OREGON AT THE WORLD'S FAIR.

Circular Letter to the feeple of Oregon As the world's exposition opens shortly, no time should be lost, if we would be properly represented. Our state has been allotted ample space in the different department buildings, which the Oregon commission has promised to fill, and which it hopes to occupy with honor to the state. And to make the labors of this commission the more successful, which will add not only to the credit of the state, but to her every citizen, the free co-operation of her each and every resident is

earnestly solicited. Persons who have prepared individual exhibits, societies, organizations, or associations of any kind that have prepared exhibits of any kind are urged to at once place themselves in commu nication with the heads of the several departments of the commission. You may be able to judge to which department your exhibit belongs by reading what follows: The commission desires to send to Chicago those things which will in any manner give a true repre sentation of any of Oregon's resources, or add in any way to the attractivness of the spaces allotted to Oregon in any of the exposition buildings.

The Oregon exhibit will be collected and displayed under the following

The department of Agriculture, forestry and forest products, and live stock. W. F. Matlock, superintendent. The department of horticulture, including Floriculture and viticulture, Dr. J. R. Cardwell, superintendent. The department of mines, mining, and metallurgy, C. W. Ayres, superintendent. The department of fishing and fishing apparatus, manufactures, electrical and mechanical inventions, Geo. T. Myers. superintendent. The department of woman's work, comprising the fine arts, household economy, and products thereof, Mrs. M. Payton, superintendent until July 1, 1898, and Mrs. E. W. Allen, superintendent from July 1,1893. The department of education, including educational exhibits, literary, special, general, music, etc., E. B. McElroy, superintendent. The department of civil government, including state

A FLORISTS SOCIETY.

Salem is big enough to have a strong florists organization. The success of the rose shows and chrysanthemum fair held here indicates what greater ganized effort.

The Oregon State Horticulture society is interesting the ladies of Oregon in floriculture. Mrs. M. E. Shafford, of Portland, has been elected chairman of the executive committee of the floral department and under the auspices of the society it is proposed to conduct flower shows. The first one under the department's auspices will be given in Portland during the first week in June. Premiums will be offered for the best individual exhibit, the best exhibit by a florist and the best exhibit by a city. Entries are expected from all parts of the state, for every student and practitioner of floriculture in the state is interested in the department's work and eager to promote it. A feature of the how will be the native flora exhibit, which will do much to acquaint the people of Oregon with the floral treasares which nature has so lavishly bestowed upon them, Practical lessons in flower cultivation will be given by experienced florists. It is the intention to secure a guarantee fund sufficient to enable the committee to offer premiums that will invite competition exhibits from all parts of the state. During the year similar shows will be held in other cities which are now manifesting a lively interest in the departments la-

Mrs. Carpenter will give has been just so, it has rained when it in this continuation of her paper a strictly accurate history of the inhuman slavery of the Indian children sible, it hid its face behind some cloud, is Mendocine county, fully illustrated as if trying to convince us gradually that there was actually a sun in Oregon.

SUGGESTED COMMENTS.

Now let the July race meeting be as well worked up as was the sportsmen's gathering.

There is one science of advertising well understood-that of working the newspaper man for free advertising.

Cleveland has no use for the warhorses. He prefers unbranded cattle. fresh from the range, for office-holders.

The violet is our first spring flower and its rare rich perfume is never equalled by any floral followers.

The advertiser who places his an nouncements, intelligently using common sense, can get actual return profits from the columns of THE JOURNAL.

So the reform Democratic congress spent \$1,026,822,049, or \$38,404,866 more than the preceding Republican cougress, which was liberal enough, as all know.

Postmaster-General Stephenson and Secretary of the Treasury Carlisle both place their sons in the best offices under their department. They are civil service reformers with a vengeance.

Not having been elected Mr. Allen is to be appointed Senator from Washington. Gov. Moody of Oregon held he could not do that and called a special session to elect one. But Gov. McGraw thinks he can.

THE JOURNAL has the only associat ed press franchise held by any even ing paper outside of Portland, and receives the same daily press report taken by the Portland Telegram, the only other daily getting an afternoon report. Its readers get all the news.

There are some parts of rural districts near Philadelphia there was a crematory in successful operation in or near New Orleans at the time of his death. The general gave as a reason for wanting his body cremated that he considered cremation better for the sanitary condition of such a climate as Louisians than the things could be done if there were or. present mode of burial. As there was no crematory anywhere near, this request was considered void.

This school district is to be congratu-bied upon having a board of school di-rections composed of educators, or rather of gentlemen who take a real interest in their public schools and in public fermion in the best sense of the word.

The annual school meeting was held, and the friends of H. C. Porter and D. Swank, relieved them of their un-thankful office of school director and clerk, and laid the burden on the with-ing shoulders of Messra. Ball and Cole, The gentlemen rejoice in their victory,

but need not, as Messrs. Porter and Swank personally urged their friends to vote against themselves and vote for the lucky ones, having the interest of the district at heart and believing that Ball and Cole was better qualified to be clerk and director while building a new school house, for the reason that one is a lumber dealer and the other a hardware merchant.

The question of a new school house was the leading thought of the meeting. A vote to build one costing \$2000 was unanimously voted, with the exception of Charles Heins who wanted one costing \$3000.

The business interest here is well represented, good stores, good blacksmith shop, good lumber yard, good hotel and a good flouring mill, from which the city of Salem receives a good share of its flour.

Mrs. Cole is gradually recovering from ber illness.

The religious interest here is not very strong. No severe fight has been made upon the Devil, and by all ap-

21 Years of Suffering Ended by One Bottle of

Hood's

The intense misery of those who suffer with sick headache, is beyond description. The wonderful success of Hood's Sarsaparilla in curing this trouble warrants us in urging all who are afflicted by sick headache to give this medicine a trial. Read these grateful words from a well known Illinois lady:

"Few people suffered as much as I have with sick headache. I have had it by spells for 21 years, sometimes as often as

Three Times a Week. I would get up with it, suffer all day, go to bed with it and have it all night. I tried everything that was recommended, but never was cured until about a year ago, when

My Mother-in-Law persuaded me to try one bottle of Hood's Sarsaparilla. I am glad to say that it cured me, and I have not had sick headache since I took the first bottle of Hood's Sarsa-parilla. It has done me a great deal of
