ON LAND AND LAKES.

Terrific Windstorms in Ohio,
Michigan and Kentucky.

FOUR LIVES LOST AT CLEVELAND.

Louisville Swept by a Small Cy-
clone.

DETROIT, May 23.—A terrific wind
and rain storm broke over the city this
morning. It continued to increase in
violence. At noon it was blowing 90
miles an hour. The streets are almost
obstructed by broken shade trees.
Nearly all telegraph and telephone
wires are down. It is feared much
damage is done throughout Michigan
and many wrecks are expected on the
lake. It is known great damage is
done at Adrian. At Lebewee junction
the storm amounted to a tornado.
Barns were blown down, windows
shattered, orchards destroyed, crops
levelled to the ground. The highways
between Adrian and Tecumseh are al-
most impassable, being obstructed by
overturned trees. At Ramulus build-
ings are blown down, windows broken,
trees uprooted and many buildings un-
roofed in the vicinity of Dundee. At
Holly the opera house is unroofed.
Many houses are damaged.

In Ohio.

CLEVELAND, May 23.—A terrific
wind storm struck this city at 9 this
morning. Four men were instantly
killed and many injured in numerous
casualties. A scaffold blown from its
fastenings resulted in serious injury to
four men, one of whom will die. A
portion of the plate department of the
Cleveland rolling mill under construc-
tion gave away. A number of men
were employed on the structure. Two
were killed instantly, one is fatally hurt.
A two story house is blown down.
John Cole was buried in the ruins and
killed.

Cyclone in Kentucky.

LOUISVILLE, May 23.—Early this
morning a storm from the southwest
struck this city, doing much damage.
As a result of its fury several small
houses are in ruins, dozens of houses
were unroofed, many chimneys over-
turned, and streets filled with wreck-
age of roofs, uprooted trees, and twisted
wires. No lives are known to be lost
and few of the injuries reported are
serious.

Snow in Michigan.

ST. PAUL, May 23.—Specials report a
sudden drop of temperature in north-
ern Wisconsin and Michigan, with an
inch of snow at Marquette and three
inches on the Iron range.

Strike and Wreck.

CHICAGO, May 23.—The strike of
telegraphers on the Chicago and North-
western road went into effect at 4
o'clock this morning and resulted an
hour later in a disastrous wreck, in-
volving a loss of many thousands of
dollars and blockading the entire Mil-
waukee division.

The number of men out ranges all
the way from 25, according to officials
of the company, to 400, according to
strikers. So far it appears, if the strike
order has been issued, it has not been
unanimously obeyed.

Chief Ramsey says the order to quit
was bogus and that the matter has been
settled.

N. P. Collision.

MILWAUKEE, May 23.—A bad collision
is reported on the Northern Pacific
road near Little Falls, Minn., early
this morning, in which a postal clerk,
the engineer and the fireman lost their
lives. Three trains on the road due
here this morning are abandoned.

Another Bank Goes.

ELMIRA, N. Y., May 23.—The Elmira
National bank closed its doors this
morning. It is the result of the recent
financial troubles of Colonel D. C. Rob-
inson.

Heavy Failure.

BRUNSWICK, Ga., May 23.—The
wholesale grocery house of Mayer and
Ullman was placed in the hands of a
temporary receiver. Liabilities \$290,-
000. Ullman suicided last week.

Great Northern Wreck.

MINNEAPOLIS, May 23.—A special
from Sauk Rapids confirms the acci-
dent on the Northern Pacific but says
no one is killed, though a number of
train men and passengers are injured.
The collision between the passenger
train and Winnipeg freight occurred at
Wataba, near Sauk Rapids.

A CHINESE TRAGEDY.

Two Celestials Nearly if Not Quite
Deported.

ALBANY, May 23 [Special].—A Chi-
nese man and woman are lying in the
Celestials house just east of Schmeer's
livery stable, full of dagger cuts, and
near to death's door. How did it hap-
pen? As the parties are all Celestials
the truth will probably never be known
One might as well try to get blood from
a turnip as the truth from a Chinaman
in such a case. About five o'clock the
well known Celestial and gambler.
"Sullivan," called so on account of his
large and muscular make up, rushed
from the Celestial house referred to fol-
lowed by Heng, proprietor of the house
bleeding profusely, and a fraction of a
minute later by Louey Hong, a Chinese
woman, covered with blood. Heng fell
exhausted at the corner of Second and
Lyon streets, and was carried back to
his house. Louey Hong fell at the door
of Schmeer's livery stable, from which
place she was taken back to a room in
the Chinese den. Sullivan, who was
in his night dress and bare footed,
never stopped until he reached the
county jail where he immediately gave
himself up to Sheriff Jackson, after an
excited and vigorous pounding on the
front door.

Dr. Davis was called and dressed the
wounds of the Celestials. Heng was
stabbed in the lungs, in the stomach,
back, and on an arm and wrist, the
serious wound being that in the lungs.
Louey Heng was stabbed in the stom-
ach, the intestines protruding, in each
breast, on a thigh and one wrist was
badly stabbed, the dangerous wound
being that in the stomach. Whether
they will live or not depends on future
developments, with chances in favor of
at least one of them.

"Sullivan's" version of the case as
given to a Democrat man, who called
in on him at the county jail, is that he
was sleeping in the rear bed room in
the house, when the man and woman
entered. The man had a bar of iron
and the woman a dagger which she
raised to strike him, when he grabbed
it and stabbed her, and a fierce contest
followed. As he is a powerful Chinaman
he easily mastered them. He de-
clares the woman, who came from Sa-
lem here about five weeks ago, to be a
bad woman. An examination by the
physician somewhat confirmed this.
The dagger used was a new one, recent-
ly sharpened, and it is asserted by the
other Chinamen generally belonged to
the woman. The version of the other
side is that Sullivan wanted the woman
to go to bed with him, and on her
refusal the stabbing occurred, the man
interfering. It is also claimed that
Sullivan is a highlander. These state-
ments show how confusing the case
will be when it gets into court.

Heng has resided in Albany several
years, about four and was at one time
second cook in the St. Charles Hotel. It
is reported that he was mixed up in a
row at Lebanon one time; also that he
had a previous row with Sullivan, but
this the latter denies.

In Indiana.

INDIANAPOLIS, May 23.—A storm
passed over the city early this morning.
It did much damage. In the eastern
and southern portions of the state the
wind exhibited its greatest force. At
Elwood, the roof of the American Tin-
plate works, was blown off.

A Big Job.

WASHINGTON, D. C., May 23.—The
judicial committee of the Presbyterian
General Assembly, has decided to recom-
mend that the assembly bear the
Briggs case.

Mob Law.

WAYCROSS, Ga., May 23.—Near
Hazelhurst yesterday afternoon, Eph
Merced, who murdered I. J. Brown,
and another negro, name unknown,
was taken from jail and hanged by a
mob.

The Kansas Strike.

TOPEKA, May 23.—Governor Lielew-
ling says the striking coal miners in
the Cherokee district are in the right
and as long as they refrain from vio-
lence, will have the sympathy of all
who believe in fair play.

world's fair commission is considering
the majority and minority reports of
the judiciary committee on the question
of opening the gates Sunday.

Testing Dairy Cows.
CHICAGO, May 23.—The test of dairy
qualities of Jersey, Guernsey and Short
horn cows is being made at the world's
fair, with 25 cows of each breed. So far
the Jersey is far ahead, both in amount
of milk and percentage of butter and
cheese. The questions of amount of
food consumed, and loss or gain of flesh
is yet to be determined.

Postal Appointment.
WASHINGTON, D. C., May 23.—Bern-
ard Goode, Detroit, appointed superin-
tendents of the dead letter office.

FROM ANKENY.

Summer is here.
The Wm. H. Hoag just passed up.
The Ellwood will be here tonight
and will be here until morning. Then
Spaulding Logging Camp will move
up the river into Linn Co.

Mr. Hawley of Oregon City paper
mill, was here last week trying to ne-
gotiate for water power. He left Thurs-
day. Paul Kleppin, and M. Brown
accompanied him as far as your city.

Ed. Harmon is over from Holt Co.
visiting friends.

S. Tillotson will pay the capital a
flying visit tomorrow.

Brother Elgin is again carrying the
mail, and as he is a particular friend
we do not want to overload him so we
will close until the next.

The rain has ceased, and you can see
a smile upon the average man's counte-
nance. But that smile is turned into
a scowl the moment you draw his at-
tention from the beautiful balmy
weather, to the contemplation of the
acts of the last legislature. If he be a
profrane man you may be convinced of
his earnestness by the language he
uses. Then, to think of the way the
present administration at Washington,
has decided to do with the Geary Chi-
nese exclusion act. Why; it is enough
to make a loyal citizen ashamed of his
native country. We had better be
Chinamen, then we can disobey the
laws with impunity. But stop! They
tell us we "common people must not
grapple with such great questions,"
"that we cannot understand." Hark!
You great men assuming control of
public affairs, know you, that we "Com-
mon people" are grasping the most
complex questions; and are understand-
ing them too, and that you will be held
to a strict accountability for the way
you serve your constituency. It was
not my intention to write a political
speech, but when I contemplate the
history of the past, when I read the
events of the present and look beyond,

my blood boils, my temp's throb
faster, and my heart yearns for the
land of my nativity, the land for which
I fought, bled and died.

AMONG THE GEMS.

Sunstones is only a variety of aventu-
rine feldspar.

The tourmaline becomes strongly elec-
tric by friction.

The black diamond is so hard that it
cannot be polished.

Purple, green and blue tourmalines
are found in Brazil.

The pearl is only carbonate of lime, is
readily affected by acids and burns into
lime.

The Orloff diamond is now set in the
Russian scepter just under the eagle on
the top.

The coloring matter of the emerald is
derived from the fossil-remains of animal
life.

Ancient and modern engraved sap-
phires are very numerous and extremely
valuable.

The turquoise was regarded by the
Mexicans as a magic stone and was
worn as an amulet.

The Austrian government has a Hun-
garian opal 8 1/2 inches long and 5 1/2 thick.
It weighs 17 ounces and is worth \$600,-
000.

The color of the turquoise varies from
pale green to greenish blue and almost
black blue. The best color is a clear sky
blue.

The late Dom Pedro had the largest
aquamarine ever known. It was said in
size and shape to approximate a calf's
head.

Coral, often used in jewelry, is an in-
sect product. The best specimens are
found in the Mediterranean sea and In-
dian ocean.

The most famous opal of history was
that worn by the Roman Senator Nonius.
Antony tried to buy it as a present to
Cleopatra, but Nonius refused to sell. It
was buried in his tomb, where it was
found in the present century.—St. Louis
Globe-Democrat.

A Planter's Experience.

trict, where fever and ague prevail.
I employ 150 hands frequently half
of them were sick. I was nearly dis-
couraged when I began to use Dr.

Tutt's Pills

The result was marvelous. My men
became strong and healthy, and I have
become a vigorous and energetic man.
I would not fear to live in such a
swamp."—E. B. Yale, May 20, 1892.
