THE BEST UMBRELLA IN THE WORLD. THE CLOSEST ROLLING UMBRELLA EVER MADE. THE FRAME WILL LAST A LIFE TIME.

It was a JOKE.—The Lumberman tells it: Matt Collyan, the genial timber land locator, tells a pretty good Oregon Pacific story, which we believe has never before been published.

CALHOUN OPERA COMPANY.—This fine company of 35 people arrived this morning and will present "Said Pasha" at the opera house tonight.

LABOR MEETING.—At the Opera house yesterday there was a labor meeting presided over by Mr. Kurtz of the Cigar Maker's Union of Salem.

WORK THEM WE SAY.—The city jail was empty part of last week and Saturday had but one prisoner. It would be more business like to make vags and drunks do some street work to pay for their meals, lodging and expense of conviction.

IMPROVED.—The changes in the make-up of THE JOURNAL are generally appreciated. There are still other improvements contemplated, which will make the model evening paper of this valley.

FOR THE ORPHANS.—An appropriation of \$5000 has been asked for the orphan's home of Albany. This amount will be included in the general appropriation bill and will doubtless go through as the object is a most worthy one, and the state has heretofore extended aid to this institution, which is now sadly in need of help from the state.

APPRECIATED.—Experience and conscience are worth something in the grocery line, when it is considered how many articles of daily use are adulterated these days, as sugars, teas, coffees, spices, vinegar, syrups, etc.

EXTENSION OF CAR LINE.—The county court has granted right of way to the Salem Motor Railway Co. to extend its line south from the city limits. The extension is to be completed early this spring.

SALEM STREET RAILWAY CASE.

Important Decision Over Question of Exclusive Franchises.

A decision was rendered today in the supreme court that affects the value of more property in Oregon than any that has been handed down in years.

It was in a suit begun in the circuit court of Marion county to enjoin the Capital City Railway Co. from operating a street railway under a franchise granted by the city of Salem.

The court holds: That the right to grant an exclusive charter depends upon the power granted to the city by its charter. Sec. 6 provides that the mayor and council "shall have exclusive power" to exercise certain granted powers, including that to allow and regulate laying down of street car lines and operation of the same.

NOT THE LEAST BIT AUTHENTIC

The Rumors of Dolph's Appointment to the Federal Bench.

State house circles were thrown into a positive flutter of excitement this forenoon by the rumor that President Harrison had decided to present Senator Dolph's name for justice of the supreme court in case the senate refused to confirm Jackson.

Possible candidates and reporters were soon rushing about to run down the rumor but without success. Some had told some one that he had heard it reported so and so, but there was no foundation to rest it upon.

Democrats were rushing in to consult the governor, and some went so far as to discuss probable chances of preventing a quorum in case an election to succeed Dolph should become necessary, and thus throw the selection of a senator into the governor's hands.

HOUSE—3:30 A. M.—FEB. 13.

Belknap moved suspension of rules to allow resolutions to be offered; carried. Resolution read. Nichol moved adoption; carried.

By Manley, relating to assessment, No. 343, passed. By Geer, of Clackamas, to exempt all credits from taxation; special order Tuesday 4 p. m.

Upton, to repeal specific contract law, providing for payment of obligations in gold coin. Paxton said school district, county or city that had bonded upon those terms would suffer hardship by such a law. Upton replied that by no stretch could this bill be made to apply to contracts already made. There was extensive debate over this question. Bill failed; yeas 11, nays 35.

By Ormsby, to regulate hours of labor upon street railways, so that not over twelve and one-half hours out of twenty-four shall constitute a day's work. After discussion. Ormsby asked call of the House.

Ford offered an amendment to make it a misdemeanor for any man to be permitted to labor longer than provided in this bill. If this was not so amended the object of the bill would be defeated, because for a pittance men could agree to work extra hours, break down their constitutions and endanger public service. He moved to recommitt. Paxton said he was opposed to men being prohibited from working longer hours for more pay if they wanted to. Ford showed that there was no punishment by fine for violating the law. He said there was a point beyond which human endurance cannot stand, and he wanted a penalty for violation of that feature of the law. On his first amendment, yeas 18, nays 30. On second amendment, yeas 43, nays 5. Recommended with leave to report at any time.

Upton bill to make county commissioners court board of equalization; passed. Daily bill for graded school in Southeastern Oregon, \$5000; passed.

By Curran, relating to pharmacy; passed. By Ford, creating state board of 25 cents, at Clark & Eppley's.
