ANOTHER GUTTEAU.

An Attempt to Kill President Cleveland.

WOULD-BE ASSASSIN CAPTURED

And Confesses to His Dastardly Intentions.

TO BLOW UP THE REICHSTAG

Is the Plot of Some German Anarchists.

WASHINGTON, D. C., Sept. 28.—Police Officer Heller had a violent struggle today with an insane man who in some mysterious manner got into the White House and was looking for President Cleveland.

The appearance of the officer probably saved the president from an assault. The fellow met a colored cook, whom he questioned,

"I want to see father."

"Who is father?" the cook asked him.

"Cleveland, of course," was the response.

Just then Policeman Heller appeared upon the scene, and after a struggle took him into custody.

At the station the crank gave his name Jos. as Washington, but refused to tell where he lived. No one at the station remembers ever having seen him before.

When asked what he wanted at the White House, he replied:

"I wanted that chair."

"What chair?"

"The President's chair."

"Don't you think the President fills it satisfactorily?"

"No, I don't," was the reply.

"I intend to get it by fair means or foul. Give me a pistol and I will show you who will get it, — quick."

He will be held for examination.

Anarchists Plot.

VIENNA, Sept. 28.—The police has discovered an anarchist's plot to blow up the Reichstag.

Wool Growers.

BOISE, Idaho, Sept. 28.—Idaho wool growers formed a state association today with F. R. Gooding as president and W. T. Montgomery secretary. A resolution was adopted asking representatives in congress to oppose placing wool and woolsens on the free list.

Heavy Race.

NEW YORK, Sept. 28.—In the match race for a \$5000 purse and a side bet of \$25000 between Lamplighter and Tammany the latter won by five lengths; time 2:06 1/2.

The Dynamiter.

SAN FRANCISCO, Sept. 28.—Axel Sorenson, the man whose name was on the valve containing dynamite which was left at the wrecked lodging house last Saturday night, is now generally supposed to be the fiend who fired the fatal bomb last night. It is stated that Sorenson was always talking of dynamite and anarchism in the fore-castle; he is a member of the sailors' union.

New Postmasters.

WASHINGTON, Sept. 28.—The following postmasters were appointed today: Oregon: Grand Rapids, Clatsop County, R. M. Gaston, vice H. M. Spencer resigned; Van Syckle, Umatilla County, Mrs. P. E. Killian, vice Edwin Mc Neal, resigned.

Binding Twine Highbinders.

NEW YORK, Sept. 28.—The Cordage Trade Mutual Protective Association held a meeting in the offices of the John Good Company today and adopted a plan of organization. It provides for an agreement between the cordage men, having for its primary object the absolute and exclusive control of the purchase of sisal and other raw material, with the incidental purpose of regulating the price of manufactured product. John A. Good said he will cheerfully, and upon satisfactory terms, give the exclusive benefit of his inventions to all present members of the organizations and all who will come into the same with the honest purpose of placing the cordage industry upon a permanent and profitable basis. A committee on permanent organization was appointed and the meeting adjourned.

Rio Banks to Close.

LONDON, Sept. 28.—A private telegram received here by an important bank from Rio Janeiro says the bombardment of that city is so serious that banks of Rio, after consulting together, decided they will probably close together until the fate of the capital of Brazil shall be settled one way or the other. The bombardment yesterday is said to have ceased only when the foreign war vessels threatened to turn their guns on the rebels if the city was not spared. Negotiations have been resumed between the government and rebels at intervals with apparently no better chance of a peaceful termination of the struggle than some weeks ago.

To Prosecute the Smugglers.

WASHINGTON D. C. Sept. 28.—Ex-Representative Geo. H. Durand, of Michigan, has been selected by the Attorney General to assist in the prosecution of federal officials and others implicated in the charges of opium and Chinese smuggling on Puget Sound and vicinity.

Bombardment Resumed.

LONDON, Sept. 28.—[Private cable.]—The rebel fleet resumed the bombardment of Rio de Janeiro this morning.

The American bred trotting stallion Extra, by Contractor, has been sold in Australia to go to India. There is no limit to the wanderings of the Yankee trotter.

The five mile trotting record of 13:00, made by Lady Mac in 1874, was broken recently at Fleetwood by the black gelding Pascal, by Pascarel, who made the distance in 12:45.

George A. Singler is having a tread mill constructed for training purposes. He observed that horses used on treadmills developed muscle and will apply the system to his trotters.

WORLD'S FAIR NOTES.

Nebraska shows a map of Platte county made with wheat, rye, oats and grass seed.

One of the many railway exhibits in the Transportation building comes from England. A complete train as run on the London and Northwestern railway is in place.

The mineral cottage in the South Dakota building is constructed entirely of minerals. The roof is of mica, the walls are of gold, silver, copper, tin, lead, zinc and nickel ores.

Washington has a model farm 30 feet square, with a farmhouse no larger than a bird cage, a red barn 3 feet high, and flowing wells which spout into troughs that hold about a pint.

The Smithsonian institute has a natural history exhibit, showing all the principal species of each family of mammals in the two Americas. There is also an exhibit of the families of beasts and birds which are fast being exterminated.

In the watch exhibit are the timepieces carried by King James I, Oliver Cromwell, John Milton, Sir Isaac Newton, King George III, Robert Burns, William of Orange, Queen Elizabeth, John Calvin, John Bunyan and Lady Jane Grey.

In the piano department of the Russian section is the invention of Baron Pillard von Pilchun, a most ingenious contrivance by which a composer may sit down to his instrument and improvise without any thought of memorizing his work, for the attachment writes out the music as rapidly as he plays it.

FASHION'S FANCIES.

Handsome black gowns are the rage for small dinner parties at home and abroad.

Leghorn hats trimmed with rich autumn leaves, birds and pinnings and fall blossoms will be worn until very late in the season.

All the changes possible have been rung on lace and flowers in millinery, and now the latest garnitures of hats and bonnets are fanciful little gay colored wings.

The new bodice ruffs are strictly Elizabethan in width and volume, but are light and subtle and do not, as the historic ruffs did, make the wearer look and feel as if pilloried for a misdemeanor.

HEAVY DAMAGES AWARDED

Florence Bathe Gets \$25,000 for Her Betrayal.

A TRAIN ROBBER'S CONFESSION.

Hundreds of New Cholera Cases in Russia.

\$25,000 for Breach of Promise.

PORTLAND, Or., Sept. 28.—It was a most interesting case. Florence Bathe, the plaintiff, is a prepossessing young woman. With her in the courtroom were her father and mother, and her 7-year-old son, whose father was the defendant, Thomas Welch, and whose birth, as alleged, was the result of seduction under the promise of marriage. This was a case that readily excited the sympathy of the jury. The defendant did not even try to excuse his course, and with his attorney withdrew from the trial altogether. This left as witnesses the young woman and her father and mother. The story they told was straightforward and conclusive, and could not fail to impress all who heard it.

It was to the effect that young Welch, who was a druggist on the East Side, had paid assiduous attention to Miss Bathe. He proposed, telling her he loved her most dearly, kissed her and caressed her with great showing of affection. She accepted. They were then together much of the time. Finally, under the promise of marriage, and claiming that they would soon be united, he succeeded in seducing her. In time she found she was in trouble.

Welch refused to marry her and left the country. That was in 1885. Miss Bathe has not seen him since until in the courtroom today. In the mean time, however, she has endeavored to reach him, had written letters, and placed detectives on his track, but all without avail. Since the birth of her child, she has lived closely at home with her parents. This great shame and wrong has hung heavily upon her, but she has borne it as cheerfully as possible and brought up the boy as well as she could.

The little fellow is a handsome lad, and as he stood up for the jury to see him they had additional reason for the verdict they gave later. On the witness stand she told her experience in a modest way, and apparently showed to the jury beyond a doubt that she had been woefully wronged and that her life had been immeasurably blighted.

Hon. J. F. Caples addressed the jury in her behalf eloquently, and Judge Shattuck delivered a brief charge in the girl's favor.

The twelve men were out only 10 minutes. They returned a verdict for the full amount of \$25,000 damages. The defendant is said to have some property, and at one time had an extreme drug business. The father of the plaintiff is a well-to-do farmer near Piedmont.

Train Robber Confesses.

MARQUETTE, Mich., Sept. 28.—Geo. LaLiberty made a full confession of the Mineral Range train robbery at Houghton on preliminary examination. He said King, Butler and himself stopped the train and he ran the engine while King and Butler robbed the express car. King, Butler, LaLiberty and the two Hognes were held for trial in \$20,000 bonds each. LaLiberty denied knowing what had become of the money. Who robbed the robbers is still a mystery.

More Cholera.

ST. PETERSBURG, Sept. 28.—Sixty new cases of cholera and twenty-three deaths from the disease were reported in this city yesterday.

Internal Revenue.

WASHINGTON, Sept. 28.—The committee on ways and means has begun consideration of the new tariff bill. There is intimation that the secretary of the treasury favors an increase in the internal revenue tax on whisky, beer and tobacco as the best means of raising additional revenue necessary to meet the increasing deficits of the government.

Killed by a Wire.

OREGON CITY, Sept. 28.—Carl Perhato, a bridge repairer at work on the bridge of the East Side Railway company across the Clackamas river was killed yesterday by getting in contact with live electric wires.

Demands of Manufacturers.

PHILADELPHIA, Sept. 28.—A hundred and fifty leading manufacturers of this city, led by Wharton, a banker and well known financier, have drawn up and signed a proposition, offering the silver senators aid in their fight against the repeal of the silver purchase, provided the latter will combine to prevent any tariff legislation.

As over half of the manufacturers who signed the paper are Republicans and this community has favored repeal, this new movement has created a sensation in business circles.

The circular contains these three propositions to the silver senators:

That the United States shall admit silver bullion from American mines to coinage in its mints upon payment by the owner of seignorage absorbing three-fourths of the difference between the market (London) price of bullion and its value when coined.

Second—That foreign silver shall be admitted only for coinage purposes; it seignorage absorbing all of the differences between market (London price and its value when coined.

Third—That the United States shall invite at once a conference of those nations of the world which have not committed themselves to gold monetalism.

In Congress.

WASHINGTON, Sept. 28.—The lie passed at the opening session of the house this morning between Morse, of Mass., and Fithian, of Illinois. Morse charged Fithian with being solely responsible for the refusal of the house to permit him to print in the Record newspaper extracts attacking Pension Commissioner Lochran, Fithian replying, said that Morse had endeavored to induce him to withdraw his objection to printing, by intimating that he, Morse, would, as a member of the committee on buildings and grounds be permitted to get through any public building bill in which he might be interested.

"That is absolutely false" shouted Morse, striding menacingly toward Fithian.

"If the gentleman denies my statement" yelled Fithian, shaking his fist angrily at the Massachusetts man, "he is willfully lying himself." The house was then in an uproar. The speaker pounded vigorously for order, declaring both out of order. This closed the incident.

The resolution offered yesterday by Mr. Teller, asking for information as to the anticipation of interest on government bonds, since '80, was taken up and adopted. The repeal bill was taken up. Hear addressed the senate.

The debate continued for more than an hour, when Fifer addressed the senate. He read the president's letter to Governor Northing, of Ga., and said it did not dissipate the confusion in the public mind, as to the president's real opinions on the monetary question.

He might be a monometallist or he might be a bi-metallist, but there is nothing to show in the letter what kind

of a metallist he was.

The debate on the bill to repeal the federal election laws, was resumed. General John C. Black, of Illinois, commissioner of pensions, spoke in support of the bill.

Hawaiians Enthusiastic.

HONOLULU, Sept. 28.—Reports which arrived by the last steamer, to the effect that the United States would establish a protectorate over Hawaii and that an election would be held, has created great excitement here. The American colony announced that they would not be coerced into a farce of an election which would give the native element control over foreigners.

The public here is pleased with the appointment of Minister Willis, but annexationists criticize the appointment of Ellis Mills, as consul-general of the provisional government. He is objected to on account of the preference for the royalist cause he displayed while here as Mr. Blount's secretary.

Don't You Know

that you can secure almost immediate relief from indigestion, and that uncomfortable fullness after meals, by simply taking a dose of Simmons Liver Regulator? Some people think that because it is called Liver Regulator it has nothing to do with indigestion and the like. It is the inaction of the Liver that causes indigestion, and that fullness; also Constipation, and those Bilious Headaches. Millions have been made to understand this and have been cured from these troubles by Simmons Liver Regulator—a medicine unfailing and purely vegetable.

From Rev. N. B. Whiston, Baltimore, Md. "It affords me pleasure to add my testimony to the great virtue of Simmons Liver Regulator. I have had experience with it, on occasions distinguished, for many years, and regard it as the greatest medicine of the times. No good medicine deserves universal commendation."
