Final Bombarding.

LONDON, Sept. 20.—Admiral Deme-lers has sent an ultimatum to the authorities at Rio De Janeiro, announcing his intention to immediately and thoroughly bombard the city with all his ships, unless it is promptly surrendered.

The dispatch adds that Rio is in the utmost consternation and dismay. Citizens are fleeing to the country. Merchants are packing goods into cellars preparatory to following them. Consulate representatives of the powers are using the utmost efforts to dissuade the rebel commander from carrying out his threat, but so far without avail.

A heavy pressure is being brought to bear on the local authorities to induce them to surrender, as it is considered folly to resist. In the meantime three rebel vessels reached Santos and after a sharp fight succeeded in landing a strong force of marines who are endeavoring to take the city.

SWIFT'S SPECIFIC is totally unlike any other blood medicine. It cures diseases of the blood and skin by removing the poison, and at the same time supplies good blood to the wasted parts. "My blood was badly poisoned last year, which put my whole system out of order—diseased and constant source of suffering, no appetite and no enjoyment of life. Two bottles of Swift's Specific cured me. There is no other remedy for blood disease."

Hard on the Baldheaded Man.

Professor Blackie, the Scotch philosopher who recently celebrated his eighty-fourth birthday, is decidedly eccentric in many respects, and at times he has shown absence of mind. On one occasion, about 12 years ago, after he had visited Egypt, he gave a lecture on the subject before the Edinburgh Philosophical Society. Coming down from the platform into the body of the hall, in order that he might use his pointer on the diagrams more freely, he proceeded with his remarks. Roars of laughter were heard from all parts of the building. The professor noticed them, but did not know what was the matter and probably does not know to this day. It seems that while he was speaking he had put out his disengaged hand for something to rest it on and had secured the top of the head of a baldheaded gentleman in the front row. As he warned to his subject the professor gently stroked the head and presently began to pat it. After this the recipient of his attentions hurriedly moved to another seat, and the lecture went on without further interruption.—Chicago Tribune

LIFE IN CONGRESS.

The Filibusters Scared by Democratic Caucuses.

REED GETS AFTER SPEAKER CRISP.

And Declares His Action Most Unusual.

WASHINGTON, Sept. 20.—Morgan, today presented a petition of citizens of his state in favor of the repeal of the Sherman act. He said it was one of the petitions sent out by the New York bankers, and he considered it was a mandate from them, not from the people of Alabama. Voorhees moved the repeal bill be taken up, after a sharp passage between him and Platt, of New York, who wished to make a motion for the amendment of the rules, providing for cloture. The latter yielded to George of Mississippi, who addressed the senate in opposition to the bill. The fight continued all afternoon. At 4:30 o'clock apparent end of fight would be that federal election bill be reported despite dilatory tactics opposition.

WASHINGTON, D. C., Sept. 20.—The decree of King Caucus is all dominant in the house today. The Democratic majority acted as a unit in ending the filibustering which has blocked legislation for weeks. When the house met the Democratic benches were crowded. The committee on rules had held a meeting at which, over the protest of Republicans, the members of the committee instructed a report on rules that would disarm the filibusters.

Soon as the Journal was read Burrows moved to suspend call of committees for reports. Catchings from the committee on rules presented a report providing that no other business be in order until the reports of committees were received.

Burrows made the point order that the report was not in order and had originated with the committee. After a sharp tilt with Burrows and Reed on one side, the speaker on the other, the speaker overruled the point of order, holding that the committee on rules would originate the order of business just as the committee on appropriation would originate appropriations (Dem. applaud).

The speaker instructed the clerk to read the report of the committee. Reed made a vehement fight against the action of the speaker, and declared the clerk had no right to read report, declaring amid Democratic cheers that the action of the speaker was the most surprising in legislative history.

WASHINGTON, Sept. 20.—Senator Dolph has introduced a bill to permit the state of Oregon to import jute mill machinery free of duty. The house committee on judiciary has ordered a favorable report on Gates' substitute for the Tucker bill repealing the federal election laws. The best sugar men were before the ways and means committee yesterday to prevent the repeal of the sugar bounty. Senator Squires of Washington has introduced a substitute repeal bill. It provides that silver bullion may be deposited at any mint, to be formed into standard dollars of the present weight and fineness (to be legal tender) for the benefit of the owner, but there shall only be paid to the person depositing it such number of standard silver dollars as shall equal the commercial value of the silver bullion deposited. This difference, if any, between the coin value and commercial value shall be retained by the government as seigniorage. The coinage shall not exceed \$4,000,000 per month, and when the gross amount reaches 200,000,000 it is to cease, the dollars thus coined to be legal tender.

The senate has agreed to allow A. G. Beckwith \$2500, Lee Mantle \$2500 and John B. Allen \$2500 as expense incurred in contesting for their seats in the senate.

Dickens as a Dandy.

I found my mother talking to a very young gentleman, with long brown hair falling in silky masses over his temples; with an eye which, young as I was, at once struck me as full of power and strong will, and with a touching expression of sweetness and kindness on his lips. There is not the slightest reason why I should give you any more detailed picture of the countenance or the dress of Charles Dickens. Let it suffice to say that he dressed up to the very height of the existing fashion. He is not to be blamed, I should say, for having done so. He was feeling his life in every limb and enjoying its bright side and its good things.

After an unhappy childhood and a laborious and comparatively speaking, indigent youth he had suddenly, through his own wonderful genius, wholly unaided and unpatronized by the noble or the wealthy, turned the corner to find himself pacing the highway of roses, and with Old Time trudging by his side, looking kindly on the youthful traveler and gently holding the hourglass, which was in truth inevitable, but in which, to "Box," the sounds were as diamond dust that sparkled as they passed. Everything smiled upon him.—G. A. Sala in London Telegraph.

THE STREET CASES.

Of course, THE JOURNAL is pleased over the supreme court decision reversing Judge Burnett and upholding the validity of all the street improvements made in Salem last year. THE JOURNAL fought hard to break the ice and pave the way for any street improvements whatever. It had no pet theory as to any particular kind of pavement, but wanted the Capital City to get started out of the old rut and mud-holes where mosabackism and conservatism had been wallowing in its penny-wise economy and pound-foolish indifference. Arrayed on the side of this element that is found in every progressive community were Mayor D'Arcy, Judge Burnett and the leading attorneys and bankers and a large number of wealthy property owners. To the credit of Mayor D'Arcy be it said, that when he found the objecting property owners going to the length of being willing to have the improvements made and yet trying to throw the expense incurred thereby, which was entirely for their benefit, upon the entire community, he withdrew his support and fought valiantly on the other side.

THE JOURNAL wishes to congratulate Attorneys Bingham and D'Arcy for the city, and Judge Shaw who assisted them as counsel before the supreme court, on their victory. They won a significant battle for progress for the whole state. These gentlemen deserve public thanks for securing from our highest court so clear and strong a decision as that handed down in this case by Judge Bean, who has also done himself great credit as a progressive jurist. For ourselves we are glad to express our gratitude to these gentlemen, not only for personal reasons, but because they were on the right side, and the issues involved were vital to the future development of every city in Oregon.
