BROAD GAUGE REPUBLICANISM.

Occasionally an interested person objects to a Republican newspaper bringing out another Republican for party honors or advancement. The theory is always advanced that the person seeking office...

We admit that anyone or even a newspaper has the privilege of raising those questions. But we deny that either of the assumptions has any just foundation when coming from an interested party who is himself an office seeker.

We are a firm believer in a broader gauge of Republicanism than that. We believe in throwing the doors of the party and of the public service open to all men upon perfect equality and let them take their chances in the race for success.

We are speaking now of the rights of men within the party. We are firmly of the conviction that all such aspirants should be subjected to the most rigid scrutiny of the press and of the public. We believe public officials should be held up to the highest tests of criticism, regardless of party.

The triumphant southern politicians in congress showed clearly enough that their hostility is directed, not toward the pension system as such, but toward the veteran who fought to save the nation and subdue secession.

THE LEGISLATIVE DAY.

THE JOURNAL is on the best of terms with Mr. Speaker Keady of the house. It admires his ability as legislator and his fairness as a presiding officer.

His explanation of the passage of that measure has been perfectly satisfactory to every member of the legislature. There has never been a supreme court decision upon the question of what is a legislative day.
