WHO IS PICKET?—A Portland dispatch says: "Douglas Picket, of Salem, has just learned that he has fallen heir to property in Salem valued at about \$20,000. Picket left home several years ago, and in his absence his mother and the late Mr. Parrish, his grandfather, died, leaving him property valued at \$20,000. For some time Picket has been scrubbing floors at the Edmund hotel in this city." The city directories fail to disclose a Picket, and at last accounts grandfather Parrish had not died, but was making his spring garden.

PANAMA MASSACRE.—April 15, 1859 there occurred a bloody massacre at Panama, remembered with horror at this 37th anniversary by a number of families of immigrants still living in Oregon who were immigrants on the ship Illinois from New York. A passenger had an altercation with a native over a meal at the railway station, which ended in the natives firing on the defenceless whites who were buying tickets. Seventeen were killed and a number wounded. The police came to the scene and also began firing on the whites. Jon A. Sellwood of Salem and his uncle who died last August were in the massacre, and the latter was wounded.

THE LATEST.—The plan upon which the New York Racket works, can only result in saving money to their customers. Their goods are paid for in cash, from the manufacturer to them, and they mark at very close profits, and sell for cash only. On their line of ladies', cents and children's shoes, there is a saving from 10 to 20 per cent, and on soundings, embroideries, laces and ribbons, from 25 to 50 per cent; their hats, boys' clothing, and men's pants and overalls show a large percentage saved, and on all notions they are away below all competitors. They request all to call and examine their goods and prices.

ROWLAND-AINSWORTH.

The Dalles papers contain the announcement of the marriage at The Dalles, Wednesday, April 12, 1893, of Margaret E. Rowland and Lewis D. Ainsworth.

The groom was formerly a resident of Salem, where he was employed in the Ladd & Hush bank. He is at present teller in a bank at The Dalles. The bride is a niece of Mr. and Mrs. Superintendent L. L. Rowland, at the asylum, and has many friends in this city, where she has frequently visited.

COMPOSITE ORDER.

To a birth notice in a Southern California paper the following remarks are added by the editor: "The child is the first Dutch infant born in the San Luis valley. The notice is written by a Dane, put in type by a Mormon, the proof is read by an American, the type placed in the 'form' by a German, and the paper is printed by a Mexican. This affords an interesting notion of the composite character of the great American people of the far Southwest."

JENNESS ANNOUNCEMENT.

Miss Mabel Jenness will lecture at the opera house on Tuesday night, April 18th. She is a most delightful speaker and will give to the ladies of Salem some new ideas about healthful and artistic dress and carriage, which will, if adopted, greatly enhance their beauty and elegance of manner. Her methods were very popular in Portland where presented by her sister Annie Jenness Miller.

OREGONIAN TRAIN.—Information has reached Salem that the Portland Oregonian contemplates running an early morning newspaper train to reach this city at 6 o'clock. Multiplicity of Salem newspapers has cut down the Oregonian's circulation at Salem some, and by the above move it would undoubtedly recover its lost ground. With modern methods and something new in the way of proper newspaper attention to the second city in the state, would restore the ascendancy of the Portland morning paper. The early morning train could not but be useful to Salem in other ways and it is to be hoped the arrangement to give the Capital City a special newspaper train from Oregon's metropolis may succeed.

COUNTY AND CITY FINANCES.

THE JOURNAL has earnestly plead for reform in city and county finances. Mayor Gatch when he went into office suggested that an intelligent statement of city finances be printed in the city papers every three months, to answer the public demands to know "where we are at," that at the time of the last city election had risen to a clamor. No heed has been paid to his recommendation, and by the end of his term this public will be as much in the dark as ever. The city warrants are paid at a bank. The city recorder turns all moneys over to the bank. Whether it is applied to old warrants, or new, is not known. Whether the city is running ahead or behind no one can tell. If the citizen could compare a quarterly statement every three months he could satisfy himself, this reform in city affairs could be easily brought about, and would prove very satisfactory.

The same is true of county affairs. New conditions are arising. The time when the county officials could know personally all the leading men of the county or all the people of any neighborhood even is past. The only contact that the vast majority have with the county government is through their newspapers. The newspaper is the only means that the farmer, who is kept from town by bad roads from three to six months of the year, has of knowing what is done at the county seat. And they have a right to know what is done with the public money. They do nothing but pay. The few get profits out of the county. The many have at least a right to know what shape they get them in.

Judge Hubbard takes exception to THE JOURNAL'S criticism that the affairs of the county court are a sealed book. He says the county court has ordered all their official business made but that the clerk has not attended to it. Well, he is the court's clerk, not ours. All we know is that the law requiring publication of the orders of the court and the disposition of claims presented there is not complied with. The public are left in the dark. The semi-annual county financial statement is not published. THE JOURNAL cannot be charged with mercenary motives in this, because compensation fixed by the court is not intended to cover cost of setting the type even, and the semi-annual statement of the clerk, sheriff and treasurer are published by the Democratic clerk who would probably give the publication to some Democratic paper or some Republican paper that helped elect him. What we complain of is that these city and county finances are not made public at all. They are kept in the dark. They are not open to inspection, criticism or discussion, by newspapers or the public. THE JOURNAL is satisfied with its own course in this matter. Its constituency in this city and county are satisfied with its course. It is in the interest of intelligent citizenship and good government. The law should be complied with.

NONE DENY IT.—That Jones & Bernard's French ice cream soda compared with other makes, is like French cream candies compared with stale stick candy. It is the only genuine.

BICYCLE CASE.—While on the sidewalk Friday evening W. H. Morgan was run into by a bicycle ridden by Paul Hanson, whom he had arrested. The case was settled today amicably to both parties.

FOR TILL-TAPPING.—J. H. Miller was lodged in the county jail this morning for tapping the till of the railroad depot at Gervais. About \$5.00 was taken. He will have a hearing before Justice Poujade, Monday morning.

County politicians are considering whether a new county judge is to be elected to succeed Judge Hubbard. The decision seems to be that a judge holding for an unexpired term does not hold for four years.

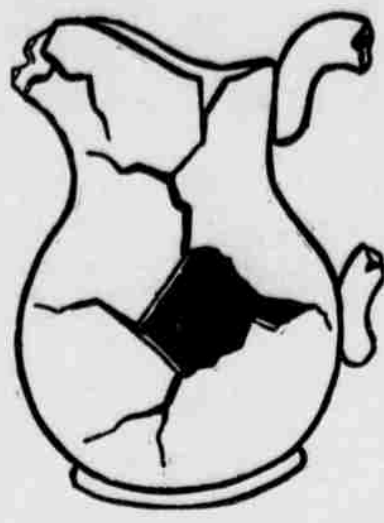

Seems incredible but true nevertheless—A man jumped ten feet in the air this morning at 9:15 in front of Keller & Sons special sale corner window. The low price on a sideboard did it.

\$100 GUN.—Parker Bros. of Meridan, Conn., writes President Gabrielson of the State Sportsmen's association that they will offer the association a \$100 grade gun, as a prize to the party making the highest average during the three days tournament. This company has given the tournaments two guns before and has always treated the state gun clubs liberally, and their offer this year is highly appreciated by the officers of the state association at Salem. It will be sent on in time to be exhibited before the state tournament.

THAT ROAD IMPROVEMENT.—The men who are pushing the move to build a gravel road from Salem to McMinnville report that they have met with the best of success, but that the matter will be delayed until the new law goes into effect May 17th. After that date the matter will be pushed as rapidly as possible.
