IS RICHARDSON INSANE.

There are signs of it in the following.

There is much comment among readers of the JOURNAL report of the attempted wreck of the Southern Pacific Friday, some holding Richardson to be a train wrecker. The Eugene Guard prints this:

A deeper mystery has been added to the affair by a statement made by one W. H. Gosler, who recently arrived here with a party of immigrants from Iowa. He knew Richardson there several years ago and they recognized each other on the streets here several days ago. In recounting his experience since they had met last, Richardson told Gosler a story of how he saved a train on the Union Pacific railroad when coming out here two years ago. That he "discovered a boulder which had rolled down the hillside on the track," west of Pendleton and that "going round the curve he set fire to his coat, and flagged the train" and received \$3000 and a life pass over their system. As it is improbable that the experience he related ever happened and as most of his other conversation showed that his mind was full of superfluity, it may be that the matter on his mind at that time amounted to a pre-intimation of last night's experience. He also showed Mr. Gosler lots in different parts of Eugene, claiming to own them although his claim was not true.

RICHARDSON'S CONDITION.

PORTLAND, Apr. 1.—The condition of George E. Richardson, hero of last Thursday night's attempt to wreck the Southern Pacific train continues to improve and his ultimate recovery is almost assured.

HARRISON INTERVIEWED.

About Frauds in the Behring Sea Commission.

SPEAKER CRISP AND CLEVELAND

Have Got Together On Very Important Issues.

HARRISON ON GRESHAM.

Discovery of a Mare's Nest in the Behring Commission.

INDIANAPOLIS, April 1.—Ex-President Harrison after reading the article about extravagant allowance to staff of Behring Sea Commission said: "I don't know anything about it."

When pressed for an explanation he said: "Well, General Foster was employed by Blaine, at what pay I do not know. I know, General Foster, however, has done noble work. About the other charges I have nothing to say, as I am ignorant of facts."

CRISP HAS HIS ORDERS.

He Must Conform to Cleveland's Policies.

WASHINGTON, April 1.—The Post says Speaker Crisp had a consultation with the president in reference to an extra session. The president, it is understood, exacted assurance from Crisp, later would support the president's reform, monetary reform and pension reform policies. The speaker gave those assurances. He was then informed that an extra session will surely be called in September and vacant committee chairmanships are to be given immediate attention. Owing to the determination of retire Mr. Springer from the ways and means committee it will have a new chairman. Will McMillin is the next member in line of promotion. Wilson is also talked of. It is thought Hayes will succeed Hobman as chairman of the committee on appropriations.

Trouble Among the Choctaws—A Battle Imminent.

WASHINGTON, April 1.—A telegram was received this morning from Agent Bennett at Union agency, saying he was enroute to the scene of threatened trouble between the Choctaws, and forwarded the following telegram from Commissioner Gibbons: "The opposing forces are in camp, four miles apart, preparing for a conflict. BURNED TO DEATH.

A Railroad Men's Hotel in Flames With Fatal Result.

BRADFORD, Pa., April 1.—A fire was discovered early this morning in Higgins' hotel, patronized chiefly by railroad men, of whom about seventy-five slept in the structure. When the fire broke out the escape of many was out off by the flames, and they were compelled to jump from the windows. The structure was entirely consumed, together with the Buffalo, Rochester and Pittsburg depot and freight house, and one or two other structures. Three bodies have been found and two are known to be still in the ruins; twenty-five are injured as the result of the fire. The financial loss is about \$100,000.

A Couple of Denials.

WASHINGTON, April 1.—Secretary Gresham denies the report that the United States minister at St Petersburg has been directed to stop all negotiations concerning the Russian extradition treaty, with a view to having the whole matter referred back to this government.

Speaker Crisp's private secretary says there is no truth in the report that Cleveland requested him to see about arranging his committee, as he intended to call an extra session on the first of September.

A Carpenters' Kick.

NEW YORK, April 1.—Walking delegates, representing the four carpenter organizations in this city, have joined to fight the system of letting contracts, by which large jobs taken by one contractor are sublet piecemeal to smaller ones.

Mountain Fires.

CONNELLSVILLE, Pa., April 1.—Mountain fires are raging all along the Eastern slope of Chestnut Ridge and Laurel hill mountains. Several farm

houses and barns burned last night and today, and wind is carrying fire at a rapid rate toward the orphan school near Uniontown. Under brush and leaves are dry as tinder.

TERRIFIC MINE EXPLOSION.

Fifteen Lives Lost, and the Mine in Momentary Danger.

SHAMOKIN, Pa., April 1.—A miner's lamp caused an explosion in the Nielson shaft operated by Langdon & Co. this morning. Many miners in the mine at the time escaped, but twelve or fifteen lost their lives, and a number miners were suffocated. Owing to yesterday being a holiday not as many men were at work as usual. Ten of the men have been recovered. It is not certainly known any more are in the mine which is burning fiercely with momentary danger of explosion, despite this force of men and officials battling the flames and gas. The dead were all found in a vein to which smoke found way from a vein two hundred feet below. A thousand men are thrown out of employment.

Dropped Dead.

INDEPENDENCE, Or., April 1.—D. P. Pedrose, an employe in the lumber yard of Prescott and Venes, dropped dead while at his work yesterday at 11 o'clock. He was talking in the engine-room a few minutes before in apparent good health. He was first seen among the lumber lying on his back, and after being picked up gave a gasp, and never again breathed. The deceased leaves a widow and five children living here.

GLASGOW, April 1.—George Abingdon Baird, the noted sporting man who died at New Orleans, March 18th, was buried in the family vault at Studebaker. Charles Mitchell was present but his presence was evidently distasteful to relatives, and he was not allowed to join the funeral procession.

TEACHER'S MEETING.—The Salem teacher's held their regular monthly meeting at the East building March 28th. After disposing of the business part of the program they listened to a most thoughtful address by Rev. Haven. The speaker took for his theme the life-work of his father Bishop E. O. Haven, drawing from it many helpful suggestions for the earnest teacher. Such truths as "The mission of true teaching is to build character rather than to communicate facts" so that the pupil may have strength to gain knowledge for himself, were forcibly illustrated from Bishop Haven's experience. Also the importance of preserving the personality of each child and of developing self-control as an important element in discipline. No better illustration of the result of the father's theory could be found than the address of the son, every sentence of which showed broad culture without the slightest attempt to "air his knowledge." The address was followed by a spirited discussion, the question being "Resolved, That the teacher should be promoted with his class for at least two years."—There were many bright things said on both sides though nothing less than an expert lawyer could have told which side some of the teachers talked on. To the average mind they seemed to be on both sides. The discussion proved for one thing that there were good arguments.
