTYN, D. D., New York City.
Late Pastor Bloomingdale Reformed Church.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhoea, Eructation, Kills Worms, gives sleep, and promotes digestion, Without injurious medication.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results."

STRAITS OF LE MAIRE.

A Little Known Geographical Rival to the Straits of Magellan.

First Mate Thorndike, of the British ship Mashona, had a little talk with a reporter yesterday, and in the course of the conversation incidentally referred to the fact that he was on the Merionethshire when that vessel made the quickest passage on record to San Francisco from the United Kingdom. The trip was made four years ago, and the time was ninety-six days.

"And now," said Mate Thorndike, "I am going to ask you a question. How many schoolmarms in California know for a fact that there are two ways of coming to San Francisco from New York or Europe by way of South America without rounding the Horn? Ask them. I would almost wager everything I possess on the proposition that without preparation they would tell you that the only way to avoid the Horn is by going through the Straits of Magellan.

"Now I am not teaching geography, but every sailor knows of the Straits of Le Maire, but how many presumably well informed people in San Francisco, or in London for that matter, know that there is another short cut through the South American continent?

"The Merionethshire did not come through the Straits of Le Maire when she made her ninety-six days' passage, but sailing ships have passed through those straits, and if all the conditions were favorable the trip might be thus shortened nearly seven days, so that theoretically a modern sailing ship might reach this port in eighty days or even less. But sailing ships very rarely indeed come through these straits. Time is not so much an object as it was in the days of the fifties, and in addition the vessel that undertook it would forfeit her insurance. No insured sailing vessel ever comes through the Straits of Le Maire. I have sailed through those straits once, and would not care to do it again.

"The Straits of Magellan and the Straits of Le Maire represent two alternatives as against rounding the Horn. Neither of them is at any time beset or blocked by ice. The ice floes travel from west to east around the Horn, many degrees to the south of the Straits of Le Maire, which lie between the southern end of Terra del Fuego and Staten island. By going through the Straits of Le Maire a ship can save 1,000 miles, but you will readily understand that, as the northern summer is the antarctic winter, no vessel would ever attempt the passage in June, July or August.

"The Magellan passage is only possible for steamboats anyhow. The reason is that a sailing vessel must find an anchorage on the way through, and there are five of these anchorages. But none of these can be made, because the current is very strong, especially at full moon, and because there is no wind. On the average the Magellan straits are not more than four miles wide in the thirty miles of their length, and often the width is only one mile.

"The Straits of Le Maire are five degrees farther south. They are about thirty miles through and as many miles across, but the trouble is that when you get to the Pacific side there is a current dead against you, and northwest gales setting you dead on a rockbound coast.

"Just take up a good map of the south of South America and have a talk with an old seaman," said Mate Thorndike as he bade the reporter goodby. "It is a part of the world that is going to become interesting very soon, and the events of the last two years are going to lead up to others that may make a knowledge of the crosscuts of the southern continent very interesting to statesmen before very long."—San Francisco Call.

A Common Word.

The ass is generally supposed to bear the same name in all families of speech. In Accadian its sound is doubtful, but in Turkish speech it is as as-ek (with the noun ending in ek), while in Egyptian it is su. The Aryan asinus has been compared with the Semitic athon, for "ass," and all these words seem to come from the old root as, "blow," or "breathe," and to be thus connected with the softer form ah, and so with the note of the animal, which is its greatest peculiarity. In other languages the ass is called khara, "he who cries out," from a similar origin. It may be conjectured that the ass was not unknown to primitive man.—Scottish Review.

HARPER'S WEEKLY.
ILLUSTRATED.

Harper's Weekly is acknowledged as standing first among illustrated weekly periodicals in America. It occupies a place between that of the hurried daily paper and that of the less timely magazine. It includes both literary and news, and presents with equal force and felicity the real events of current history and the imaginative themes of fiction. On account of its very complete series of illustrations of the World's Fair, it will be not only the best guide to the great exposition, but also its best souvenir. Every public event of general interest will be fully illustrated in its pages.
