LILLIKAULANI RESTORATUM!

A Glorious Act of Righting Wrong.

PROVISIONAL GOVERNMENT GOES.

That is the Verdict of the Administration.

CLEVELAND REJECTS ANNEXATION.

The Queen Restored Without Bloodshed.

The Queen Probably Restored.

WASHINGTON, Nov. 15.—Although the state department expected to hear nothing from Hawaii until Saturday, it is generally anticipated that every thing is settled in the islands, that the restoration of the queen has been accomplished without bloodshed. It is understood that Minister Willis' instructions are to provide for the protection of the people, who were instrumental in forming the provisional government and that the queen shall grant amnesty to all engaged in her overthrow. The ground on which this position is taken, is that Minister Stevens led them into revolt, and that this government therefore is bound to protect them to the extent of assuring amnesty.

An Act of Justice.

WASHINGTON, Nov. 15.—An official of the administration, who is acquainted with all that has been done about Hawaii, and speaks by the card as to the sentiments and opinions of those who have brought about the changes, said to an associated press reporter today, "The action of the administration will go down in history as one of the glorious acts of the United States righting of wrong."

"But if this restoration of the queen has to be maintained by force of arms, would it not subject the administration to severe criticism, even if the justice of restoration were acknowledged?"

"That feature of the affair I do not feel at liberty to discuss," he replied, and then went on to say that the theory of the administration was this: "The provisional government was established merely to exist until the islands were annexed to the United States. The United States has refused to annex the islands and the provisional government has ended."

This statement is explanatory of the understanding that Minister Willis has two sets of credentials, one to the provisional government and another to the queen. The provisional government will be recognized until the treaty of annexation is rejected, when it is assumed it has ceased to exist and the old status is naturally resumed. Minister Willis will bring to the provisional government the first official information of the rejection of annexation.

Having made this known to President Dole, it is assumed the provisional government would have no further standing or existence, and Minister Willis would then recognize the government of the queen, and that would end the matter. In other words, the administration's position is, that this government has not thrown down any gauntlet, but merely upon one government ceasing to exist, it recognizes the old one.

Gov. Wrong.

CHICAGO, Nov. 15.—In an interview Jeff Chandler of Missouri, an eminent lawyer, said that Cleveland has no more right to inquire into the methods by which the provisional government was established in Hawaii, and to use the military power of the United States to overthrow that government whose ministers he found accredited to the United States and recognized by this government when he took the oath of office.

77 YEARS OLD
I am seventy-seven years old and have had my age renewed at least twenty years by the use of S. S. S. My foot and leg to my knee was a running sore for two years, and physicians said it could not be cured. After taking S. S. S. there is not a sore on my leg, and I live a new lease on life. I would like to let all sufferers know of your wonderful remedy.

A Democratic Protest.

PORTLAND, Nov. 15.—Under the caption "Down with Despotism," the Evening Telegram editorially says this afternoon: "Crush the one man power." The editorial further says that Cleveland is guilty of usurpation in suspending the G-ary act, the purchasing clause of the Sherman law and in using patronage in securing the passage of the repeal bill.

He is now guilty of gross violation of the constitution, in declaring war on the provisional government of Hawaii, without the concurrent action of congress. "The danger which confronts the nation is not imaginary, it is actually real, impending despotism."

The Cabinet a Unit.

WASHINGTON, Nov. 15.—It has been learned on good authority that the cabinet is a unit in its endorsement of Cleveland's plan for the restoration of Queen Lilioukalanani. This fact developed after the conclusion of the cabinet meeting today. The Hawaiian question was the chief topic of discussion. The meeting was attended by all the members except Secretary Smith, who is in Georgia. Secretary Morton remained with the president after adjournment, and it is presumed took luncheon with him. After the close of the meeting yesterday a reporter was informed by a gentleman who participated in it that nothing would be made public on the Hawaiian question, as to the result of the meeting or otherwise.

Everything Still Friendly.

WASHINGTON, Nov. 15, 3 p. m.—Minister Thurston of Hawaii, has not demanded his passports. His relations with this country are still, to all appearances at least, most friendly. The fact that this is so after the conference he had with Gresham yesterday, is considered significant that relations between the Hawaiian legation and state department remain undisturbed. It is scarcely possible that orders can be given to restore the queen by force, while the department of state is still seeking to maintain friendly relations with the legation here.

The Burglars Shot.

CHICAGO, Nov. 15.—Thomas Prunty was shot and killed, and two of his children, Sadie and Peter were wounded by burglars, who entered their house last night. The burglars escaped.

Cleveland at New York.

NEW YORK, Nov. 15.—The Evening World says President Cleveland unexpectedly arrived here early this morning. He came alone, and the object of his visit is a mystery.

More Vessels for Hawaii.

VALLEJO, Cal., Nov. 15.—It is said on good naval authority that the Ranger and Mohican, now at Mare Island, are being made ready for sea and will be ordered by the secretary of the navy to proceed direct to Honolulu to report to Admiral Irwin and relieve the Philadelphia, which will return to Mare Island. The plan is to increase the number of marines in Honolulu and give Minister Willis a larger force at his command. The rumor was current tonight that Minister Willis, in going to Honolulu, was the bearer of orders to Admiral Irwin from the secretary of the navy, directing that in the event of the rejection of President Cleveland's ultimatum to the provisional government, or any uprising, Admiral Irwin would dispatch the Adams to the United States with any special communication that Minister Willis might require to send for the information of the Washington authorities. Admiral Skerrit, who was seen on the matter, smiled and said that while such a course was probable he had no knowledge of it.

Provisional Officers Not Aliens.

CHICAGO, Nov. 15.—A Daily News editorial says: "Careful inquiry reveals the fact that not a single person identified with the provisional government of Hawaii is an alien. Every one is either a native or naturalized citizen. Dole, the president, is a native; so are Dauen, minister of finance, and Smith, attorney-general, Vice-President Hatch and Minister of Interior King—re naturalized citizens. When Secretary Gresham calls these men and others connected with the revolutionary movement aliens, he blunders woefully. He might as well say that all except Indians are aliens in this country. If there ever was a justifiable rebellion, that of the property-owners in Hawaii was justifiable. The queen and her court were thoroughly corrupt. Misrule was the order of the day, revenues were squandered, and to replenish the coffers it was proposed to legalize gambling and make Honolulu the headquarters of the most gigantic lottery in the world. The deposition of Queen Lilioukalanani was an act which the whole world applauded, yet President Cleveland and his secretary of state propose to undo the good work and pave the way for another reign of vice and corruption. Their course in this matter is not merely impolitic and undemocratic; it is disgraceful."

Effect of Restoration.

WASHINGTON, Nov. 15.—The fear of the friends of the present government of Hawaii is that Minister Willis will push President Dole for an immediate decision to the demand for the prompt surrender of the authority on the ground that the provisional government itself put the limits of duration upon its own authority and that the limit expires when it is decided there is no chance for annexation to the United States. There have been rumors from the state department that the United States has not entered upon an attempt to restore the queen without a thorough understanding with all the foreign powers, and it is said the government has received assurances that no objection will be raised to its plan. Great Britain unquestionably welcomes the restoration of Lilioukalanani, and the prospect of the early accession of Prince Kaiulani as the best hope of the government is distinctly in British interests.

By the convention in France in 1843 England agreed to refrain from ever annexing the Hawaiian islands, on taking them under her protection, but she never ceased to try to influence the control of the local government to her interests. The restoration of the queen will affect the United States interests in the Pearl River harbor, the exclusive right by which the United States used this harbor was the reciprocal consideration granted for the treaty of Hawaiian sugar into the United States, but the general free entry sugar under the McKinley law worked an abrogation of the special advantage enjoyed by the Hawaiians and they hold that the right of the United States in the Pearl river harbor terminated by it. Some disappointment is felt in administration circles at the expressions of public opinion against the Hawaiian policy, but there are no indications of the wavering of purpose.

The Hawaiian incident is attracting much attention in commercial circles, and congressmen still in the city evince a lively interest in it. It is already accepted as inevitable that the matter will come up in congress as soon as the session opens. From all indications the division will be on strict party lines. The Republicans take Cleveland's position to be a reflection on Harrison's action in the premises, and will doubtless attack him therefor. The Democrats expect this, and are preparing to be put on the defensive. Congressman Hill, ex-assistant secretary of state, has come out in condemnation of the movement to restore the queen.

Congressman Springer, of Illinois, however, says he is in thorough accord with the administration on the question, and believes that, if he says, the queen could not be overthrown without the aid of the United States marines, she should be restored. Democrats believe that at the opening of congress Cleveland will send in a message in which he will make public many facts hitherto unknown to this country, which may put the case in an entirely new light. This is expected, especially in view of the fact that Commissioner Blount's report has never been given out, Springer is opposed to annexation, but says it is the duty of the United States to assure the independence of Hawaii, and to make it a cause of war for any other nation to attempt annexation.

Honduras Ready to Fight Nicaragua.

GLADSTONE AS LABOR ARBITRATOR.

Important Dispatches From Other News Centers.

LONDON, Nov. 15.—It now appears the government consulted both the Coal Mineowners' Association and the Miners' Federation before asking them to send delegates to a conference looking to a settlement of the great coal strike. From this exchange of views, Gladstone learned both sides are ready to accept any proposition which they consider reasonable.

MANCHESTER, Nov. 15.—The miners' conference this afternoon decided to accept the proposal of Gladstone to meet the mineowners.

Honduras Means War.

LA LIBERTAD, Salvador, Nov. 15.—Letters have been received by the government officials here denouncing Nicaragua for harboring Honduran refugees. A request is made that Salvador intervene in behalf of Honduras or assist the latter republic in a war against Nicaragua. Honduras also advises that war be declared against Nicaragua on the slightest provocation, whether or not an alliance be entered into. News has also been received that investigation shows the steamer Costa Rica was in pursuance of positive orders issued and reiterated by President Vasquez.

A Crisis in Spain.

LONDON, Nov. 15.—A letter from a Spanish agent of a great commercial house of this city says the condition of affairs in Spain is decidedly critical. Public confidence is at the lowest ebb. The government and army officials are in a state of panic and the army is notoriously disaffected, owing to the fact of its pay being in arrears. The Mellis disturbances have not diverted the attention of the people from the Barcelona dynamite outrage, which has further inflamed the public against the government. This is causing much alarm and may lead to the most serious consequences. Ramsden, the British consul at Santiago, now in London, has received a telegram assuring him of the pacific condition of Cuba, saying the report of a revolt comes from the Cuban party in Florida.

Will Control Railways.

ST. PETERSBURG, Nov. 15.—As a strategic measure to secure entire control of the principal railways in Russia in the event of the mobilization of troops, the government has decided to avail itself of the clause in the concession acquired from the private company which built the roads and pay compensation in the sum of \$500,000,000. The roads run from St. Petersburg to Moscow, from St. Petersburg to Warsaw, and from Moscow to Nijnj-Novgorod.

In Favor of a Monarchy.

PARIS, Nov. 15.—Dr. Concesco, a friend of the late Dom Pedro, was interviewed regarding the situation in Brazil. He said he believed Mello would hold the imperial flag as a result of a victory of his arms. The republic in Brazil, he declared, had hitherto only been maintained by military dictation, while the majority of the inhabitants of the country were in favor of a monarchy.

A French Minister Resigns.

PARIS, Nov. 15.—Gaurin, minister of justice, resigned today, in consequence of the fact that his private reports, which were dropped by a messenger boy, were published. Dupuy declined to accept the resignation.

Home Rule Schemes.

LONDON, Nov. 15.—It is reported that the Tories are preparing an Irish home rule scheme, which will be published after the return of Chamberlain from Ireland.

Hawaiian Affairs.

WASHINGTON, Nov. 15.—Ex-Lieutenant Stanton, who is regarded as the ablest admiralty lawyer in the country, makes the following suggestion at the possible outcome of the Hawaiian situation:

"A naval officer has a right to obey an order which he knows to be legal, but he assumes responsibility so refusing. If on the trial the officer shown to be liable he cannot be punished; but in the first instance the officer is to obey the order and throw responsibility on his superior. Dole has a simple way of tying Minister Willis' hands if sharp enough. A I has got to do is to hand him his passports and refuse to have any further dealings with him. Willis becomes immediately a private citizen, and cannot legally give an order to a naval officer. It makes no difference if he has another set of credentials to Lilioukalanani. The provisional government received recognition as a de facto government from foreign nations, and a act by Willis as American minister Hawaii after President Dole had sent him his passports would be illegal. takes two nations to make a minister. Lord Sackville West ceased to be British minister when the state department gave him notice."

Monarchy in Brazil.

NEW YORK, Nov. 15.—A private cable announces that a monarchy is proclaimed in Brazil. Mello has hoisted the imperial flag.

Will Ship No Freight.

SAN FRANCISCO, Nov. 15.—There will be little or no freight shipped to Hawaii by the Mouwaul, the steamer that sails next Thursday. Commodore Wilder was seen regarding this. He said that so far no bills of lading had been presented to him for his vessel, no freight can be shipped to Honolulu without this formality, it is apparent that there will practically be no shipments made to Hawaii by this steamer. "It may be," said Mr. Wilder, "the merchants do not care to risk the goods by sending them to a country where there is a chance for a revolution."

President Winston, of the Salt Lake Banking Company, with which the provisional government has connections, said that no drafts on the Hawaiian provisional government had been presented to him. If such a one were presented he would have cashed it.

A SPLENDID LEADER.

The young Republicans of the Pacific coast send greetings to the young Republicans of Iowa and congratulate them on the splendid victory just won under the leadership of Frank D. Jewson, governor-elect of Iowa. Jewson, secretary of state, he will bring to the office an intimate knowledge of the details of that great state. He possesses the ability of many older heads, and with the enthusiasm of the young blood will carry the grand old Haweye state several rounds higher up the ladder of fame.

THE IOWA REPUBLICANS.

They won a grander victory at the recent election than those of Ohio With Gov. Boies, a Democratic executive in the chair, a man of great popularity personally, with a caustic campaign on the part of the Prohibition party, and a bitter personal fight, their candidate for governor, they rolled up 35,000 plurality for the entire state, and carry the legislature and come tickets in nearly three-fourths of the counties of the state. The Clarke Brothers of the Iowa State Register usual led the fight day and night. The Register for the past one hundred days contained not less than one thousand editorials and paragraphs bearing on the election and as a result the Republicans marched to victory 100,000 stronger than without such leadership.
