Woodburn, Oregon.

INDUSTRIALS AND PROTECTIONISTS

Sweeping Down Upon the Capital.

KELLY MAY MOVE BY WAGON

Or He May Travel by Water to Kansas City.

B-UND TO GET TO WASHINGTON.

An Extreme War Measure by a Populist.

PHILADELPHIA, P., April 21.—Another delegation of workmen of the protective tariff league, numbering six hundred, left on the Baltimore and Ohio railway for Washington today.

The men are from the mill districts of Kensington, Manyunk and other towns. They will be joined in Chester by two hundred more.

General Kelly's Movements.

OMAHA, Neb., April 21.—General Kelly is favorably impressed with the suggestion to make the trip over land by wagon trains, and is getting encouragement responses from farmers for assistance. They now have rations enough for one meal only. Kelly thinks he will go to Kansas City by water only as last resort.

Kelly Court Martials.

WESTON, Iowa, April 21.—Kelly's army had a court martial trial today. A. Madison, private, was convicted of smuggling liquor into camp, and spying on men in the interest of the railroads. He was publicly drummed out of town. At noon General Kelly declared that if transportation was not secured by morning, he would begin moving on foot eastward through the state.

Our Home Company.

PORTLAND, Or., April 21.—There are no new developments in the industrial army situation today.

At Washington.

WASHINGTON, April 21.—Representative Harter, of Ohio, called on sergeant-at-arms Bright to confer as to the reception at the capitol of the commonwealth army. Colonel Bright said that if proper people came, they would be treated as any American citizen visiting the capitol. He pointed out the law bearing upon an invasion of the capitol grounds, which prohibits organizations marching through them as such, and said that, unless overruled by higher authority, he would see that the law was enforced. There would be no interference with their privileges, and they would be entitled to seats in the gallery as long as there were any unoccupied. The interview is important, as including the policy to be pursued by the executive officers of the

senate towards delegations visiting Washington for the purpose of influencing legislation, and had direct bearing upon the Coxey movement. It is understood Colonel Bright acts under the advice of the senate committee on rules.

Plenty of Work and Money.

WASHINGTON, April 21.—Representative Davis, a Populist of Kansas, has introduced in the house a long bill reciting the woes of the unemployed and directing the secretary of war to immediately enlist 400,000 in an industrial volunteer army, to serve for the period of one year after enlistment. The army is to be fed, clothed and paid as regular soldiers. It is to be employed on public works, such as canals, rivers and harbors, public highways, etc. To defray the expenses of this army, the secretary of the treasury is to issue \$50,000,000 of legal tender notes and certificates and other forms of currency. Another Populist, Boen of Minnesota, introduced a resolution instructing the secretary of war to provide, within the District of Columbia, a camping ground and tents for all organized bodies of laboring people who may come within the district, and to see that their rights as citizens are respected and protected during their stay. The resolution was referred to the committee on military affairs.

Galloway's Oration.

MCMINNVILLE, April 21.—Judge Galloway returned home last night, and was met at the train by a large delegation of friends, headed by a band that furnished stirring music. When the train pulled in, the judge was ushered onto a platform, and made a neat little speech to his old friends and neighbors present, many of whom were Republicans, heartily thanking them for this cordial reception. He was roundly cheered by the crowd, and all expressed pleasure that one of our citizens had been selected to make the race for the highest office in the gift of the people of the state.

THE MARKETS.

SAN FRANCISCO, April 21.—Wheat May \$1.14; December \$1.18.

CHICAGO, April 21.—Cash, 59; May 59; June 59.

PORTLAND, April 21.—Wheat valley 83 1/2 @ 85; Walla Walla 75 @ 77 1/2.

PERSONALS.

Hon. Jeff Myers, of Seio, is in the city.

Pres. Chapman returned to Eugene today.

Dr. R. C. Hunter, of Stayton, is in the city.

F. C. Baker went to Portland this morning.

Rev. T. J. Strayer has gone to Hillsboro to preach.

Hon. J. B. Looney, of Jefferson, was in the city today.

Charlie B. Irwin, editor of the Statesman, is in Portland today.

Hon. and Mrs. G. W. Davis went to Turner this morning to spend the Sabbath.

Col. Kelsay, of Corvallis, passed through yesterday to Salem to argue a case in the supreme court.—Albany Herald.

Twenty-seven law students of the University of Oregon will be examined before the supreme court at Salem, May 31st, to be admitted to practice in this state.

Joint Debate.

There will be a joint discussion at the Riekey school house, three miles east of Salem, on Thursday evening, April 28. All are invited. The speakers will be Geo. Allen and others.

DISCHARGED.—Judge Edes after hearing evidence in the case of state vs. Rutherford of Marion for carrying concealed weapons, dismissed the defendant. There were a number of witnesses present and quite a lot of sensational testimony in store, which if it had been admitted and drawn out would have led to other arrests and prosecutions and no end of them. Judge Edes acted wisely and saved the county a big bill of expense in throwing it a whole matter out of court. Wm. Baker appeared for defendant and Bigger and Condit for the state.

DISCHARGED.—The man Golden charged with stealing chickens was today discharged by Judge Edes, for want of evidence to convict.

Johnson lemons 10 cents per dozen at the California fruit stand.

Twelve hundred to 1500 yards of sewing silk, for only 12 cents at The Fair.

THE MINERS' GREAT STRIKE!

Today the Coal-Diggers of America Are Idle.

150,000 MEN REFUSE TO WORK.

The Greatest Strike Ever Known in This Country.

PITTSBURG, April 20.—Today at noon the great coal strike, which has been pending several months, was inaugurated. Opinions differ as to the number of men who will be engaged. The president of the United Mine Workers estimated 200,000 men as being engaged. Secretary and Treasurer Park McBride is quoted as placing it at 100,000. The strike will be confined to the bituminous regions of the United States. In this there are 23 districts organized, 14 being in Pennsylvania. The other districts are in Washington, Wyoming, Colorado, Indian territory, Missouri, Kansas, Alabama, Kentucky, Tennessee, Virginia, West Virginia, Maryland, Indiana and Illinois. A Massillon operator says 3000 mines will be abandoned. Of these 300 are located in Ohio. In the Pittsburgh district there are 175, and 130 in the Clearfield district. These two districts have about 3000 miners. In Ohio there are about 3000, in Indiana 2000, and in Illinois 11,000. Alabama has 11,000 miners, who have already quit work. In Missouri there are 8000, and in Tennessee about 4000. In Western Kansas there are about 10,000 diggers who are engaged, but it is not believed all will quit. In Washington all are ready to stop.

PITTSBURG, Pa., April 21.—The great coal strike as far as this district is concerned, appears to be successful. At noon today six thousand men in the river district and sixty-five hundred in the railroad district had left the mines. Dispatches from Clearfield district report 13,000 men there struck, and the mines generally closed. In the Phillipsburg region, east of the mountains, all of the mines are idle.

This strike promises to be the greatest in the history of the country. It will involve nearly 150,000 men, and will stop work in the mines that produced upward of 100,000,000 tons of coal last year. These mines received \$53,809,627, as wages, in 1890. Should the strike be effective, the effect on the business of the country would be incalculable, as the strike will enforce the suspension of the many trades dependent on the coal industry.

42,000 Strikers Anticipated.

PHILADELPHIA, April 21.—If all the miners in Clearfield district of bituminous coal region strike, there will be 20,000 men out in that territory. Added to these, 5,000 in the Phillipsburg district, 4,000 in the Indiana district, 5,000 in the Jefferson district and 8,000 in Mountain district.

A prominent operator said today: "Strikers are not against reduction of wages, but simply and solely for the purpose of keeping the officers of the miners' national organization in office."

A Better Feeling.

COLUMBUS, Ohio, April 21.—A general good feeling exists between the operators and miners in the coal fields of Ohio. At New Stratsville, where 700 are out, the men are in a good way to stand the siege. A majority are owners of their own homes. It is the opinion of the best miners at Stratsville that as soon as the coal now stored is consumed all districts will pay the scale, and work will be resumed. Public sympathy is with the strikers.

Will Not Strike.

MINONK, Ill., April 21.—Miners went to work today as usual, and it is not thought that they will join the general strike.

4000 Join the Strikers.

JACKSON, Ohio, April 21.—All mines in Jackson county are shut, and 4000 men joined the strikers.

Two Hundred Strikers.

WILLIAMSPORT, Penn., April 21.—Two hundred miners at Redstone mine, Balston, refused to work today.

7,000 Men Strike.

PHILADELPHIA, April 21.—The number of men in this district on a strike is 7,000.

Five Camps Out.

OSKALOOSA, Iowa, April 21.—Miners at Sve Mahaska, camps are out.

Will Not Strike.

TACOMA, WASH., April 21.—A News

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

HOW BEAUTY COMES.

A Sermon Before Young Women in the Congregational Church, Salem, April 15, 1894.

(Concluded)

"But would you have us shut out from doing the highest and best things for our fellow men?" Nay, verily. But here is the very place of difference of view. A few years ago, at one of the anniversaries of the American Board for Foreign Missions, I was entertained for a few days in the same house with another Congregational minister and his wife. They were both very earnest in their advocacy of the women suffrage "reform." The professor, for so he had taught young men in one of our theological seminaries, offered me the use of some of his lectures or sermons or articles, which he had written against women suffrage in former days, before changing his opinion. I said to him: "You probably think now that your wife would be doing a greater, better thing in going to the polls than in presiding at your tea table." "I certainly do," was his reply. And that covered the whole difference between us. Some people would think that it was a greater thing for the world that General Grant should compel General Lee to surrender, than it had been for General Grant's mother to bring into the world and help to rear to manhood the son who stood there to accept that sword. There may be some of you who think it to be doing a greater thing to stand here as I do, to preach this sermon than to sit there as you do, and pray for the sermon's power with human hearts. Just as there are people who think Jesus Christ will be doing a greater deed when He sits to judge the world, than when He sat by the well and taught the woman of Samaria, or hung between the thieves and cried out in His last throes of agony, "It is finished." It is even more the spirit and the life of an action which give it rank and power, it is the tone and purpose of the soul out of which the action springs that give it dignity and worth and might.

"Are there, then no little things, no idle, unworking deeds, words and thoughts?" Yes, but not for the soul of abiding earnestness and growing beauty, whose life is watered from hidden springs of the water of life, and every thought is a blade of grass in the greenward trodden by invisible feet of God's messengers of power and good in the world. There are many threads or points of steel in the electric brush which carries the magic spark from the whirling dynamo, and not one of them is idle or unworking.

WILLAMETTE NOTES.

Dr. W. M. Rollins, former pastor of the First M. E. church, and now connected with the Montana State University, addressed the students yesterday morning in chapel.

Mr. O. P. Bennett, who was in school a part of last year, but was compelled to quit on account of sickness, stopped to pay Willamette a visit, in passing through, on his way to his home in Virginia.

Prof. Cochran now has the new chemical laboratory arranged, so that a class of from twenty up, can do practical work. The room formerly used for chemicals, physics, mineralogy, zoology, etc., is being used for physics and mineralogy.

Several delegates who were in attendance at the Y. W. C. A. convention visited chapel on Monday morning, including Miss Reeder who addressed the students in a few earnest and thoughtful remarks.

Dr. J. D. Driver, of Eugene, is expected about May 1st to deliver a series of three lectures at the chapel in the interest of the theologian department. They will be free and will be another rare opportunity to which Willamette has treated Salem's people this year. Dr. Driver is an able, thoughtful and attractive speaker.

The lecture given last night by Dr. Rollins in the M. E. church in the joint interest of the ladies of that church and the gymnasium of Willamette, was, considering the other attractions, well attended and the audience was served to a rare treat. Mr. Rollins being a scholar of rare ability. It is expected that the house will be crowded on Monday night, when the record of the course and last will be given.

The campus is now being put in order for great things in athletic sports. An army of boys with shovels, spades, axes, grub-hoes, and many other implements of digging and leveling headed by a team with plow, scrape, roller, etc., have been at work today constructing a one-fifth mile track around the football field. The football field will be harrowed and rolled and put in the best condition possible with the means at hand. A cricket club has been organized and are now at work preparing a ground north of the tennis court and some scientific games may be expected to be played there on Friday. Tennis is beginning to take the attention of those interested. High kicks, broad jumps, racing, putting the shot, gymnasium work, etc., now fill the spare time of the more lively class of students. In fact all are busying something to their taste, and are looking forward to a grand time on Monday, June 11.

Hi! Yi! Yi! Wah! Hoo! Wah! Willamette.

But what has a woman's religious life to do with her beauty? Everything to do with it. Your religion is your way of coming near to God. "For He is thy Lord; and worship thou Him." The hours of truest worship are the times of fullest forgetfulness of self, and utmost absorption in another. And here is the test of the truest and most helpful worship, the best religion. It is your effort day by day to have certain exercises of mind and emotion, that so certain traits of character may be developed? It is a defective religion, a false method. Are you seeking daily to have a religion of peace and joy? "Joy" and "peace" are fruits of the spirit, but they are not ripened by artificial heat. "But is no thought of self to come into genuine worship?" Oh, yes, but not thoughts of how much beauty for one is to come out of this act or this method of worship. How can I better serve this Lord whom I am worshipping? How can I bring some other to see his loveliness and enjoy it? Where have I failed in this service of helpfulness to my beloved? These thoughts of self belong in the midst of true worship, and will be fostered by it. But the Lord whom we worship is engaged in the mightiest struggle, known to us, and caring for Him, we care for His plans and lose ourselves in that care, and bring up all our interests to put them into this greatest interest, knowing that it is an eternal law of God's world, "He that loatheth his life, shall
