LOCAL CALENDAR.

April 17, Tuesday, Marion county
Horticultural Society.
May 4, Friday—Republican county
convention at Dallas.

THE RACES.—The breeders associa-
tion held another meeting this after-
noon to settle the matter of the June
races. Independence has adopted the
14th, 15th and 16th, so it is suggested
that Salem take the week following,
and make the dates June 21st, 22d and
23d.

Plasters.

If you are thinking of buying a plaster,
remember that you will place it
upon your body and cannot get a plaster
that will be too good for you.

Alcock's porous plaster is the best
plaster made. Your druggist may
have some other plaster on his shelves
which he is anxious to get rid of, or
else some worthless imitation pur-
chased at a low price for the purpose of
substitution. Do not accept his "Just
as good" plea, insist upon having the
genuine. Alcock's porous plaster has
no equal.

Brandreth's pills can always be re-
lied upon.

FAMOUS PICTURES.—Cherrington
Bros. are now making their best pic-
tures at special prices, the Y. W. C. A.
rush, notwithstanding.

JAIL BREAK.

Professional Burglar Escapes Mon-
day Morning.

Fred Nelhold, who was put in the
county jail from Silverton, March 19,
awaiting inquiry of the grand jury on
a charge of burglary of Frank DePue's
residence and a shoe store. He was
about 38 years old, dark complexion, 5
ft. 9 in. and weight about 160 to 170
pounds. Robt. Lyons, his cellmate,
did not know about it until he was
awakened. But his time is out today
or he might have known perhaps.

The break was effected about 3 a. m.
this morning. Other prisoners heard
the noise and notified Sheriff Knight
through the night watch W. S. Klein.
He sawed two bars of his cell first.
To get the board door open he sawed
a link out of a chain that locked the gate.
Next he sawed off an inch iron bar
and bent them aside with an iron rail
from an iron post. It must have been
done very quickly because the night
watch goes the rounds in the jail every
hour, when he is not working as janitor.
The work of sawing the soft iron
bars was done with a steel case knife
—one silver plated, but now all rusted
over. This has been converted into a
saw with two edges that cuts iron like
butter. The saw was evidently made
by a skilful craftsman, and was prob-
ably secreted by some assistant of
Nelhold's.

Jefferson Republicans.

The greatest rally in this county so
far held by the Republicans and one
that will be hard to excel was carried
out under the auspices of the Jefferson
Republican club Saturday evening.
The Jefferson band, a splendid organiza-
tion for campaign purposes or wher-
ever brass music is needed, paraded the
streets. A local artist had constructed
some pertinent campaign banners, tak-
ing off the weak points of the opposi-
tion and creating great amusement.
In Smith & Jones' hall was further
evidence of careful preparation on the
platform, illustrating the administra-
tion's Hawaiian policy. Flowers
graced the table, the ladies graced the
occasion and the speakers engaged in
honorable discussion of public affairs.
The Jefferson Republicans set a splen-
did pace of enthusiasm, the influence
of which will be felt all over the coun-
ty. There is no more loyal Republican
in the state than John Roland, who
came so near the prize of the county
clerkship.

The club here has 116 members and
the junior Republican club has an en-
rollment of 38 lads. The little girls
have not yet been enrolled but if the
women and the young ladies get started
we presume they will follow soon.
There seems to be something to impel
people to become Republicans this
year.

The Populist Campaign.

Gov. Penney will, in the near
future, open the campaign for the Popu-
list party at Ashland. His speech is
already prepared, and will be supplied
to the press of the state in stereotype
plates, free of all expense. As is his
custom, he has carefully prepared his
speech, the same being written out
word for word. He made a trip to
Southern Oregon last week, to arrange
for the delivery and the publication of
the same. It is not yet known whether
the Republicans will challenge the
governor to a joint debate, as the atti-
tude of his campaign is still a problem
to the public. Whatever he may have
to say, his official acts and record ought
to be discussed for the benefit of the
public at large, and he ought not to be
allowed to escape his personal share of
the responsibility.

The Lecture.

Don't forget Dr. Locke's lecture on
Tuesday, 24th, one week from tomor-
row evening. This will be the lecture
of the season. Over 400 tickets have
been sold. We expect to sell more
tickets than the University chapel will
seat, and will change to a more conven-
ient place, notice of which will be given
soon. We believe Dr. Locke to be the
most polished speaker in the state.
The people of Salem will be glad to
hear him. One man said: "I went
one hundred miles to hear Dr. Locke."
You can hear him by going no more
than a mile April 24th.

The G. A. R. Social.

Remember the monthly social given
tonight at the G. A. R. hall, by the
three patriotic orders. There will be a
great variety on a pleasant program. A
social hop will follow it, at the W. R.
C. rooms. Music by Prof. McLyman
and orchestra. Vocal solo, Edna
Knight; recitation, Mabel Carter; vocal
duet, Mrs. Linn and Mr. Matt Whan;
recitation, Del Diagonore; vocal duet,
Misses Davis and Brown; vocal solo,
Mattie Southwick; address, E. Hofer.

Economy and Strength.

Valuable vegetable remedies are
used in the preparation of
Hood's Sarsaparilla in such a peculiar
manner as to retain the full medicinal
value of every ingredient. Thus Hood's
Sarsaparilla combines economy and
strength and is the only remedy of
which "100 Doses One Dollar" is true.
Be sure to get Hood's.
Hood's Pills do not purge, pain or
grip, but act promptly, easy and
efficiently.

FRUIT INTEREST.—They are look-
ing up. Car loads of fresh fruit go East
daily over the Overland trains from
California. Fruit canners are rejoicing
because of the demand for Pacific Coast
fruit, consequent upon the damage to
the Eastern crop by frost. Two to five
thousand cases are being shipped daily.
There should be a large attendance of
all fruit growers Tuesday at the meet-
ing of the Marion county Horticultural
society.

ROADS AND ROCK CRUSHERS.

County Court Assembles to Witness
the Operation of a Machine.
The Marion county court assembled
this morning to witness the operation
of the new rock crusher bought recent-
ly. There was some delay in the
arrival of the engine, and Messrs. Hub-
bard, Andron and Watson put in the
time talking up road matters at their
rooms in the court house.
An engine was rented of Messrs.
Munkers & Wanless, to run the crusher
at \$1.50 a day. But the county court
today refused to be responsible for the
bill. The court takes the position that
it has not yet bought the crusher, but
has only agreed to take it if it is a suc-
cess.

EVAPORATED CREAM.

A New Dairy Product Which is Re-
volutionizing Dietary Science.

Investigations of dietary chemists
have been triumphantly established
that animal fat, a most important con-
stituent of diet, is not, in the strict
sense of the word, digested, but finely
divided. That is to say made into an
emulsion by the stomach, before being
deposited in the tissues or consumed as
fuel in the process of producing vital
energy.

When Gail Borden invented the pro-
cess of condensing milk, so as to render
it capable of transportation, he did
not and could not take in this benefi-
cial aspect of his invention. However,
it being the established policy
of the company which has fallen heir
to his patents and trademark,
to keep up the efficiency of
their plants, to encourage new inven-
tions which will still further improve
already valuable processes, the dietary
value of Mr. Borden's invention, present
from the beginning as during the last
few years, reached practically its final
stage. What is being sold so widely
throughout the United States today
under the name of Evaporated Cream,
Borden's Peerless Brand, is a perfect
food for invalids. Why should a
healthy stomach be taxed any more
than that of the invalid or tender
infant? It should not be. Evaporated
cream can be used as a complete sub-
stitute for all crude milk.

Evaporated cream is a much better
thing to give to invalids, for instance,
than cod-liver-oil. It is fat—the fat of
milk—and it is fat made by very sim-
ple processes of driving off the water
into a perfect emulsion.

The process of evaporation is ac-
complished by the New York Con-
densed Milk company in vacuo and by
exercise of skilled experts, who have
been taught by years of experience in
the business and patient care. With-
out the Borden processes, and without
such skilled use of these processes,
evaporated cream would be an im-
possibility. So careful are the com-
pany to preserve the natural flavor and
color of pure dairy cream that steriliza-
tion is affected after the can is sealed.
Physicians and housekeepers, especial-
ly mothers, will find that an investi-
gation into the methods of this com-
pany will be of great interest, and
should the claims now made for Borden's
Peerless Brand be sustained, great
benefit to children, especially those
who have tendencies to waste
tissue, will ensue. These claims can be
summed up briefly as follows:

1. Evaporated cream is an emulsion
of cream, especially valuable for those
of delicate digestion.
2. It is completely sterilized.
3. It will stand transportation.
4. It is not dark colored, and retains
fresh, natural flavor of the best dairy
cream.

The established reputation of the
Gail Borden Eagle Brand of condensed
milk as an infant food, indicates a great
future for the new unwatered product.

Don't forget that Steiner's restaurant
serves the best meals in the city. The
finest dainties always on their bill of
fare.

MAYOR GATCH ON BONDS.

City of Salem Paper Advertised at a
Big Premium.

There is a great deal of inquiry why
the money from the recent sale of \$60,-
000 city bonds has not been forthcoming.
Following interview was had with
Mayor Claud Gatch today:
"How about the bonds? Have you
heard from the purchasers?"
"Not a word, unless a resolution, intro-
duced by an alderman, regarding their
form was from them; but that could
not be. A councilman would not
serve two masters, the city and also as
agent for Rollins & Sons at the same
time, would he?"

"It is near three months now since
Rollins agreed to take them. It may
be there is some legal obstruction?"
"I think not. I see a part of
them are advertised for sale, to Veimont
and New Hampshire Savings
banks, price 1.07 1/2 and interest 5 1/2 per
cent., quite a nice little profit to
make, we meanwhile paying 8 per cent
on our warrants, awaiting their find-
ing a good sale."

"But did the city agree to wait until
they sold them?"
"Rollins has the handle to this jug
contract. You will recollect that I
tried to get the council to insist that all
bids be accompanied by a certified
check, but could not succeed."

When we get the \$60,000, will it not
help raise the discount from our city
warrants?"

"Certainly, but that is not what in-
terested parties want done. Ten per
cent. discount on warrants is too good
a snap. Every move to place warrants
at par has been defeated. I would cite
the Leflore ordinance, pledging the city
to accept its own paper in payment of
debts due it, and their bulldozing of
our sheriff, preventing citizens paying
their city taxes in warrants. Examine
our city treasurer's report and see the
warrants returned by the Oakland
bank, if you want to understand the
trade going on in warrants."

County Finances.

The semi-annual summary statement
of the financial condition of the county
of Marion on the first day of April, 1894,
has been prepared by the county clerk
and filed for record in his office. It is
as follows:

LIABILITIES.	
To warrants drawn on the county treasurer, and out- standing and unpaid.....	\$ 55,788 77
To estimated amount of in- terest accrued thereon.....	3,500 00
To uncalled for warrants in the hands of the county clerk.....	2,024 80
