The New York Racket

State Insurance Block, 333 Com'l St.

Will save you 10 to 25 per cent. on staple goods, such as boots and shoes of all kinds, for ladies, gents and children's storm rubbers and sandals; fur, wool and crush hats, (these are marked very low, quality considered.) Underwear of all kinds. White shirts, negligee and work shirts; pants, overalls, jackets, ribbons, laces, embroideries. Linen and Turkey red damask, Linen tablecloths, towels, table oilcloths, lace curtains, tablecloths, pencils and notions of all kinds.

WHY CAN SO MUCH BE SAVED?

Because all goods are bought for cash from cash houses, and all marked at close profits for cash without calculating for losses from bad accounts, giving the customer all the advantage of the per centage saved, you can plainly see why we can sell goods of good quality, at low prices.

REBELS GAINING GROUND

And their Success is Conceded by Brazilians.

TWO PASSENGER TRAINS WRECKED.

Many Killed and Mangled Taken from the Wreck.

Surrender Expected.

LONDON, Sept. 22.—Advices this morning from Rio Janeiro are to the effect that the city is still in the hands of the government forces, but a surrender is momentarily expected. The rebel admiral, tiring of dilatory negotiations by the government, had ordered the decks cleared for action, drums beat to quarters and guns shot and run out. All eyes were turned toward the flagship, whence the signal to commence firing was expected every moment. The utmost consternation prevailed among the inhabitants still in the city. Everybody expects the day to decide the fate of the city, either it is to be shelled into submission, or surrendered before the firing begins. The following dispatch was sent by the Brazilian government yesterday afternoon: Sedition is confined to that part of the squadron of rebel vessels in the bay deprived of power. The movement cannot land owing to the resistance of the land forces, nor leave the bay on account of fire from the forts, the Republican succeeded in escaping, but was repulsed at Santos. A prominent Brazilian diplomat at Vienna, is quoted as saying he is convinced that the revolutionists will eventually triumph, and Prince Pedro, a grandson of Dom Pedro, will be placed on the throne. A Brazilian delegation, representing the rebels, arrived today, on a mission, it is supposed, touching the recognition of the new government, when established.

Fatal Collision.

CHICAGO, Ill., Sept. 22.—At Kingsbury, Indiana, on the Wabash road, sixty-five miles east of Chicago, the second section of the west bound passenger train, from Detroit to Chicago, ran into an east bound freight on the siding early this morning, wrecking both engines, the coaches and sleeper. Twelve bodies are already taken from the wreck, and it is believed eighteen or twenty more will be found.

Another Wreck.

BIRMINGHAM, Ala., Sept. 22.—North of this city this morning the limited train on the Queen and Crescent road was wrecked by the removal of a rail. Several train men were hurt. Passengers escaped injury. Bloodhounds are on the track of the wreckers.

Strikes Expected.

TERRE HAUTE, Ind., Sept. 22.—Grand Master Sargent, of the firemen's brotherhood, who has returned from Cincinnati, where he attended a fruitless conference with President Ingalls, relative to revoking the out in wages ordered, says he believes there will be a general strike of all the federated employes on the road by night. The lodges are voting on the question and the result will be known in the morning.

In Congress.

WASHINGTON, Sept. 22.—Senate—Allen (Populist of Nebraska) introduced a bill making a dollar (which may be coined of 412 grains of silver or 25 8-10 grains of gold) the unit of value.

Mitchell, of Oregon, introduced a bill appropriating \$375,000 for the construction of two steam revenue cutters for the Pacific coast.

The resolution by Platt, of Connecticut, for cloture rule, was taken up. Wolcott, of Colorado, spoke in favor of bringing the question to a vote, though opposed to cloture, as only in the way of determining whether or not the senate wanted to stifle debate. If it failed to pass, criticisms on the opponents of repeal must cease.

The repeal bill was taken up. George concluded his speech. Hainabrough, Republican, addressed the senate, in opposition to the bill.

The report of the committee on accounts, abolishing clerks to unimportant committees was agreed to. Loud of California, rising to a question of privilege, called the attention of the house to the fact that two resolutions of inquiry which he introduced over a week ago had not been reported to the house.

The first was a resolution calling upon the attorney general for instructions to be given judges and marshals relating to the Geary Chinese exclusion act. The resolution was agreed to. Another resolution calling upon the secretary of the treasury for instructions to forward to collectors and other officials of the department also, information as to the number of Chinese in this country, number deported, and number registered, under the act. Also agreed to.

Pension Report.

WASHINGTON, D. C., Sept. 22.—Pension Commissioner Lochren submitted his annual report to the secretary of the interior today. It shows: Pensioners on rolls 966,012; net increase 89,944 during year; paid for pensions during year \$156,759,467; balance at close of year \$2,437,471.

The commissioner thinks the appropriations for the next fiscal year ample. Estimates for the fiscal year of '96 amount to \$162,631,550.

He thinks from '96 on, the pension list will decrease. The commissioner defends his course in suspending certain pensions, saying he sought honestly and fairly to carry out the provisions of the law, citing instances, and declaring that they and others such were granted in evident violation of that law.

Silver in India.

LONDON, Sept. 21.—A dispatch to the Times from Singapore says: The Straits settlements currency commission ended its sittings today. Four separate reports were presented. Six members of the commission advise that token coinage be adopted. Six others demand that free silver be continued. The free silver men advocate the continued use of Mexican dollars, and, for safety, the addition of the proposed British dollar shall never be converted into token coin. The report of the Chinese members is to the same effect, but contends that cheap silver would be advantageous to producers, while token coinage men say the following of silver means new taxation. The Chinese reply that it is better to have new taxation than token coin. The opinion of the European members is divided.

Hungry Men Transported.

LOS ANGELES, Sept. 22.—On the Santa Fe overland train last night there arrived in this city nearly one hundred men without money giving it as their intention to take places made vacant by deported Chinese. The men came from various points in the East and were altogether a hard looking lot. Today they scattered out, visiting various portions of the city and suburbs but manifested no particular desire to go to work right away. It is reported that some of the city authorities of the East made special arrangements with railroad companies to transport the men free to the west in order to be rid of the undesirable element.

Justifiable Murder.

GRAND FORKS, N. D., Sept. 21.—This city is intensely excited over a murder which occurred shortly after daylight. The man who did the shooting was M. F. Murphy, president of the State bank of Reynolds, and a prominent business man of this city. Charles Link had attempted to rape Murphur's little 6-year-old daughter about three weeks ago and again night before last. Yesterday the identity of the ravisher became known from facts stated by Murphy's children. About 3 o'clock this morning Murphy called in Chief of Police Hennessey and asked him to go with him to identify a certain person. Link was found coming out of his room at the Windsor hotel. He was then taken to Murphy's house, where he was fully identified by the child and others. As the officer, with Link, turned from the house to go to the city jail, Murphy stepped back, allowing them to pass. Then he drew a revolver from his pocket and fired, sending a bullet through Link's body, killing him instantly. Murphy gave himself up, but is at liberty on his own recognizance.

The Valkyrie Safe.

NEW YORK, Sept. 22.—The yacht Valkyrie arrived this morning excited at rest all doubts as to her safety.

Go and See Cleveland.

SAN FRANCISCO, Sept. 22.—It is stated the suspended silver mines in Colorado, Utah and Montana owe San Francisco powder companies upward of \$300,000, which it is impossible to collect. Requests for payment are answered: "Go and see Cleveland."

To Prefer Charges.

NEW YORK, Sept. 22.—Rev. Patrick Corrigan, pastor of the Catholic church of Our Lady of Grace, in Hoboken, has sent letters to Bishop Wigger, and Rev. Joseph J. Synnot, of Seton Hall seminary, South Orange, N. J., informing them that he meant to have them brought before Archbishop Satolla's ecclesiastical court to answer for attacks which he alleges they have made upon him in connection with his parochial school. Father Corrigan declined to tell just what charges he has made against them, but said that they were indicated in the letter that he had published during the last few days, in which he answered criticisms emanating from Seton Hall, and justified his position in favor of some compromise between his school and the board of education. Bishop Wigger will not talk.

Brazilian Muddle.

NEW YORK, Sept. 22.—The steamer Whitby arrived here yesterday from Rio. She left Rio just before the outbreak of the revolution. "When I left Rio, August 22," said Captain Ormiston, "there was no fighting. The Brazilian fleet, the Yorktown, and a British gunboat were in the harbor. There was a good deal of grumbling in Rio. The people said the times were hard enough under the emperor, yet in those days they knew what they had. The Brazilian navy wants to see Brazil an empire. It was down in the Argentine country that things were lively. We were in the La Plata river in the latter part of July. There were many skirmishes between the rebels and provisional government forces. The general government troops stood back waiting for the other parties to get worn out, and then they expected to sweep down and end the whole business. We saw an engagement between the rebels and the provisional government forces July 31. It took place on the outskirts of Buenos Ayres. There were about 1000 on each side. The battle lasted half a day. The rebels drove the provisional forces before them as far as La Plata. About 150 men were killed. The troops of the central government were then holding Buenos Ayres. There was some lively fighting at Rosaria. I heard that 100 men were killed there. The United States corvette Yantic was there when the fight began, the bullets of which whizzed through the rigging of the Yantic. I heard the commander of the corvette sent a company ashore to protect the property of American citizens."

The Reservation Fires.

GUTHRIE, O. T., Sept. 22.—The scene of the recent terrible prairie fires on the Pawnee reservation is one of devastation. Scattered all over the prairie are partially burned wagons, wrecked camp outfits and charred remains of household goods, and here and there the bodies of horses. For miles, as far as the eye can reach, there is a black waste, and, to add to the horror, in a number of places are found blackened and burned human trunks. Nearly a dozen of these bodies have been found, and it is feared many have perished. There is no clue whatever to the identity of these unfortunates. The dust storm continued all day with unabated fury, and hundreds are leaving every town, unable to stand the hardships any longer. At Perry the dust is thickest, and all business is suspended.

Hawaii's Condition.

SAN FRANCISCO, Sept. 22.—Honolulu advices, per steamer Australia, which arrived September 20, say:

Public affairs are quiet. Government finances are prospering. The cash balance in the treasury has increased since August \$65,049. The sales of bonds for special public works in August were \$65,800. President Dole has sailed on his first vacation at Kohala. Vice President Hatch performs the president's duties.

The United States steamship Boston saluted the president, on his departure, with 21 guns, which made a strong and discouraging impression on the royalists.

September 2 was the queen's birthday and she was honored with some observance by the royalists. Horse races were held in the park. Many persons paid their respects to the ex-queen in the early morning, but no interest or enthusiasm was publicly shown. No notice was taken of the day by the authorities pro or con.

It is being rumored among the natives that the ex-queen would be restored upon her birthday, and some excitement was expected, but they were told the matter would be postponed to the 6th inst., when the mail would bring orders to Admiral Skerrett to replace her on the throne. So strong was this expectation among the natives that they brought flowers to decorate her path. The queen herself explained to a lady teacher who called on her in reference to some promised funds that she expected in a few days to be in funds by her return to the throne since the arrival of the mail the great event has been again deferred until the mail following at which time the royalist leaders have given out to the natives that they have positive advices from Washington that the restoration will be ordered. The last report from Washington, that Blount was about to conduct the treaty with Thurston, acted discouragingly upon the royalists hopes.

The rooms of Admiral Skerrett, at

the Hawaiian hotel, were entered on August 31, and \$300 in jewelry stolen. The annexationists demand the removal from office of pronounced royalists. The government is expected to pursue a moderate course, avoiding the appearance of partisanship.

The statue of Father Damien, the Molokai missionary, was unveiled with great pomp on the 11th of September.

Hop Market.

NEW YORK, Sept. 22.—Hops are in very light demand and easy. Best Pacifics are quoted at 21@22 cents. The Pacific coast stock seems to be finding the most favor with shippers for the English market.

Although whales grow to enormous size, sometimes 80 and even 90 feet long, the throat of the common whale is so small that it cannot swallow a bite as large as a tea biscuit. The sperm whale has a mouth large enough to admit a man.

Dr. Mendelieff, the great Russian chemist, believes that petroleum is constantly being formed deep in the earth through the action of water looking down from above upon the highly heated carbides of metals existing there.

Hong-Kong, formerly a little barren island at the mouth of the Canton river, in China, was given to the English and is now covered with the warehouses, gardens and residences of wealthy merchants.

The vast profounds of the deep have become a sort of almshouse or asylum whereunto antiquated forms have retired, and amid the changeless environment have dwelt for ages unaltered.

A woman says that a man can calculate to the uttermost farthing the cost of a Sues canal, but he cannot estimate the price of a woman's bonnet without egregious errors.
