SHOOTING AND THREATENING.

Three Commonwealers Shot, Four Drowned

SPOKANE THE BATTLE GROUND

Thousands Are Operating on the Northern Pacific Railway.

TWO THOUSAND PULLMAN STRIKERS.

And as Many More May Ask for a Raise.

ROCKLIN, Cal., May 11.—Constable Fleckinger shot and killed Colonel Paisley of the industrial army early this morning. An industrial army under command of Lieut. Gen. Smith, seven hundred strong, seized a freight train at Arcade station and went to Rocklin. Engineer Williams, a member of the party was there placed under arrest by Constable Fleckinger. Gen. Smith and Col. Paisley protested. A quarrel ensued and Fleckinger drew a pistol and pointed it at Smith, who jumped to one side, when the constable shot and killed Paisley. The industrialists became furious and started to lynch Fleckinger. Gen. Smith, however, protected him and aided him to escape.

COMMONWEALERS DROWNED.

Sad Fate of the Industrialists Who Shipped in Boats.

ELLENSBURG, Wd., May 11.—A report has just come from down river that four of the men who started down the river this morning were drowned by upsetting of the boat. Twenty-five wealers started and the boat got in an eddy and capsized. One of the survivors, Wright of Seattle, brought the news here. The accident occurred about two miles below town. Wright drifted two miles before he was able to land. No hope of recovering bodies.

Two Wealers Wounded.

NORTH YAKIMA, May 11.—Another collision occurred this morning between the deputy marshals and the commonwealers, and two of the latter were shot and slightly wounded.

Spokane Their Battle Ground.

SPOKANE, Wd., May 11.—Col. Phillips arrived in Spokane this morning with 65 commonwealers who were arrested at Yakima, part of them for engaging in riot and part for interfering with trains. They were brought here in order to escape from any trouble that might occur at Yakima, and for better protection. The men were immediately started back to Seattle under a guard of deputies, E. J. Jeffreys, commander of the Seattle Coxeyites now in Spokane, secured a writ of habeas corpus from Judge Buck to compel the marshal to return the prisoners to Spokane. The wealers are greatly excited, and have been gathering in groups of from 10 to 50 all the morning, when dispersed by the marshal they disappear and soon assemble at other places.

Jeffreys wired the Coxeyites at Tacoma and Seattle to meet the train on the road, and feared an effort would be made to stop it before reaching the Sound. The industrialists complain that they were kept in a box car thirty-six hours without food or water and some of them are suffering from injuries received in the recent conflict. The officers deny any cruelty, and say they have been properly cared for. As soon as the train reaches a safe place on the return trip they will be transferred to passenger coaches. Spokane is likely to be the chief battle ground from now on.

Sanders' Army Caught.

TOPEKA, Kan., May 11.—Sanders' four hundred Coxeyites, who were captured in Western Kansas last night and were in charge of United States Marshal Nesley, arrived at Topeka this afternoon. They all wore red badges. As the train pulled into Topeka, the industrialists were singing.

No Jail Room.

TOPEKA, Kan., May 11.—Marshal Nesley has sent a telegram to Attorney General Olney that there is not jail capacity here, and recommending that the Coxeyites be taken to Fort Leavenworth.

A Ride by Gravitation.

TACOMA, May 11.—Sixty Coxeyites captured a single gondola coal car at 12:40 yesterday afternoon at Cleelum, on the Northern Pacific main line, fifteen miles east of Cascade tunnel. The industrialists guarded every switch so that the railroad men were powerless to interfere. The coal car was quickly shovled to the main line. The sixty Coxeyites braced their shoulders against the ends and sides and gave the car a tremendous shove. From Cleelum to Ellensburg the track has an easy down grade, the distance being twenty-eight miles. At exactly 12:45 the sixty men jumped aboard the car, then in motion, and started for Ellensburg. The heavy car rolled along at an easy speed, reaching Ellensburg at 7:07 p. m.

In the meantime Superintendent McCabe at Tacoma had ordered all trains near Ellensburg sidetracked, giving the gondola complete right of the way. The car was stopped with brakes at Ellensburg and the Coxeyites joined a hundred or more of their friends there.

Navigating the Yakima.

ELLENSBURG, May 11.—The commonwealers have built a strong boat here yesterday, in which twenty-four embarked at 4 o'clock this morning with a full stock of provisions. The American flag floats at the stern and the name "Pride of Ellensburg" is painted in bold letters on the bow. They intend to go to Pasco in her.

Pullman Palace Car Strikers.

CHICAGO, Ill., May 11.—Two thousand employees of the Pullman Palace Car Co. quit work here today. They asserted entire force of four thousand three hundred would strike before night. The men demand restoration of the 33 per cent cut made last year.

The Northern Pacific Frauds.

NEW YORK, May 11.—In the Northern Pacific investigation today the books of the Oregon Transcontinental were put in evidence. The books showed that when the Chicago & Northern Pacific issued bonds for the purchase of various properties, the Oregon Transcontinental advanced it seven or eight millions. They sold most of the bonds at 90 cents on the dollar and received a commission of 3 per cent. Twenty million dollar bonds of the Chicago & Northern Pacific, sold at 90 per cent but should have brought \$18,000,000; only about \$9,000,000 appeared on the books as received.

CORVALLIS, May 11.—Rev. C. H. Curtis, president, of Portland, and John Willis Baer, secretary of the United C. E., addressed the state Christian Endeavor Union last night, at the Agriculture college, where the convention is being held. Mr. Baer is making a tour of the United States in the interest of the United Christian Endeavor Union, and his address here was very highly appreciated. Mr. Baer will again address the convention today and goes to Sacramento tonight, accompanied by his wife and Mr. Lewis, of Seattle. Thus far only 160 delegates have handed in their credentials.

Overloaded.

You've eaten too much turkey, and so you cannot work, eh? Your head aches very much, eh? There I don't believe I could add another line and make it rhyme if I had a dollar for doing it. A few cents however, will cure me. To relieve stomach and bowels from the effects of overloading, a full dose of Dr. Pierce's Pleasant Purgative Pellets is the best remedy. They operate gently, yet thoroughly, and without griping nausea or other unpleasant effects. In vials convenient to carry.

Public Speaking.

This is one of the heaviest strains that come upon any man or woman. A little cold, a little hoarseness, and the work is done. The best of ability is rendered absolutely useless.

Mark Guy Pearce, the eminent English preacher, writes as follows: "BENFORD PLACE, RUSSELL SQUARE, LONDON, December 10, 1888. I think it only right that I should tell you of how much use I find Allcock's Porous Plasters in my family and among those to whom I have recommended them. I find them a very breastplate against colds and coughs. Brandreth's Pills always give satisfaction."

Bold Robbery at Dufur.

THE DALLES, Or., May 11.—News is received from Dufur that robbers entered the general merchandise store of Johnson Bros. at that place last night. They blew open the safe, secured about fifty dollars and escaped. They piled flour, rice, etc., over the safe to deaden the sound of the explosion, but used too large a charge of powder and the store is badly wrecked, all the windows and doors being broken out. The people were not aroused by the noise.

Confederate Statue Unveiled.

RICHMOND, Va., May 11.—The Confederate soldiers' statue was unveiled on Libbey hill yesterday. The figure is that of a confederate sentry standing erect and looking straight forward, and is of colossal size, fully sixteen feet from base to Chapeau. This statue will stand on a column on Libbey hill overlooking the James river and a large part of the city of Richmond. The total monument is eighty-five feet high, and the column itself is a counterpart on a small scale of the famous pillar at Alexandria, Egypt.

HONOLULU, May 3.—(per steamer Alameda, via San Francisco), May 11.—The election of delegates to the constitutional convention was held yesterday and passed off quietly. Two Portuguese were elected. The cumulative ballot system was used and 7,747 votes were cast. As each voter was allowed six votes, the total vote was 1,291 out of a possible 1,700.

California Prunes Damaged.

SAN FRANCISCO, May 11.—Advice has been received from interior points that the prune crop, which last month gave indications of being a heavy one, will not mature, the prunes on the trees in many places turning yellow and falling. A definite estimate of the damage cannot yet be made, but early in the year the coming crop was expected to yield about 65,000,000 pounds whereas the prospective crop today is about 85,000,000 pounds or a little over half.

ENGINEERS MEET.

Business and Addresses Occupy the Time of Delegates.

ST. PAUL, May 11.—The Brotherhood of Locomotive Engineers formally opened the biennial convention yesterday. In the morning the session was devoted to preliminary routine work, and this afternoon the formal welcome address was delivered in the Metropolitan opera house, the speakers being Governor Nelson, Mayor Wright of St. Paul and Mayor Eustis of Minneapolis. Archbishop Ireland, and others. Grand Chief Arthur responded for the engineers. Archbishop Ireland, in the course of his speech, said:

"The interest and rights of labor often have I pleaded for, and lovingly do I plead for them now. I hate that view of labor which makes of it a mechanical force, purchasable at a mere market value. I demand for the laborer and his family, so far as true, just and rational measures can reach there, the means of a decent livelihood, the opportunities to develop the intellect, to receive a due portion of the joys of human existence, in recompense of the toil which will not fall to press upon them. Let me enter my plea for capital. Property is the very foundation of the social fabric; it is the incentive and reward of industry and energy. He who menaces property is an anarchist, and the anarchist is the deadly foe of order, of right, of society. He is the wild beast, solely bent on destruction. Without capital the millions of willing workmen are idle, and the factory doors remained closed. Without capital, labor is a latent, unproductive energy. Why today is there among us legions of unemployed? Because capital stays away from us. As a matter of fact, capital is timid of life. Make it insecure, it will shun you, leave you to beat the air with your idle arms."

"I am not afraid to mention the word 'strike.' Nor will I say that it never should be counseled. I say this much, however, of strikes. They are in the industrial world what wars are between peoples—to be dreaded for the ruin they caused and never to be urged, except when all other counsels have failed, and where great interests are at stake. They should be like wars between civilized nations—conducted under the directions of justice and humanity. Amid the utmost force of strikes property must be held sacred and the liberty of others allowed, as we demand that our liberty be allowed. These are the imperious laws of social justice and God's religion.
