Can't Stand the Kodak.
A Boston paper has adopted an effective method of ridding public places of well dressed loafers. Only a fortnight ago it was not possible for a lady to walk on Washington street without being ogled and perhaps addressed by one of this genus, who, with fashionably dressed companions, haunted some corner or doorway from which to practice his impertinence. Directing public attention to the nuisances, the Boston Journal gave minute descriptions of the dress and appearance of these loafers day by day, so that its readers began to recognize and stare at them. Posts of observation that had known them for months knew them no more, for their impudence was not proof against ridicule.
Those who linger receive such attention as this: "The young man who was described on Saturday in the long blue box coat and tanned shoes is still hanging around, but his stand is not so steady by any means. The man in the long gray coat, who wears a silk tie a little the worse for wear at all hours of the day, is still holding his place patrolling the coast from the Adams House to Boylston street."—Exchange.

SIOUX CITY, Iowa, May.—The assignment of the Union Loan and Trust Co. has completed a schedule of assets and liabilities. The latter are enormously greater than at first supposed, amounting to nearly \$8,000,000 dollars.

Chicago Bank Busts.
CHICAGO, May 9.—As soon as news of trouble in the affairs of the Chemical National bank became known at the world's fair grounds this morning, an anxious crowd gathered around the branch of the bank which is the official bank of the world's fair and located in the administration building. The door however, was tightly closed and nobody could learn anything as to prospects of getting money.
As anticipated the main bank is also closed. The capital of the bank is a million dollars. It is expected the depositors will be paid in full. The failure had no effect in financial circles. Poor judgment in making loans and monetary stringency caused failure.

WORDS OF A TYRANT.
The German Emperor Addresses Officers of the Army.
BERLIN, May 9.—While reviewing some troops in the field at Temple Hofer today, the German emperor ordered the principal officers of the imperial guards to gather around him, and addressed them as follows: "I have been seriously disappointed in the patriotism of the late Reichstag. I hope the coming Reichstag will adopt the military bill, but if it should refuse to do so, I am determined to carry the bill."

FINIS CARLISLE HARRIS.

Innocent or Guilty He is Under the Ground.

New York, May 9.—Private services over the body of Carlisle Harris, in the prison at Sing Sing, were held this morning, at which only his mother and brother attended. A dramatic incident in connection with the service was the dropping into the coffin, in accordance with Harris' directions, an affidavit of one of the jurors in the case of application for a new trial.

SING SING, N. Y., May 9.—The remains were buried in a highly polished oak casket, which was carried into the death chamber where the body of Harris, dressed in a dark suit of prison-made goods, reposed upon a table. The body was placed in the casket. The undertaker refused to disclose his plans for the disposition of the body. The silver plate upon the cover of the casket contained this inscription:
"Carlisle W. Harris,
Murdered May 8, 1893.
Aged 23 years, 7 months, 15 days.
We would not if we had known."

THE CENTENNIAL OUTSTRIPPED

Attendance at the World's Fair Rapidly Increasing.

CHICAGO, May 9.—Old Sol sent bright cheerful rays upon the White City today. Up to noon the estimated visitors already upon the grounds would indicate that yesterday's attendance of 20,973 has already been exceeded. In comparing the attendance here yesterday with a corresponding day at the Philadelphia centennial, it is shown that 8873 more persons paid for admission here than at the centennial. The program for the day includes exercises by the Catholic Knights of America, this being their day at the fair.

Departing Chinese—The State Case—An English Duke Falls in Love With a Circassian Telegraph Operator.
TACOMA, May 9.—Two hundred and ninety-three alleged Chinese actors and merchants were turned over to the steamship Victoria, which brought them over, to be deported to China, by order of Collector Wasson. The Wah Yung company of Chicago, who are importing the actors, sent a telegram to the steamship agents to hold the ship twenty-four hours and they would furnish proof sufficient to land them. The agent wired back they would detain the vessel twenty-four hours for \$1,000. To this message no reply was received, but it is thought the vessel will be detained.

The Itata Case.
SAN FRANCISCO, May 9.—United States Judge McKinnis, Morrow and Hawley, sitting as a circuit court of appeals, affirmed the judgment of the United States district court of Southern California dismissing the libel against the Chilean steamer Itata and releasing the vessel and two thousand cases of rifles which she had aboard when seized by the United States marshal in San Diego harbor two years ago. The libel suit in the Itata case charged a deliberate violation of section 5,283 of the United States revised statutes and set forth that the Itata had been fitted out with the intent to cruise and commit hostilities against the government of Chili, with which the government of the United States was at peace. The court finds that the state of affairs as alleged in the libel is not borne out in the evidence.

Duke in Love.
LONDON, May 9.—The Moscow correspondent of the Daily Chronicle says: It is rumored that Grand Duke George (the second son of the czar) became enamored of a pretty Circassian telegraph clerk in Caucasus where he stayed for his health. He determined to marry her. His parents are annoyed but they are expected to give their sanction as the grand duke is not expected to recover.

Nicaragua Affairs.
WASHINGTON, May 9.—The disturbed condition of affairs in Nicaragua will probably result in the United States sending a war vessel to the west coast of that country. Such action is being considered by Secretary Gresham, but no information has been received at the state department concerning the uprising since Consul General Holman wired Secretary Gresham last week that a serious revolt had occurred.

German Army Bill.
BERLIN, May 9.—The North German Gazette expresses the belief that "the coming elections will repair the attack on the prestige Germany made by the vote in reichstag against the army bill. The people will surely recognize that a completion of the defenses of the country are necessary to its continued existence.

English Ship Wrecked.

BOYCOTTING OUR FAIR.

Phoebe Cozzens Kicks Up a Row Among the Women.

TORONTO, Ont., May 9.—Sir James Long, proprietor of the Sheffield (England) Telegraph, who visited the world's fair last week with a party of British journalists, has given his impression of and the prospects of the fair. He said he considered the Chicago show the greatest ever held, the most extensive, the most costly, and architecturally the most imposing. It was a question of money and never before had so much money been contributed for such a purpose. The buildings were much ahead of those at Paris, but he was disappointed at the unready state of the exhibition. Strangely enough, the most backward exhibits were those which the Americans themselves were making. In his district in Sheffield, all but two manufacturers had practically boycotted the Chicago fair on account of the McKinley act preventing them from selling goods in the United States. He approved this action at the time they decided it, but he now thought it was a mistake. Many British merchants were losing the opportunity of a lifetime for advertising. If it had not been for the McKinley act, England's exhibit at Chicago would have been the best that country had ever made. He did not think the exhibition of paintings equal to that made at Vienna. He did not think it would be a financial success.

Phoebe's Kick.

CHICAGO, May 9.—The feature of the day in official circles of the world's fair was the effort of Phoebe Cozzens to abort the action of the board of lady managers in adjourning sine die. She appeared before the national commission, but the point of order was made against her and she was ordered to present the matter in writing.

The reports of committees directed to inspect the condition of the several departments were received. Most of the committees asked for further time and others made verbal statements. Most of the exhibits in agricultural building will be in position by the end of this week. The executive committee on awards submitted a report favoring a judge in place of a jury.

The matter of Sunday closing was brought up when Commissioner Bundeley, of Alabama, offered a resolution that the commission regard the rule requiring that the gates be closed Sunday as the binding and final determination of the subject both in law and prolonged debate. The resolution was withdrawn, quiet reigned for a moment only, as Commissioner Way, of Georgia, offered a resolution that the commission having passed upon the matter it could not be brought up again. After debate, this resolution was also withdrawn.

Commissioner Forsythe, of California, complained of the domestic wines not receiving fair treatment on the grounds, particularly California products, owing to the exorbitant prices, and offered a resolution that a committee be appointed to investigate. After a brief debate, the resolution was referred to the committee on horticulture.
