

The Question is Often Asked Why the The New York Racket

Has such a lively trade, while it appears dull in many places?
That question is easily answered, they buy their shoes from one of the most reliable cash shoe factories in St. Louis, raving cash for them, thereby getting their stock at the lowest price. Then selling for cash, they have no allowance to make for bad accounts. That explains why they sell shoes cheap. In other lines, such as Hats, White Shirts, Black Sateen, and light Dress Shirts, Pants, Overalls, Underwear of all kinds for ladies, and gents Hosiery, Laces, Embroideries, Lace Curtains, Ribbons, Gloves, Mitts, Table Linen, Linen Tablecloths, Napkins, Crash, Hammocks, Brushes and notions of all kinds which are all bought for cash in New York, and following that line, (cash) from factory to consumer, they can afford to sell at low prices. They ask an examination of their stock and prices.

ANOTHER FIRETRAP FALLS.

Hundreds of People Struggling
in a Burning Building.

SONTAG AND EVANS BOTH CAPTURED.

A Doctor Held by a Drunken
Band of Indians.

NEW YORK, June 13.—A six story building on Montgomery street, filled with sweater shops, caught fire at 8:30 this morning, and in the wild rush to the streets, of the 250 people working there, three, including two men and one woman, were killed and several injured. It is probable that a search will result in adding to the death list. The inmates were men, women and children, of all ages, all Polish Hebrews. All rushed to the fire escapes in front and fought there like demons. The fire department finally got ladders alongside and assisted them to escape. Some were driven stark mad by the fright, and it is expected two or more of the injured will die.

Evans Captured.

VIRALIA, Cal., June 14.—Chris Evans, the noted outlaw, was captured last night at the house of Widow Perkins, where he had gone after the trouble with the officers. He was wounded and made no resistance. He was shot in the right eyebrow, closing the eye. Another bullet plowed across the small of his back, making a wound nine inches long. He was also shot in the left wrist, the ball passing upward through the forearm. He was not so seriously hurt as Sontag, and will have a speedy recovery. Sontag rallied a little this morning, and is feeling much better. Both bandits are in jail.

Indian Trouble.

ST. PAUL, June 13.—General Merritt has received information of Dr. J. R. Walker, physician and overseer at the Leach lake reservation, that he accidentally shot an Indian and is held prisoner by Indians, in danger of his life. A company of United States troops is ordered in readiness to proceed to the reservation as quickly as possible. The situation looks serious, as the Indians were recently paid off and are doubtless drinking.

A HELLISH HEAT

Prevails All Over the Mississippi Valley.

OTTUMWA, Iowa, June 13.—The thermometer registered 95° at 8 o'clock this morning, which is an unprecedented heat for June.

ST. PAUL, June 13.—Temperature 93° in shade at noon. Hot weather prevails all over the upper Mississippi valley.

In Nebraska.

OMAHA, June 13.—The American National bank was closed by order of the comptroller of currency. Runs are now in progress on the Globe Loan and Trust Co., Dime Savings bank and Nebraska Savings bank. No statement of the American bank is yet made, but the clearing-house refused to assist it. A run of alarming proportions began on the Omaha Savings bank at its opening this morning, and all the morning the bank was besieged by depositors.

Senator Manderson and Vice President Kimball, of the Union Pacific, directors of the bank, made speeches to the crowd guaranteeing them their money, but the run continued.

The American Savings bank and Dime Savings bank took advantage of the clause, allowing sixty days' grace on deposits.

DROPPING HERE AND THERE.

Crop of Bank Failures Continues to be Light.

DETROIT, June 13.—Fourteen Savings banks of this city, in view of the tendency among depositors to withdraw money, have issued a circular saying they will hereafter require the notice provided for according to law.

Three Fat Offices Rapidly disposed of.

WASHINGTON, June 13.—The president today made the following appointments, Holmes Conrad, of Virginia, to be assistant attorney-general. Henry C. Grady, United States marshal for district of Oregon. Daniel R. Murphy United States attorney for district of Oregon. Thomas J. Black, collector of customs for district of Willamette, Oregon.

The Theatre Inquest.

WASHINGTON, June 13.—By direction of the commissioners for the District of Columbia the inquest over the victims of the theatre disaster is continued publicly in Villard's hall. Clerks and others crowded nearly every part of the hall to prevent a repetition of the trouble of yesterday, and a squad of police attended. Neither Colonel Almsworth nor his attorney appeared. So far nothing new has been elicited.

That Inhuman Race.

CHADRON, Neb., June 13.—The cowboy race will start at 5 this afternoon. Out of twenty or thirty entries probably not more than ten will start.

HINTS FOR GARDENERS.

When an early crop has matured, have another ready to take its place.
Dusting white hellebore over the foliage will stop the currant worm.
The best work in fighting insect pests is done when they first make their appearance.

It is a safe rule not to expect or allow a tree to bear more fruit than its branches will sustain.
In fighting the curculion on the plum the trees should be jarred daily in order to make thorough work.

It is a safe plan at all times and under all conditions to cut away any dead, decaying or diseased wood.
To have pigs in the orchard is not only good for the pigs, but also good for the trees, provided there is good pasture.

An economical and easy remedy for many of the ailments and enemies of fruit trees is a good application of wood ashes.
For the codling moth on the apples spray as soon as the fruit has set, using a pound of paris green to 100 gallons of water.

It is possible to manure too much while the tree is growing, but after it comes into bearing manure can be applied without stint.
A good rule with a young orchard is to keep in with some cultivated or hoed crop during the first five years after planting, manuring thoroughly meanwhile, and then seed down to clover.

With many garden vegetables, by making successive plantings two or three weeks apart, a supply can be had through the growing season and until hard frost in the fall.—St. Louis Republic.

STAGE GLINTS.

Francis Wilson has bought "Erminie" and will revive it.
Richard Stahl has finished a new opera called "The Cobbler."

The second volume of William Winter's "Shadows of the Stage" has just been published.
John R. Rogers has gone to England. He will permit Minnie Palmer to secure the divorce she seeks without any trouble.

The "Robin Hood" company has discovered a most promising prima donna in Miss Cheridah Simpson, the handsome Milwaukee society belle who adopted the operatic stage a few months ago.
Here are two of Oscar Wilde's jokes on America in his new play, "A Woman of Importance": "What are American dry goods?" "American novels." Again, "Women are of two kinds, plain and colored," and "When good Americans die, they go to Paris."

On all hands one hears accounts of theatrical depression in London, and unfortunately the explanations which comforted the good people of London under similar circumstances last year do not now apply. There is no influenza to speak of and no court mourning.
