There will probably be no more sacrifice sales and while old hops may not advance much they will remain at present figures. (From the New York Tribune.) For some time there has been an increasing number of stories published in the newspapers of New York City, tell ing of marvelous cures of various dis-eases that have been made by different medicines and treatments. It has long been the intention of the Tribune to investigate one of the most interesting cases that could be found and give the cruth to the world as a matter of news. Happening on the case of Geo. How It Was Done.

"Talking about bright landlords," said Creighton, "I never met one equal to the landlord of the P- House in Portland. There were five of us there who all wanted pie, and he only had one pie in the house. Yet he gave each a quarter."
