If this measure becomes a law, the demand for labor in all productive employment in this country will be decreased. This will reduce the wages and earnings of every man, woman or child among us, permanently lower the standard of living in this country; and reduce the purchasing power of our wage earners who constitute the great consuming force in this land.

But he can never do it by pursuing the old methods of extravagance in handling public corporations that grows out of treating them as private property. He should make the Oregon Pacific a public property, dedicated to the public service and the public and all the power of the state, the laws and the courts will back him. If as receiver, he will honestly attempt to do this, he should be continued. If he does not, the court should put in some one who will. Corporation extravagance, which he pleads against, and which he has been the victim of, should point out the way of rigid publie concomy as the only solution of the problem.
