PROVISIONAL RESTORATION

State of High Tension at Hawaii.

DOLE'S GOVERNMENT TO

Retire and Allow Restoration of the Queen.

THOSE WERE THE CORWIN'S ORDERS

Great Excitement Prevails at Honolulu.

News by the Corwin.

WASHINGTON, Jan. 6.—Captain Mungler's report to treasury department of the arrival of the revenue cutter Corwin at San Francisco December 24, but gave nothing else of interest. This is two days later than the Associated Press reports from Auckland. Incredulity was expressed by state department yesterday concerning the exclusive Associated Press news from Auckland had been changed by report of cipher dispatch brought by the cutter Corwin, which fully confirmed the Associated Press news. It seems the queen reconsidered her objections to conditions exacted by this government and that Minister Willis has proceeded on the line of his original instructions, notifying the provisional government that they are expected to retire and allow the restoration of the queen. Nothing can be learned as to the extent of the disturbance caused by this action, but that there is a condition of tension and great excitement in Honolulu is certain. This news is a surprise as much to the state department as it was news, in the first place, that Willis had failed to carry out his instructions owing to refusal of the queen to accede to the conditions.

There is no doubt that all concerned feel this latest phase in the Hawaiian imbroglio involves very serious consequences. It does not appear that there is any disposition on the part of the provisional government to yield peacefully and no apprehension that Willis will resort to force. His instructions are explicitly against such a course. The state department feels that he acted with bad judgment in attempting to carry out the policy defined under very different conditions. Every body is anxious for the publication of the contents of the cipher dispatches which were brought by the Corwin, but the state department has so far declined to make the contents known. Representative Hitt, of Illinois, is evidently giving full credence to the truth of the Associated Press Auckland dispatch introduced as a resolution in the house. The president will be requested to communicate to the house if not inconsistent with public interest all the information received since his message of December 18, or not transmitted therewith, and now in his possession, touching recent reported events in the Hawaiian islands.

Pension Agents Arrested.

BUFFALO, N. Y., Jan. 6.—W. B. Moore, the most extensive pension agent in western New York, his son Allen and five clerks were arrested this afternoon by government officers, charged with defrauding the government and extorting money from pensioners. The amount involved is \$150,000. The evidence is highly sensational.

PENNOYER'S DEFENSE.

He Meant Two-Thirds of the People Were Making No Money.

PORTLAND, Jan. 6.—Governor Pennoyer replying to criticisms on his statement in his Christmas letter, that two-thirds of the people of Oregon were without employment, said: "In one sense of the word all are employed, the tramp is employed in hustling from place to place for a job and the mechanic out of his work is employed in contemplating the sorrowful condition of his wife and children. What I meant was remunerative employment, and what I said was true. Business is paralyzed and two-thirds of our people, if not falling behind are making no headway, nor will they until we have sufficient full legal tender currency of gold silver and treasury notes with which to effect a ready and complete interchange of commodities."

PORTLAND WAGE-EARNERS.

Sixty three Per Cent Out of Work—Few Permanently Employed.

PORTLAND, Jan. 6.—Figuring on a basis of 80,000 population and of 58,000 wage earners in this city, Captain John O'Brien has estimated that 17,700 skilled and unskilled laborers, or 33 per cent of the wage-earners, are out of employment. Of those reported employed only 10 per cent of the whole number are permanently so, and the remaining 27 per cent are working from one-half to three quarters time. The American Federation of Labor's report of unemployed in 119 cities in the United States gives over 3,000,000, as against 800,000 estimated by Bradstreet's commercial agency for the same cities.

A Vitriol Thrower.

SAN FRANCISCO, Jan. 5.—Mrs. Theresa Shipman, of Emmet, was arrested charged with attempting to maliciously injure Miss Ida Vaughan, of this city. According to Miss Vaughan when Mrs. Shipman threw the dangerous fluid it struck the floor and splashed back upon herself, burning her seriously. Miss Vaughan was uninjured, Mrs. Shipman, however, declares that it was Miss Vaughan who did the throwing. The matter will be investigated. Bad blood has been brewing between the women for some time past.

Mitchell Angry.

JACKSONVILLE, Jan. 6.—Mitchell is very angry over the fact that several Southern newspapers have accused him of showing the "white feather" in not signing the amended articles when first presented to him. The pugilist asserts he is widely anxious to meet Corbett, but as he has a family he does not propose to violate the laws of the state and get himself in trouble. He says he is sorry now he did sign, and if he had a chance would take his name from the agreement. He stated positively he would sign nothing more.

THE DEMOCRATIC CAUCUS.

Held Friday Night on the Tariff Bill.

FIGHTING FREE COAL AND IRON.

Forcing Members to Attend the Sessions.

WASHINGTON, D. C., Jan. 6.—There was a good attendance at the Democratic caucus, Holman president. It was estimated 147 out of a total of 216 house Democrats were present when the proceedings began. It was decided to limit speeches to five minutes. Wheeler made a vigorous speech against putting coal and iron ore on the free list. Speaker Crisp followed. He offered a resolution declaring it the duty of every Democrat to vote for the consideration of the tariff bill and also the duty of all Democrats to attend the sessions of the house and maintain a quorum until the tariff bill was disposed of. In a ringing speech, Crisp sharply reprimanded the Democrats responsible for the inaction of the house during the past three days. He said the proper way to act for those dissatisfied would be to take the bill up and have it considered. They would be given opportunity to offer amendments and those amendments under the terms of the resolution of the committee on rules could be voted upon. The majority could decide that no member would lose any of his rights and it would be to the honor and credit of the party to go forward and legislate. The party had been given a commission from the people and it was but duty to carry it out. The spectacle of the past three days has been a disgrace to the large Democratic majority in the house and he sincerely hopes it would not be repeated. The words of the speaker were loudly cheered.

Following resolutions were adopted: Resolved, That it is the sense of this caucus that it is the duty of every Democratic member of the house to vote for the pending resolution providing for the consideration of the tariff bill, in order that the house may have the opportunity to red-empt the pledges of the party respecting tariff reform.

Resolved, That it is the duty of every Democratic member of the house to attend the daily sessions and we hereby express our opinion that those members who are absent owe it to the party and to those of us who are here, to immediately return in order that pressing public business may be attended to. Another resolution was adopted, "that it is the sense of this caucus that if the proposition or an income tax was reported from committee within two days, additional time be given for debate." After the resolution had been adopted, Harter, of Ohio, and Dr. Robertson, of Louisiana, introduced amendments, providing for a duty on sugar, but before the vote was had on either of the amendments, Chairman Holman recognized Black, of Georgia, to move an adjournment. The motion was carried with a rush and at 10 o'clock the Democratic caucus adjourned.

After adjournment Chairman Wilson said the caucus was entirely satisfactory to him. It had shown the great Democratic heart is beating for the people. He said: "The resolutions passed express the sense of the party in the fullest."

Will Make a Fight. WASHINGTON, Jan. 6.—There will be another contest in the senate over the confirmation of Thomas, appointed from an Eastern state as an Indian agent at Umatilla. During the special session of congress there was a protracted fight in the senate against the confirmation of this class of appointments, not because there was any objection to the men personally, but because the principle was opposed. The fight this time will open with the Oregon appointment, and both Dolph and Mitchell have said they intend to object to sending appointees from the East and South into their state. It is believed all the Western men will support them. It is claimed by those who support the administration in the matter that Indian agents are not state appointments; that Indian agencies are purely under federal control, and that appointees can be sent from any section of the country to govern agencies.

No Quorum. WASHINGTON, D. C., Jan. 6.—The Democrats are again without a quorum in house today, eleven votes required. The prospects are that the dead lock will continue all the afternoon. A resolution will be offered by Catchings to arrest all the members absent without leave and bring them to the bar of the house.

Lewelling Loses the Labor Vote.

TOPEKA, Kan., Jan. 6.—Resolutions passed by the state federation of labor at the recent Leavenworth meeting were today sent to the governor. The resolutions demand the immediate removal of State Labor Commissioner Todd. They say he is not only unfit and incompetent, but was not a wage-worker identified with the labor interests or eligible when appointed. The resolutions urge every labor organization to strive for the defeat of the re-nomination of Lewelling for his defeat at the polls if nominated, because of the governor's action in naming and retaining Todd.

The Colorado farmers' alliance and industrial union has transmitted to President Cleveland a communication condemning Secretary Morton for his ungentlemanly and unfarm-like attack on the tillers of the soil and urging the president to replace him with a competent man and one in sympathy with agriculturists.

Had Two Wives.

NEW YORK, Jan. 6.—George Walker 34 years old, employed on the elevated railway, quarreled a month ago with the woman to whom he was married last winter, she having learned that he had a wife living in Washington. The pair separated and he disappeared. While under the influence of liquor, he returned to his second wife's home and threatened to kill her unless she promised to live with him again. She rejected his proposals. He then shot himself in the mouth, dying instantly.

Revolution Rising.

ST. VINCENT, Jan. 6.—A dispatch from the Associated Press correspondent at Pernambuco, dated December 27, says that after most careful non-partisan investigation, he has been forced to the conclusion that the feeling in favor of the revolution is constantly spreading in the north, and that the presence of the government soldiers would not be enough to restrain it but for the presence of the cruisers Nictitery and America.

CALAMITY'S PROGRAM!

Pennoyer Wants to be Senator.

THE METHOD OF HIS MADNESS

Will Start a Personal Organ to That End.

A DISSECTION OF PENNOYERISM.

Gambling for the Senatorship and Presidency.

There is little wonder the people of Oregon resent Pennoyer's posing as the apostle of calamity. The country has had quite enough of calamity politics. To set up his high priest in Oregon as a presidential possibility and make grand old webfoot, where in the past every man has enjoyed the fruits of prosperity under his own vine and figtree, the seat of a propaganda of misery,—this is too much.

Two years ago Oregon was rapidly taking on population. Her cattle ranches were being cut up into fruit orchards. Old donation land claims by the hundred were being converted into suburban property. Portland was expanding into a city of a hundred thousand; Salem was nearing twenty thousand; Oregon was verging onto half a million.

Then calamity set in. A Democratic congress was elected. Grover took office. Immigration that had flooded Oregon and Washington began to fall off. Eastern factories began to run on short time. Railroad strikes succeeded and empty running cars were wrecked by idle threatening men. The homeless tramp appeared on the highways and took the place of the home-seeker on the overland trains. The passengers grew scarcer as the tramp multiplied. Calamity was here.

Weaver and Mrs. Lease and other Populist leaders stormed the state for Pierce, who received a majority as presidential elector on the calamity ticket. Oregon declared officially for Pierce and Pennoyer. The people who voted that ticket to help the Cleveland
