Oity Councilmen Caucus and All Hacrah for Reform

Reform is a popular thing when it is all worked up and a success. Men who are called cranks and reformers when they are fighting in the minority are called wise statesmen when they suc-

by the old council and several cuts besides. The old council deserves great credit for having started the work. The new members determined not to be outdone and also held a reform cauous and did some pretty heavy cutting of their own. Altogether there are going to be an assortment of judicious

and wholesome cuts. THE JOURNAL'S suggestion that the etty marshal's salary be cut down to \$1000, will be carried out to the letter. S reet laborers will get \$1.50 a day when they work. The street commisstoner's salary will be cut from \$100 a month to \$75 a month. Policemen will receive \$60 a month the fire deparment will probably be reduced to two drivers at \$50.00 per month, eight hosemen and one engineer at \$10.00 per mouth, the chief, if he serves as day ftermoon on the Lorney farm near policeman, to draw \$20.00 per mouth for fire service.

OTHER MATTERS.

An effort was also made to reduce is body with the head nearly shot off the salary of the City Recorder, but no agreement was reached. It can be aid of this official that he must be on luty at all hours, must employ clerical assistance and it is quescionable whethr it can be conducted for much less. Fees from the county swell the receipts considerabl however. The Mayor will submit his annual message this evening and a bonding ordinace will probably be put through for \$59,000 and all warrants will be ordered received at par for debts due the city. This will oring warrants to par. The members of the council show no disposition to be ed naide from their policy of retrenchment by any personal difference of opinion on minor matters.

THE JOURNAL has every reason to be satisfied with the program agreed upon. It is a business necessity that compels this line of action in the inerest of the credit of the city. The council should complete its work of reform by letting all city printing and advertising for the year to the lowest bidder. A good start has been made. There should be no sinecures left, nor any loophole to run exorbitant bills against the city.
