## HUMANITY TRIUMPHANT.

### The Behring Sea Sealing Decision.

### A VICTORY FOR OUR COUNTRY

### Pelagic Sealing Practically Abolished.

### MR. BLOUNT RETURNS FROM HAWAII.

### He Favors Continuation of the American Protectorate.

#### Sealing Decision.

PARIS, Aug. 15.—The decision of the Behring sea tribunal of arbitration was handed down today. Five points of article 6 are decided against United States. Close season is established to begin May 1 and to continue until July 31. This close season shall be observed both in the North Pacific ocean and Behring Sea. A protracted zone is established extending for sixty miles around the island. Pelagic sealing is allowed outside the zone in Behring Sea from August 1st. The use of firearms in sealing is prohibited. American arbitrators have expressed their satisfaction with the text of the decision.

American arbitrators believe that the regulations decided upon by the tribunal mean practically the end of pelagic sealing and that they are better terms than were heretofore offered to the United States by Great Britain as a settlement of the question involved.

#### England Satisfied.

LONDON, Aug. 15.—Gladstone announced in house of commons today that the Behring sea decision was satisfactory to British interests with a few exceptions.

#### FAVORS BRITAIN.

The Pall Mall Gazette this afternoon publishes a dispatch from Paris saying that on question of fact regarding seizure of sealing vessels, the decision of the Tribunal is in favor of Great Britain.

That paper adds that as a natural result of this decision the United States will give Canadian sealers due compensation for seizures illegally made. Regulations providing for the close season are very stringent. Prohibition of firearms may be found to be of serious disadvantage by Canadian sealers.

#### Right to Protect Conceded.

WASHINGTON, Aug. 15.—The decision of the Behring sea tribunal denies to the United States the exclusive jurisdiction over Behring sea. The fifth point of controversy, on which the United States counsel laid the greatest stress, raised the question as to whether the United States had any right to protection of property in seal frequenting the islands of Behring sea outside of the mile limit. The preliminary abstract of the decision received is regarded as implying that the tribunal has, to a certain extent, conceded this right.

#### World's Fair Strife.

CHICAGO, Aug. 15.—Four hundred roller chair pushers at the fair grounds this morning, with the exception of fifteen negroes, went on a strike for an increase of wages.

### "MOTHER'S FRIEND"

Is a scientifically prepared Liniment and harmless; every ingredient is of recognized value and in constant use by the medical profession. It Shortens Labor, Lessens Pain, Diminishes Danger to life of Mother and Child. Book "To Mothers" mailed free, containing valuable information and voluntary testimonials.  
Sent by express, charges prepaid, on receipt of price, \$1.00 per bottle.  
BRADFIELD'S REGULATORY COMPANY, Toledo, O.  
Sold by all Druggists.

#### Favors a Protectorate.

SAN FRANCISCO, Aug. 15.—Minister Blount arrived here this morning on the Gaelic, from Honolulu. He would talk but little about the Hawaiian affairs. They were quiet when he left. Advice from other sources are too the effect that Blount favors continuance of provisional government under the protection of the United States.

#### In Congress.

WASHINGTON, Aug. 15.—Senator Voorhees introduced a resolution extending for six months bonded period for whisky in bonded warehouses. The silver debate attracted the attention of the house today. Hutchison, Populist-Democrat of Texas being first speaker.

#### New Minister.

SAN FRANCISCO, Aug. 15.—The new Chinese minister to the United States arrived this morning on the Gaelic. His party consists of 75 people, including 6 ladies.

#### Paper Mills Assign.

SAN FRANCISCO, Aug. 15.—The S. P. Taylor Paper company, one of the largest paper houses on the coast, has made a voluntary assignment. The Pioneer Paper mills belonging to the same company also suspended payment. Liabilities are \$100,000, assets \$400,000.

#### Currency at a Premium.

NEW YORK, Aug. 15.—Currency premiums range from 1/2 to 2/3 per cent today. Sterling exchange is up one-half.

#### Page Collector.

WASHINGTON, Aug. 15.—The president today sent to the senate the name of Chas. A. Page, of Astoria, to be collector of customs for the district of Oregon.

#### Cleared Out.

MOUND CITY, Kan., Aug. 15.—Robert Kancal, president of the defunct Citizen's bank, has fled the country. In addition to the loss to the bank people, Lunn county held his personal notes for about \$200,000. It will probably be a total loss.

#### A Lift For the Banks.

WASHINGTON, Aug. 15.—The senate committee on finance by a practically unanimous vote, decided this morning to report favorably the Voorhees bill, providing for issuing circulating notes to the National banks to a par value of government bonds on deposit to secure circulation.

#### The Silver Debate.

Washington, Aug. 14.—In the senate—While the monotonous debate over the question of free coinage or repeal is progressing in the house with no prospect of a vote until two weeks from today—the indications are that the senate will direct its first legislative action to an entirely different remedy for the financial situation—that of permitting national banks to issue currency to the par value of their United States bonds on deposit in the treasury. Thus the two bodies will be working somewhat at cross purposes and out of the complications to ensue no one knows what will finally happen.

Development in the senate are decidedly discouraging to those who hoped for the unconditional repeal of the Sherman law. The introduction by Senator Voorhees of the increased currency bill and its reference to the committee of which he is chairman indicates that the finance committee will first attempt to seek relief in recommending the issue of national bank notes to the par value of the bonds deposited, and that the questions of free coinage and repeal of the Sherman act will be relegated to the future for more consideration. Later in the day when Senator Vest reaffirmed allegiance to bimetalism and spoke against the unconditional repeal of the Sherman law the repealing men found greater cause for disappointment.

When the senate met an avalanche of petitions was presented and referred. Some prayed for the repeal of the silver purchasing clause of the Sherman law. Quite as many were against the repeal. Several were for the free use of silver as a legal tender in the United States and some for the free coinage at the ratio of 16 to 1. Mitchell of Oregon gave notice of an amendment to be offered to the joint resolution to maintain the parity of gold and silver. The amendment, after a long preamble, declares it the sense of congress that no changes be made in the tariff during the third congress. Vest of Missouri, democrat, introduced a bill for the coinage of silver bullion in the treasury, saying it was sent to him from New York and met his partial approval. Stewart sent to the clerk's desk to have read an article from the New

York Recorder, adding, "Give us free silver." After a portion of the article had been read objection to further reading was made by Hoar and Hawley and the article was ordered printed as a document. Stewart remarking that the Recorder was the first great paper in the city of New York that had sold a word against the annihilation of silver and the destruction of half the money of the country and that it showed that either the sentiment of New York on the subject of silver was changing or the Recorder was a very brave paper.

Hoar gave notice that he tomorrow would follow up the resolution as to the Montana senatorial case and would on Wednesday press it to a conclusion.

Senator Palmer of Illinois introduced a bill to provide for the erection of a government building at Chicago on the present postoffice site, to be finished in eighteen months, to cost \$4,000,000.

Senator Butler of South Carolina today introduced a bill repealing the tax on state bank issues.

Peffer of Kansas introduced a bill for the issue of \$3,000,000 of fiat money exchangeable for government bonds at par.

The republican caucus was postponed owing to the lateness of the senate's adjournment.

Leading republicans of the house announced their intention of taking little or no part in the silver debate, on the ground that they were refused a chance to amend the order regulating the debate. They declare that they did not believe free silver or silver, which are the only two alternatives possible in the Bland order, were the only two possible solutions of the situation. They would have been glad to have secured a vote on another proposition which they believed would go further than any other to meet and relieve the necessities of the financial situation. In view of this they do not feel called upon to take part in the debate. It is doubtful, however, if they can hold to the programme outlined.

#### FOREIGN NEWS.

Montreal, Aug. 14.—The Dominion steamer Sasnia with fifty passengers, which left July 30th for Liverpool, was spoken August 7th by the steamer Ripon City 500 miles east of Newfoundland with machinery disabled. She refused assistance. Nothing has since been heard of Sasnia.

London, Aug. 14.—William Waldorf Astor is not in possession of Cliveden, which he bought of the Duke of Westminster. The duke is staying there now and each week is entertaining large parties. Mr. Astor is "paying through his nose" for a residence in England. Even a man of his wealth must begin to ask himself whether the entire into the best set in London is worth what it costs. He is spending immense sums on the Pall Mall Gazette, but though it is a remarkable paper, it does not "catch on." It is estimated that his bill for it must be at least \$5,000 a week. The magazine is under the editorship of a young lord, and it must be another expensive plaything. The competition between monthly publications in England has reduced the profits of even the successful to the lowest point. Mr. Astor is well in with fashionable society.

Montreal, Quebec, Aug. 14.—A detachment of royal marine artillery of England, comprising fourteen privates and three non-commissioned officers, arrived here last night, and left by the Canadian Pacific railroad for the Pacific coast. The marines, who are under the command of Lieutenant Barnes and Temple, will be stationed on Esquimaux fortifications. The Canadian parliament voted \$700,000 toward the building of fortifications on the understanding that the imperial government would man them. The present detachment is the first of a corps of 100 men that will be placed upon the fortifications.

Buda Pesth, Hungary, Aug. 14.—Floods are prevailing in Galicia and Northern Hungary. The counties of Saros and Ung, which border Galicia on the south, are devastated. Many persons were killed by falling buildings or drowned in the floods. The river Danube and its affluents are overflowed. The town of Turke in Galicia is partially destroyed and twenty persons were drowned. Sixty persons were drowned at Ramanow, Galicia.

The damage caused in Galicia and Northern Hungary amounts to many millions of florins. In many districts the peasantry are beggarly. Thousands of small land owners lost sheds and crops. Many have been killed by lightning and hail. At Vorosco a workshop was swept away and fourteen employes were drowned. Sixty persons were drowned at Ramanow, Galicia.

Paris, Aug. 14.—The Behring sea tribunal of arbitration will meet tomorrow morning to make the final revision of its report. The text of the decision may be given out tomorrow noon.

London, Aug. 14.—The regatta of the Royal Albert Yacht club of South Sea, of which the Duke of Edinburgh is commodore, was held today. The Albert cup was the prize for yachts above the 40 rating. The Nevershoe, Britannia, Santanis and Calluna were the boats in this class that started. The course was from a mark boat off South sea to and around Nab beacon, then to and around the west middle buoy and back to the mark boat. The course sailed over twice. There was a good sailing breeze. The Santanis was the first away, followed by the Nevershoe, Calluna and Britannia in the order named. When Nab beacon was rounded the yachts set their spinnakers, and the Britannia soon took the lead, with the Nevershoe following close behind her.

### A RECEIVER APPOINTED

### For the Northern Pacific Railroad.

#### TRANSCONTINENTAL PASSENGER RATES

### To Be Restored To Prices Prevailing Before Cuts.

#### North Pacific Receiver.

NEW YORK, Aug. 15.—Thomas F. Oake, of New York, W. H. Payne of Milwaukee, and Henry Crouse, president of the Missouri, Kansas and Texas Railroad Co., were this afternoon appointed receivers of the Northern Pacific Railroad in the United States court of this city. The northern Pacific and Great Northern Co., have decided to restore freight and passenger rates to basis prevailing last February, to go into effect as soon as practicable. Other transcontinental lines are expected to follow the example of the two companies mentioned.

These receivers are the same as those appointed in Wisconsin. They gave bonds of \$500,000 each, in the United States court there, and are ordered to give a bond of \$50,000 here. Application was made with the consent of the railroad company.

#### Better Outlook.

Pittsburg, Aug. 14.—The outlook in the iron and steel trade is brighter tonight than for some time. Several departments of Jones & Laughlin's resumed operations today and a number of other mills have given notice of starting up. They will give employment to upwards of 15,000 hands.

Portland, Aug. 14.—D. P. Thompson, receiver of the suspended Portland Savings bank, filed his inventory in circuit court this afternoon. The inventory shows the total assets to be \$2,014,946.69; liabilities \$2,475,146.31. Receiver Thompson states that if not crowded by creditors the bank will be able to pay dollar for dollar in a short time.

#### LATE NOVELTIES.

The latest ginger ale receivers are leaf shaped in frosted metal. Old fashioned low candlesticks with extinguishers are seen. The style belongs to the futed designs of the Queen Anne period.

There is endless variety in corkscrews. The greater number are born with silver mounts. But ivory is in large use and often prettily carved.

Ice palls for champagne have the favorite broken raised edge, and are banded with two lustrous lines. Other ice palls have raised bands of ornaments on dull metal.

Meerschmum pipes mounted in raised silver work and with amber mouthpieces are gravely and severely sumptuous. These are luxuriously incased in satin and skins.—Jewelers' Circular.

Fred Hooper, 923, is an instance of longevity and usefulness of the trotting horse, although 30 years old he is still doing good service on the Philadelphia driveways.

A. J. Cassett declares that when a chestnut stallion is bred to a chestnut mare the produce is almost invariably a chestnut.

In the French art section of the World's fair there is a bronze statuette, by Walter Winans, of a trotter being speeded to a snail, the first time such a subject has been attempted in sculpture.

For the first four months of 1893 Great Britain exported only 113 stallions and 817 mares. Fifty-one of the stallions went to the United States and five to Canada. Of the mares 166 went to the United States.

#### A Designer of Battleships.

Lieutenant Nixon, who designed the cruiser New York, which beat all records the other day, is a graduate of the Annapolis academy, but left the navy to enter the shipyards of the Cramps. The battleships Indiana and Massachusetts are being built from his designs. Lieutenant Nixon was sent to England to study naval architecture, but seems to have surpassed his teachers.

#### PERSONAL GOSSIP.

Mrs. Renan is to receive \$1,300 a year from the French government.

Thomas A. Edison recently said that he never owned a watch in his life. "I never want to know what time it is," so he says.

Oscar D. Wetherell, the new comptroller of Chicago, is a native of New England and 65 years old. He is president of the Globe National bank and a Republican in politics.

Dr. Naville, the explorer, has discovered the burial chamber of Thothmes I, eighteenth dynasty, at Thebes, with a massive altar at the entrance thought to have been erected by his daughter, the famous Queen Hatshep.

In Virginia, where heretofore only one woman (white) had been admitted to practice medicine, Sarah G. Jones, a mulatto of Richmond, has been licensed. It is said she will practice exclusively among people of color.

The new Earl of Derby, formerly known as Lord Stanley of Preston, is a popular and easy going nobleman, a type of the "jolly good fellow." While governor general of Canada he was distinguished chiefly for his love of outdoor sports.

Sir Julian Pauncefote's salary has been increased from \$30,000 to \$35,000 in consequence of his promotion to the rank of an ambassador to this country. This makes his compensation exactly double that paid to our ambassador to the court of St. James.

Mrs. Christine Ladd Franklin is one of the few women who have won well deserved reputations as scientific thinkers and writers. She is an American by birth and the wife of an American savant, and her name is frequently found in German periodicals.

Mrs. A. M. Manly has bequeathed to the city of Washington a large sum of money for the erection and maintenance of a home for destitute women as a memorial to her mother. In memory of her husband she has willed to the Children's Aid society \$30,000 for the erection of a home.

#### ODDS AND ENDS.

An ice cave is a natural curiosity at Vergy, Savoy.

Ninety per cent of the Boston Browning society are women.

In England no town is technically a city unless it is the seat of a bishop's see.

During the last 50 years more than 2,000,000 people have emigrated from England, of whom 10 per cent have returned.

About 5,000,000 ounces of guanine are produced annually. There are 17 guanine factories in the world, and 6 of these are in Germany.

The cellular prison system in Holland, where the offenders are completely isolated, is asserted to be most effectual in repressing crime and reforming criminals.

The suit of Tapley versus Abe McKillop's estate, which is still on trial in the courts of Pike county, Mo., was originally docketed in 1856. The action was brought to recover the value of some negro slaves that McKillop had taken south and sold.

Heel and toe tips of pierced and chased gold are now worn on some satin house slippers. The metal ornaments cost from \$50 to \$100 per set and the shoes from \$10 to \$30 per pair, so that shoes and ornaments may cost as much as \$130.

A professional acrobat finds employment at the zinc mines in Ogdensburg, N. J. His services are required in getting out snarls and removing obstructions from the cables and electric wires used about the ore cars, which are run on steep grades. He can walk on a tight rope when necessary.

I KEEP COOL  
inside, outside, and all the way through,  
by drinking  
HIRES' Root  
Beer  
This great Temperance drink is  
so healthful, so it is pleasant. Try it.
