SUGAR TARIFF IS INCREASED.

Hawaiian Reciprocity to Be Repealed.

RHODE ISLAND DEMOCRATS.

Like Republicans, They Renominate Their Men.

MUHAMMEDIANS ATTACK THE SPANISH

And Are Repulsed with 200 Men Killed.

WASHINGTON, March 20.—The Democratic members of the finance committee have completed the consideration of the tariff bill, and it was submitted to the full committee of Republicans and Democrats today. The most important change is in the sugar schedule, the change being made by which an additional duty of 1/4 of a cent per pound be given on all sugars above 98 degrees by polar test, or which are above No. 16 Duth standard in color.

The provisions abrogating the Hawaiian reciprocity treaty were stricken out, and a specific declaration inserted repealing the reciprocity treaty negotiated under the McKinley act.

Other changes are: Lime 15 per cent ad valorem, instead of 10 per cent in the Wilson bill, duty to include value of covering or barrels; tin plate, terne plate and taggers tin, 1 cent per pound, instead of 1 1/2 cent, and the provision that the rate shall take effect October 1894, is restored. Lead and lead ores, duties unchanged from senate subcommittee rates, as are iron ore and coal duties; oatmeal, 15 per cent, instead of 20; collars and cuffs unchanged, but shirts and all other unprovided for articles partly of linen, 50 per cent instead of 35; in the international revenue schedule present taxes on cigars substituted as to cigars weighing more than three pounds and cigarettes not weighing more than that. The provision in the income tax amendment relating to building and loan associations, which were exempted by the house, and which the senate subcommittee struck out has been restored, and a proviso that the tax shall not be levied on such as make no loans except to shareholders to build homes.

In response to a question, Voorhees said there would be no written report to accompany the bill, but there would be a statement when the bill was called up.

Tariff Bill Reported.

WASHINGTON, D. C. March 20.—Voorhees reported the tariff bill as amended by the finance committee and gave notice that it would be called up Monday, April 2.

Union Pacific Matters.

OMAHA, March 20.—At a conference of President Clark and the engineers of the Union Pacific this morning on the wage schedule was interrupted by disagreement touching the cost of engine service and the men were allowed to consider and agree among themselves. In the meantime Clark summoned the trainmen to present their case.

The Breckenridge Scandal.

WASHINGTON, March 20.—Madeline Pollard faced her correspondent on the witness stand and the continuous fire of cross questions was like a play in which one actor is starred to the exclusion of all others. Major Ben Butterworth, ex-congressman from Ohio, played a minor part as questioner, all interest centering about the slender, black robed plaintiff. It was the most

interesting day of the sensational trial and it was made more so by the masterful display of intellectual resources, of quick perception, and of telling replies, which flashed forth, at each turn as the lawyers followed up every possible trail which might lead to admissions casting any sort of shadow on the life of the woman, apart from those passages which had been identified with the career of the Kentucky congressman.

Miss Pollard has shown herself to be a wonderful woman. Whatever opinions may have been held by the men, most of them of high standing in the community, who sat listening all day, as though to the revelation of a fascinating story, rather than to a woman's recital of her sorrow and disgrace; all of them were constrained to admit their admiration of her intelligence; her quick perception and her effective command of words. Seldom does a witness manage to give replies so telling in support of her own case, and keep within the limits of court room regulations.

Rhode Island Demo.

PROVIDENCE, R. I., March 20.—The Democratic state convention met here today to nominate a state ticket. A curious condition of affairs has existed the past year. When the legislature met last May its first duty was to meet in a grand committee to count the ballots at the last state election. The parties were of even strength in the grand committee, but the house is democratic, and it proceeded to change the complexion of the grand committee by ousting two Republicans and seating two Democrats. Then the senate which is republican, refused to go into the grand committee, and the governor prorogued the assembly. The result was the old officers continued in power. This is the issue in the coming election. To test the opinion of the people on this question it was suggested that the former tickets be re-nominated. The Republicans did this and the Democrats followed their example today.

Mrs. Breckenridge Talks.

LOUISVILLE, March 19.—The wife of a prominent attorney, who is acquainted with the inside facts of the Pollard Breckenridge case, said, in speaking of the rumor that Mrs. Breckenridge would seek a divorce: "The rumor that she intends seeking a divorce is entirely unfounded. I received a letter from her Saturday, in which she said she was in good spirits. Every line was full of her devotion to Breckenridge, whom she believes to be the victim of blackmail."

Mississippi Floods.

MEMPHIS, Tenn., March 20.—The heaviest fall of rain ever known in this section occurred during the past forty-eight hours, the local office of the weather bureau recording nearly seven inches. The whole country for miles around is flooded. The rivers are on the rampage, and enormous damage is reported in every direction. Washouts have occurred in the Tennessee Midland, Louisville & Nashville, Illinois Central, and the St. Louis Iron Mountain & Southern railroads. Freight traffic has been suspended, and passengers are transferred in boats at the breaks.

Troops Going Home.

CRIPPLE CREEK, Col., Mar. 20.—The sheriff and mine owners have asked the governor not to withdraw the militia, stating that serious consequences would be the result.

CRIPPLE CREEK, Mar. 20.—The troops left for Midland this morning where they will take the train for their homes. The miners are rejoicing, operators depressed and business men stunned. Two mines, which started up yesterday have been forced to close again, the men intimidated by threats of the strikers to blow up the properties.

In Suspense.

DENVER, March 20.—The supreme court was crowded with lawyers, politicians and other interested citizens, while arguments were being made on the question submitted by the governor, to decide whether Orr and Martin or Mullins and Barnes are legally entitled to act as members of the fire and police boards. The court took the matter under advisement, and the decision is expected the latter part of the week.

Benham's Successor.

DENVER, March 20.—Commodore Kirkland, recalled from Honolulu, arrived in Denver today and left for the East tonight. He has been ordered to Rio Janeiro to succeed Admiral Benham in command of the South Atlantic squadron.

TACOMA, March 20.—A letter received by J. T. Becher, Hawaiian consul at this port, from President Dole, asks him to use his efforts in dissuading people from going to the islands, either as volunteers for military service, or for the purpose of obtaining employment, as every branch of trade is depressed and there are many unemployed.

Two Oregonians Passed Away. R. SEBURN, Or., March 20.—Joshua Mathews died yesterday of cancer, aged 78 years. Mr. Mathews was born in Indiana, in 1816, and came across the plains with an ox team in 1852.

For Justice.

Of the numerous candidates for the office of justice of the peace for Salem district, we would call the attention of the delegates of Salem district, to the name of Geo. Hollister, thoroughly competent and well qualified, he would be the right man in the right place, and every office should be filled by competent men, and those who have given some time to the study of the questions which they will be called on to decide, let the delegates look at the qualification of those aspiring for office, and lend a hand to those who, like Mr. Hollister, are striving to make a reputation which will be approved by the public generally, and thus aid them in their after life.

The snow has piled up to a great depth in the Granite mountains. An old resident states that he has lived in that section over 20 years and during that period it has never before gained the present depth, but he says that a conservative estimate is 18 feet on the level, while in the canyons it ranges from 20 to 60 feet deep. These huge banks of snow insure a good water season to the placer miners.

A dog recently showed a great amount of intelligence when the 12 year old daughter of an Astoria county farmer was met by a mountain lion at a sharp turn in the road. She called her dog as the lion slowly advanced towards her. The dog appeared upon the scene and made for the lion, but kept out of reach of the animal's sharp claws. The dog kept worrying and tormenting the beast, to attract attention from the child, until the little girl was out of the way, when it too, left for the home of its master.
