MONEY ENOUGH TO ENFORCE IT

THE CHINESE MINISTER PEACEFUL

lays of the President.

WASHINGTON, May 18 .- Congress man Kamipetti, of California, had a short conference with the president this morning and left the White House the president to see the Chinese restriction act enforced. Kaminetti denied it could not be enforced for lack of money, for the reason that those Chinese entitled to remain would secure certificates at their own expense and those against whom the law was really aimed would be frightened out of the country the moment an honest attempt was made to enforce it. Kaminetti is of the opinion that what additional money may be needed will be voted at the next session of congress and he fears no repeal of the law.

Reports from forty out of sixty-three internal revenue districts show 3444 Chinese registered. No reports are yet received from the Pacific coast districts. The Chinese minister, accompanied by said firm and pay all outstanding the English speaking secretary of the debts. legation, called at the state department this afternoon and had a conference with Secretary Gresham in regard to lations with the United States but on

> PENNOYER ON THE LAW. Geary act, said yesterday:

claim of the two so-called Democratic judges that it was a judicial question, is a most monstrous proposition, involving a still further usurpation of power by the courts. With a so-called Dem ocratic president usurping the power to suspend a law of congress and so-called Democratic judges claiming the right Among the noticeable figures in the seto nullify such law, it is high time for the Democratic party to ask itself where it is at."

A HIGH JUDICIAL OFFICER of this state was seen by a JOURNAL writer and said: "If Cleveland is allowed to nullify this law against the Chinese he can nullify any law the congress of the United States can enact. It is the evident intention ningly filed a motion for a rehearing upon the moment the supreme court was ready to adjourn, and it will not sit again until October, when it will not act until congress meets in December. Must Shift for Themselves. SAN FRANCISCO, May 18 .- The Chi- expected,

nese consul general is in receipt of a telegram from his minister in Washington, instructing him to inform the Chinese that they must take care of their individual cases themselves if they are arrested under the provision of the law. He informed the consu that immunity for ten days was guaranteed by the stay of proceedings granted by the court, but after all that time had expired, the Chinese must expect to be arrested. No instructions as yet have been received by the federal officials, and they have therefore taken no action. The vice-consul, when asked if he did not look forward to some action of congress to make the law less arbitrary or positive, replied:

"We think the president will do something in our behalf. Almost all the expressions we have received are to the effect that immediate action will not be taken in the line of deportation, and that further time will be given for the Chinese to register. I feel satisfied, feeling assured it was the intention of if further time is granted, that the Chinese will avail themselves of the opportunity and abide by the requirements of the law."

THEIR BONES TAKEN TO CHINA. It is learned that the application for 600 permits for the removal of bodies of that number of Chinese interred in this city, for transportation to China, is only the barring out of the regular custom. It is long since any bodies have been shipped to China, hence the demand for such a large number of certificates. The bones are taken to China so as to be near the homes of the different relatives of the dead.
