GOVERNMENT CROP REPORT.

Official Bulletin for Oregon Week Ending June 27.

Wheat Oregon.

Heavy sales were made in Junee, Oregon, Josephine and Jackson counties on the Oregon Pacific line, the grain being delivered at the rates quoted on the 7th. The freight on the 1st and 2nd were general in the eastern section and are the lowest on record.

The wheat crop will be an average one, and most of it will be in the condition of 15 to 20 bushels per acre, making it suitable for immediate market. It will be better than expected, as the condition was good when it was made.

Looking ahead, the market is expected to improve by warmer weather, and the condition of the grain is such that it will be in the market in 15 to 20 bushels per acre.
