PORTLAND BANKS

But Two Weeks More of Silver Talk

BY LONG-WINGED SENATORS.

Cruiser Detroit Sails for Rio Janeiro

TO PROTECT AMERICAN INTERESTS.

A Plan to Coin Silver Dollars by States.

Portland Bank Resumes.

PORTLAND, Or., Sept. 14.—The Almsworth National bank, which closed on July 29th, reopened for business this morning, under orders from the controller.

Voorhees on Repeal.

WASHINGTON, Sept. 14.—Voorhees said to a representative of the Associated Press today that he was still determined to press the repeal bill to as early consideration as possible. "I have every reason to believe we shall be able to reach a vote in a comparatively short time," said he.

When pressed to say how long the time would be, he named two weeks as the limit for debate. Voorhees did not believe there would be any amendment of bill, and he was of the opinion that silver men would show greater strength in the vote in opposition to a straight repeal bill than upon any other proposition.

For Big Dollars.

AUSTIN, Texas, Sept. 14.—Gov. Hogg has been requested to call a council of governors of the silver states. The object is to suggest that such states pass a law for a silver dollar weighing an ounce as legal tender payment of debts, the mines to have the money coined in Mexico. Some lawyers say the plan is constitutional.

Glorious Democracy.

NEWARK, Ohio, Sept. 14.—Hon. Lawrence T. Neal, Democratic candidate for governor of Ohio, opened the Democratic campaign here this afternoon, in the presence of a large and enthusiastic gathering of Democrats from this section of the state. After referring to the existing financial depression the speaker declared the McKinley and Sherman laws the cause of all trouble.

Hanged Himself.

WALLA WALLA, Wash., Sept. 14.—Nelson Byatrom was found hanging to a tree in Isaac's field today. He has been drinking heavily of late. He came here from Tacoma, where he has a family.

Yacht Prize.

COWES, Isle of Wight, Sept. 14.—The Navahoe has been awarded the prize in the race for the Bretons Reef cup, which according to first calculations was thought to be won by the Britannia by two seconds, according to time allowance.

YOUNG WIVES

IN ENGLAND.
These. Osborne writes, dated Aug. 30: I have made my usual inspection of the hop growing districts of England. Through the long drought and the persistent attack of the aphid blight in the months of May and June our crop this year will be a small one. I estimate the crop at about 210,000 old duty or 300,000 Cwt., with good weather during the picking it may possibly exceed this a little. I think the quality generally will be good. Picking is now

are literally exhausted. Hundreds are afflicted with throat and lung disorders caused by breathing the dust laden air. Fully forty thousand strangers are in and about town. As the day progresses the wind gets hotter.

ALL ABOUT HOPS.

The Hop Market and Late News from all Quarters.

NEW YORK, Sept. 14.—Hops are unchanged, with very light trading by brewers, business mostly in small lots. New state seedlings are quoted at 23 @ 26 cts, according to quality.

GOOD HOP REPORT.—David Guthrie, who is a member of the state board of agriculture, came up from his hop farm in Polk county today. He commenced picking yesterday and reports no damage from the rain. He has seen no signs of lice nor mould in his nor his neighbors' yards. His first floor comes off today, and he considers them at least 25 per cent. better than last year. O. A. Cone, a hop raiser from the eastern part of the county, was in the city yesterday. He has 120 pickers in his yard and reports the quality of his hops good.

THE HOP CROP.—The statement published that Meeker estimates the Oregon hop crop at only 15,000 bales, is unfounded. No one can show any authorized statement to that effect, made by any man by the name of Meeker, who is one of the hop Meekers of Puyallup. They have never placed Oregon below 30,000 bales, and the state will easier exceed than fall below that figure.

HOPS NOT INJURED.—In talks with numerous hop growers today, we have gathered enough information to be satisfied that the crop has not been injured to any great extent by the rains. It is to be hoped that the remaining harvest of this crop, can be fished in fair weather.—Eugene Guard.

IN NEW YORK.

WATERVILLE, Sept. 8: Outside of a few lots of '93 hops, late crop, at 30c there has been no business to speak of on this market. The price for the new crop has not yet been fixed, the majority of growers and dealers preferring to wait until the samples can be taken from the bales.

The week has been a busy one in the yards and the weather has been favorable for picking except Thursday afternoon when it rained hard and stopped work. Many will finish this week and all will get through with good weather early next week. Every grower acknowledges that the quicker the hops are off the vines the better. They are not improving by standing although the way they have withstood the effects of stormy weather and attacks of lice and mould is quite remarkable.

It is true there are lice and mould in many of the yards but, considering all things, they are holding their own well and in the yards where the proper picking is insisted upon, it is believed a good sample will be shown.

In regard to the yield there are various reports but without doubt the yield about Waterville is less than last year. It is said that the yards that were light last year are heavy this and vice versa.

—The Cooperstown Republican of Sept. 6th says: There is nothing doing in the market. Dealers have been quietly awaiting orders. There is no effort made to purchase the new crop. Growers and dealers alike agree to wait until the hops are picked and cured. A few bales here and there aggregating 25 of this year's growth have been picked up at 20@21c. From correspondents throughout the hop district, and from personal inquiry of growers, it appears that the crop of this year will fall off from last year fully 15 per cent. While the storm of ten days ago did considerable damage, it is not nearly so bad as effecting the quality of the hop as has been represented by hop buyers here to their New York houses. In doing this the buyer for the time being not only injures the grower but his own interests. In the main a fair to good quality of hops will be harvested; the poor ones are by far the smallest portion of the yield.

Man-of-War Sent.

FORT MONROE, Va., Sept. 14.—The cruiser Detroit this morning sailed for Rio Janeiro to protect American interests.

LONDON, Sept. 14.—A dispatch from Rio de Janeiro says that an attack of the rebel fleet on the forts began at 9 o'clock. The garrison of the largest and strongest fort has declared for the rebels. The bombardment of the town began at 11 o'clock. The town has a desolate appearance. People who are compelled to remain are greatly excited. All business is at a standstill.

ROME, Sept. 14.—The Italian government has received a dispatch from Rio Janeiro that a British gunboat was to leave the bay to warn all incoming vessels to stay off the coast until the result of the bombardment is learned. Much anxiety is felt in Rio as to the fate of the city in the event of the success of the rebels, for, in spite of the dispatches sent by the government, there are doubts as to the loyalty of the forts in the bay. It is asserted the garrisons will exchange a few shots, haul down their colors and join the rebels. The government, however, seems confident of the garrison's loyalty and that of the troops in the city, even if the forts surrender.

NEW YORK, Sept. 14.—Advices to the Associated Press from London and Paris confirm the report from Rome that the rebel warships proposed to bombard Rio this morning.

MONTVIDEO, Sept. 14.—News has been received from Rio that the revolutionaries of the Brazilian navy made another attempt to bombard Nickthery. The government troops, which had been sent to Rio, succeeded in again repulsing the invaders, but the defeated rebels withdrew without great loss. While the government won a victory, success was not as complete as the repulse of the first attempt to land a force from the rebel ships. Owing to embargo on telegraphic communication, it is impossible to obtain the details of the attack or repulse. It is doubtful if the forts of Villagalman and other forts near Rio are loyal to the government. It is believed that the garrisons sympathize with the revolutionists of the navy, and when opportunity offers will openly join the rebels.

VALPARAISO, Sept. 14.—A Buenos Ayres telegram says that the revolutionists in the province of Tucuman and the government forces had a battle in the main streets of Cordova. After a

general but there has not been sufficient hops sent to market yet to establish the price. It is difficult to get definite news from Germany, but from all I can learn their crop is likely to be considerably less than last year and they will probably be importers of hops instead of exporters.

The world's crop of hops this year will probably be less than the world's consumption, the crop of 1892 is practically exhausted so that the hop grower never had a better chance of getting a good price for his hops than he has this year and if he will use a little judgment in putting his hops on the market I think he will succeed.

Republicans Join Administration Democrats.

FILIBUSTER AGAINST A QUORUM.

Settling Down to a Hand to Hand Conflict.

WASHINGTON, D. C., Sept. 14.—The galleries of the house were well filled in anticipation of a preliminary skirmish over the Tucker bill, for repeal of the federal election laws. At the conclusion of the chaplain's prayer, Burrows of Michigan, one of the Republican leaders, surprised the house by beginning a filibustering speech. He asked unanimous consent that the call of the committees for report be dispensed with. Tucker called for yeas and nays, the Republicans refusing to vote in order to break the quorum. A number of administration Democrats, reflecting the White House opposition to present consideration of the bill, also refused to vote. The result showed no quorum. A call of the house was ordered resulting in the presence of one hundred and sixty member Messengers were dispatched in all directions to bring in the absentees and the house settled down to a long hand to hand contest.

A HOT TIME.

A second call showed no quorum. Tucker moved a resolution, instructing the sergeant-at-arms to bring absentees before the bar of the house. The resolution provoked hot and bitter debate, but was finally adopted, and the house adjourned. The Democrats are badly demoralized, and the fact that the administration Democrats are actively assisting the Republicans in an effort to keep off the federal elections bill discussion, awakened the lively indignation of silver Democrats.

In the Senate.

WASHINGTON, Sept. 14.—Faulkner offered his amendment to the repeal bill. The repeal bill was then taken up and Daniel of Virginia took the floor in opposition.
