IF the people of Salem should secure the location of the soldiers' home and all other state institutions at that place, the Review will pledge a solid delegation from Douglas county in the next legislature favoring the removal of the state capital to the town that will bid highest for it.

THE people of Oregon might as well get right on this matter. What are the facts? I. It is the delegations in the legislature from outlying counties who have state institutions and from counties that want them that were organized by the Portland gang at the last session to boodle the whole state.

IT is said to be an acknowledged fact that the Iowa building on the world's fair grounds is the finest structure in Jackson Park. Hurrah for the old Hawkeye state!

There is a field at Portland for a modern Republican morning newspaper, and a field at Salem for an evening Democratic paper of the right sort.

Ed. JOURNAL: There is an impression that I am encroaching on Commercial street in building my new barn south of the viaduct. But I am not. Having bought property there, I am only temporarily using part of Mill street abutting on my property, as soon as others about the city are doing where the street is not used, never has been used, and never can be used. I ask no favors that have not been asked to many others.
