NO COMPROMISE.

Cleveland Against Silver in Any Form.

BABY RUTH HAS A SISTER.

Conflict Growing Serious in South America.

BLUM JAILED AT PORTLAND.

English Strikes Assuming a Serious Aspect.

Cleveland Will not Compromise.

WASHINGTON, Sept. 9.—President Cleveland absolutely refuses to consent to grant any concession in the silver fight, says the Post. More than this, he will not promise to agree to any recognition of silver, even should repeal be passed. His position has renewed the confidence of the friends of unconditional repeal, who assert unwavering faith in the final passage of the measure, with the understanding that the president stands upon the platform of unconditional repeal or nothing. Senators have settled down for a long seige. In the meantime the Democrats in the senate concerned for their party will make a careful canvass.

Baby Ruth Has a Sister.

WASHINGTON, Sept. 9.—Mrs. Cleveland gave birth to a baby girl at noon. Mother and child doing well. It was an hour after the baby was born before anyone outside the White House was aware of the fact. The affair was kept a close secret until Dr. Bryant was convinced that the mother had undergone the ordeal safely and the baby was well and sound. Though the press intimated at times that Mrs. Cleveland would become a mother in time, the birth of the baby today is somewhat of a surprise, as Mrs. Cleveland was out driving last evening.

The Brazilian Troubles.

BUENOS AYRES, Sept. 9.—It is reported that insurgent war vessels have left Rio Janeiro for Santos with the intention of sailing that port and joining in the revolutionary movement in Rio Grande do Sul. Governor Olvera of this province has resigned.

RIO JANEIRO, Sept. 9.—There is great anxiety among the inhabitants as to the intention of the insurgent fleet. It is feared the town will be bombarded if the government fails to comply with their demands.

WASHINGTON, Sept. 9.—The situation in Brazil is regarded as extremely serious by officers of this government, the state department today sent a protest against an embargo being placed on all telegraphic communication with that country.

Blum in Jail.

PORTLAND, Sept. 9.—Nat Blum, under indictment for smuggling, arrived here this morning from San Francisco in custody of an officer, he was placed in jail.

The Proposed Compromise.

WASHINGTON, Sept. 9.—The proposition of compromise now under discussion and meeting with great favor, provides that, coupled with the bill repealing the purchasing clause of the

Sherman act, there shall be a law directing the secretary of the treasury to buy monthly a considerably reduced amount of silver bullion, and to actually coin this bullion into money. The secretary of the treasury is also to be given ample power to protect all gold and currency and money of the United States and to make it interchangeable. In addition to this the National banks of the United States are to be permitted to issue national notes to an aggregate equal to the face value of United States bonds on deposit. Concessions to state banks have also been discussed. The four separate and distinct subjects, which it is proposed to add to the repeal bill as various compromise amendments thereto, represent the four factions into which the United States senate may be said to be divided at this time. None of these factions would secure what it has been demanding by this legislation, but each would receive slight concessions and some consolation from unconditional repeal, and each faction would retire from the conflict free from the odium of defeat, and with laurels of a part victory to be placed to its credit.

In Congress.

WASHINGTON, Sept. 9.—The house held a short session. Objection was made to consideration of the resolution by Micklejohn, of Nebraska, calling for information as to the administration pension act 90. The committee on elections reported permitting Reinsp of the fifth Michigan district to make a contest for his seat held by Richardson.

In the senate Pfeiffer spoke in support of his resolution asking for information as to whether the banks of New York, Philadelphia and Boston maintained a lawful reserve and whether they paid checks in currency.

At 2 p. m. the repeal bill was taken up.

Government Matters.

WASHINGTON, Sept. 9.—The cabinet held a meeting yesterday and it is understood that the topics which came up for consideration included government finances, the Hawaiian question, the trouble in Brazil and the Chinese exclusion act. It is believed to be settled that the government will enforce the Geary act to the full extent of the funds available for that purpose and congress will be asked to make additional appropriations to enable a thorough enforcement of the law. In view of the practical determination of the government to enforce the Geary law and the belief that the Chinese will not accept this action peacefully, arrangements have been made to strengthen the naval forces in Chinese waters. Nearly the entire present fleet of wooden vessels will be replaced with new steamships. The change is now in progress.

Martial Law in Rio.

WASHINGTON, Sept. 9.—The martial law has been declared at Rio Janeiro, Brazil. It is feared the city will be bombarded by the revolutionary navy. Word was received at noon by the state department, from Minister Thompson, at Rio, to have Secretary Gresham at once communicate the intelligence to the navy department. A consultation was had as to the United States vessels being available to be sent to the scene to protect American interests.

Hawaiian Policy.

WASHINGTON, Sept. 9.—Albert S. W. Ellis, the newly appointed minister to Hawaii, was at the state department yesterday and had a conference with Secretary Gresham. It is expected that he and Mills, the consul-general to Honolulu, will sail for their post of duty as soon as their nominations shall have been confirmed by the senate. The nature of the instructions that will be given Ellis is a matter of considerable speculation, in view of the present condition of affairs in Hawaii, but it is believed that he will be authorized to maintain the status quo that now obtains in that country pending the action by congress on the report to be submitted to it as a result of the Blount mission.

ENGLISH COAL STRIKERS.

Men Desperate and Growing Hungry.

EMIN PASHA SURELY DEAD.

His Dispatches Found by the Expedition.

The English Strikers.
LONDON, Sept. 9.—Lord Inasbam's colliery near Pontefract was badly wrecked by the rioting coal miners there last evening. The troops shot eight of the rioters, two of whom have since died. The conflict caused much commotion among the strikers, who are gathering from all points and showing vengeance.

From different sections of Yorkshire come reports of striking miners rioting and destroying the property of their employers. Troops have been sent to all sections where these troubles are occurring. People are much alarmed.

Thousands of pounds of damage has already been done and the work of saloons are being pillaged and crops destroyed.

On the other hand 90,000 Welsh miners resumed work today and it is hoped that their action may have a beneficial effect upon the English miners who are now in a state of extreme excitement. The North Staffordshire miners also agreed to resume work at the old wages.

There is great distress among the miners at Derbyshire. Men there are literally starving.

Surely Dead.

LONDON, Sept. 9.—A letter from an officer of Emin Pasha's expedition confirms the report of the murder of Emin, and announces the finding of a box of Emin's dispatches, written just before he was murdered. The box is now on its way to England. The letters describe in detail the capture of Nyangus, which was stormed March 4th. The Arabs lost 800 men. Only two Europeans were killed.

Home Rule Killed.

LONDON, Sept. 9.—At 12:40 a. m. the house of lords rejected the home rule bill by a vote of 419 to 41.

A significant feature of the home rule discussion in the house of lords is the fact that a special police force was ordered to report for duty in the palace yards in front of the houses of parliament, in order to be ready for immediate action in case a hostile demonstration should be made against the lords when they left the building after the division on the home rule bill. The house presented a brilliant and almost unprecedented spectacle when, at 10 p. m., Lord Salisbury rose to deliver the last speech in opposition to the home rule bill. The house was crowded as well as were all the approaches. The Earl of Kimberly spoke for the bill on behalf of the government and a division was taken resulting in the home rule being defeated. In the street an immense crowd awaited the announcement of the result of the division. A strong detachment of police mingled with the crowd and was up in front of the entrance to the building. When the result finally reached the people it was received with vociferous cheering. An analysis of the vote shows twenty-five bishops and archbishops who were present at the division all voted with majority. The vote was the largest ever recorded in the house of lords.

Pigmies vs. Giants.

Lilliputians as they are in size (being no larger than mustard seeds), they achieve results that their Brobdignagian opponents utterly fail in. We refer to the efficiency of the powerful preparation known as Dr. Pierce's Pleasant Pellets, compared with that of their gigantic competitors, the oldstyle pills. Try the little giants, when dyspepsia, liver complaint, constipation, biliousness, or any kindred ills assail you, and you'll make no mistake—they'll disappear at once.

Gov. Boies Talks.

GRUNDY CENTRE, Ia., Sept. 9.—Governor Boies spoke here this afternoon, opening the campaign in the state for the Democratic party. He devoted most of his time to the tariff, pensions, prohibition and state institutions. The governor vigorously repelled the charges of the Republicans that Democracy is responsible for the present financial crisis.

On the silver question he said: "This question ought never to be hampered by partisan politics. It requires for proper adjustment the best men of all political parties. The great mass our people outside of those directly benefitted by exchange look upon the act of '73 demonizing silver as a colossal national crime, and are anxious to remedy the wrong in any way it can be done without committing another, and without detriment to the credit of the nation."

Portland Bank Resumes.

PORTLAND, Sept. 9.—Oregon National bank resumed business today.

Bank Statement.

NEW YORK, Sept. 9.—The weekly bank statement shows that the banks now hold \$2,900,000 in excess of legal requirements.

Raiding of Chinese.

FRESNO, Cal., Sept. 9.—A mob of six white workmen raided a Chinese camp at Metzler's vineyard last night. Three Chinese were badly wounded. It is reported that two Chinamen were killed in the raid on Smith's vineyard.

Boy Killed.

PORTLAND, Sept. 9.—Willie Lamers 10 years of age, was killed in the shop of J. Graham, a contractor, this morning. He attempted to step over some shafting when his clothing caught in a nut on a wheel. Twenty revolutions were made before the machinery was stopped.

The body was frightfully crushed and mangled, having the right side of the body and skull crushed. The lower portion of the body was torn out.

World's Fair Day.

CHICAGO, Ill., Sept. 9.—Today is a red letter day at the world's fair, it being Grand Army day, California day, Utah day, Civil Engineer's day, Transportation day, to dedicate new Liberty bell, and transfer the Columbus carrels from Spain to the United States.

Making Car Wheels.

An unusual method of making wheels for cars has been brought before railway men. Wherever it is desired to have reliable wheels, steel tires are almost universally used, with paper, wrought or cast iron centers. Cast iron centers are the cheapest form of any as regards first cost, but it is rather difficult to form a good connection between the tire and the center. In the new method of manufacture a stock of tires is made up complete. The molds for the center of the wheel are then cut up, leaving a space for placing the tire in the mold, so as to form a part of it. The mold is then closed and the molten metal for the center immediately poured in. The result is said to be a practically perfect union, forming a solid wheel which has the advantage of a durable steel rim and a cheap body.—Milwaukee Wisconsin.

A Method of Proof.

The president has pardoned Jack Fry, which recalls the attempt of an English lecturer here a good many years ago to prove that a fish and a pigeon were one and the same. Here is the argument: A jack pie is a fish pie. Therefore a fish pie is a jack pie. A jack pie is a job pie. A job pie is a pie job and a pie job is a pigeon.—Boston Transcript.

Belted of the Past.

Some time ago in India a large tigress killed the beloved husband of the eccentric Lady Dornier. Then the tigress in her turn was also killed. Now the recovered widow is bringing the head and tail of the defunct animal home with her.

ANOTHER BURNED.—Rank Edgar's hop house, four miles east of Marion was burned last night. There had been picked and stored about 700 worth of hops. The entire loss is about \$2000. Insurance \$1000. No Chinese connected with this burning.

SHERIFF SALE.—Deputy Sheriff Wrightman sold lots 6 and 7 of block 2, Riverside addition, at public auction at the court house today. The sale was to satisfy an execution in the case of J. H. Standard vs. J. E. Bartell. The property was bid in by the plaintiff, at \$487 82, the amount of judgment. Eight acres of land belonging to Frank O'Hareld, seven miles north of Salem, was also sold by the sheriff this afternoon, to satisfy a claim of C. B. Clement.

THE MARKETS.

SAN FRANCISCO, Sept. 9.—Wheat, December \$1.16.

CHICAGO, Sept. 9.—Cash, 95; December 90.

PORTLAND, Sept. 9.—Wheat valley, 92 1/2 @ 95; Walla Walla 89 1/2 @ 95.

In order to accommodate the many students who pay their way through school by working in the harvest fields, fruit picking, etc., the managers of the Friends' Polytechnic Institute have revised the school calendar so as to interfere as little as possible with such work. By the new arrangement the school year begins this fall, Sept. 26th, instead of the 12th, as heretofore announced. The course of study will also be arranged after the Chicago University plan, so that a student may drop out part of the year and yet find a class ready for him, when he starts again, thus being able to take the full course of study without going the entire school year.
