REPUBLICANS ARE RAMPANT.

Fifteen Hundred People Turn Out to Hear Horr.

THE CAMPAIGN OPENED IN SALEM.

Roswell G. Horr Delights an Enthusiastic Assembly.

Reed's opera house last night was packed from pit to gallery with hundreds of delighted, happy, and enthusiastic people from in and about Salem. The hall would not hold all that came, and standing room was at a premium. When the speaker appeared he was greeted with a grand round of applause and when he began giving his hearers eye-openers on the tariff and money problems, their enthusiasm grew to its highest pitch. Mr. Horr is a plain man and gave his hearers nothing but plain facts, which the plainest person in his audience could understand and appreciate. Mr. Horr is commonly considered a "swift specialist," as it were, and while his speech revolved chiefly about that topic, he treated his audience to some good horse-sense on the financial question. It would be impossible in our limited space to give anything like a just report of his talk. In fact to be fully appreciated it must be heard and once heard the speaker will be remembered a life-time.

DEMOCRATIC ITINERARY.—The Democratic nominees on the county ticket will address the people of Marion county at the following times and places: Detroit, Monday, May 21, 7:30 p. m.; Mill City, Tuesday, May 22, 2 p. m.; Mehama, Tuesday, May 22, 8 p. m.; picnic at Jefferson May 23rd; Marius, Thursday, May 24th, 2 p. m.; Stayton, Thursday, May 24, 8 p. m.; Sublimity, Friday, May 25th, 2 p. m.; Macleay, Friday, May 25th, 8 p. m.; Silverton, Saturday, May 26th, 8 p. m.; Mt. Angel, Monday, May 28th, 1 p. m.; Woodburn, Monday, May 28th, 8 p. m.; Hubbard, Tuesday, May 29th, 8 p. m.; Brooks, Wednesday, May 30th, 2 p. m.; Gervais, Wednesday, May 30th, 8 p. m.; St. Paul, Thursday, May 31st, 8 p. m.; Champeog, Friday, June 1st, 2 p. m.; Butteville, Friday, June 1st, 8 p. m.; "It will injure no one to hear both sides of the questions at issue, and we hope our Republican brethren will attend these meetings in large numbers; ladies especially invited," says Webster Holmes, the chairman of the county central committee.

River News.—The report is that the Elwood has gone south for her last trip this morning. The Modoc arrives up tonight from Portland. The Eugene arrives down this afternoon. She was unable to reach her destination on this trip. The river is at a five foot stage, lower than any time since last fall.

BASE BALL.—Salem vs. Independence at Independence, Sunday, May 20th. The elegant passenger steamer Altona will make two round trips between Salem and Independence. Leaving Salem at 11:30 a. m., and 6 p. m. Leaving Independence at 10:30 a. m., and 5 p. m. Game will be called promptly at 2:30. Round trip ticket 50 cents.

Cottonade pants, overalls, jackets, knee pants, straw hats for men and boys, black sateen, outing flannel, ois stripes, and other kinds of shirts, tennis shoes, high and low cut. All at very close prices, at the New York Racket.

HIGH TAXES.—The Salem woolen mill pays about \$1800 taxes this year. How can manufacturers be established on such outrageously high taxes as that?

"I don't like the breath of that stove!" exclaimed little Ethel one day when the gas was escaping from the sitting-room stove. Coal gas is like the "perfumes of India," compared with the breath of a person afflicted with catarrh, but among many other symptoms the sense of smell is often diminished, so the sufferer is unconscious of the offensiveness of his presence. Why anyone will endure such a painful, dangerous and offensive disease, when Dr. Sage's Catarrh Remedy—costing only 50 cents—will cure the most stubborn case, is one of the many mysteries. The proprietors are so confident of the success of this Catarrh Remedy that they offer to forfeit \$500 for any case of catarrh they cannot cure. It would be suicide for them to remedy for them to make this offer, unless they understood its exact powers.

The best stock of Oxford ties in the city, from \$1.00 to \$2.50. Good money saved on every pair. Osburn's Racket store.

To get relief from indigestion, biliousness, constipation or torpid liver without disturbing the stomach or purging the bowels, take a few doses of Carter's Little Liver Pills, they will please you.

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

They make one feel as though life was worth living. Take one of Carter's Little Liver Pills after eating; it will relieve dizziness, and give tone and vigor to the system.

PERSONALS.

Thos. Kay went to Albany today on business.

The Midwinter fair will positively close June 30th.

Hon. R. G. Horr, escorted by State Committeeman D. H. Looney, took the forenoon train for Eugene today.

Col. J. Olmstead returned today from Oakland and Roseburg, where he has spent several days fishing for trout and business.

Hon. T. L. Davidson, the Democratic candidate for state treasurer, returned today from Ashland, and reports plenty of Populists down that way, as well as some Democrats.

Dr. A. H. Diven of Newport is in the city for a few days on his way to Portland. He is the father of Fred, Ed. and Chas. Diven, who conduct a general merchandise business at Waldport.

D. N. Solomon and his brother G. W. Solomon, not related to Old Ecclesiastes, but from Palmyra, Ill., are visiting their sister and husband, Mr. and Mrs. Johnston near Independence. The gentlemen inspected the capital of Oregon yesterday.

From Clear Lake.

This neighborhood seven miles north of Salem postoffice is now reached by a good road, thanks to the efforts of road supervisors Harriid and Tom Bruce.

There have been two political meetings here at our school house this spring, one by the Populists attended by two Republicans, and one by E. Hofer of Salem, Thursday evening, who had a full house.

The rich lands of this river bottom are being opened up into hop yards and fruit gardens. Chas. Pugh has hewed one of these out of the solid timber by hard work. The soil is very rich but it takes work to subdue it.

It is just possible that your single vote might turn the affairs of the nation. Your vote may elect a representative whose vote will elect a United States senator, and upon his vote might hinge the prosperity of the nation. These are mighty toilsome times, and Republicans should by all means stand by their legislative ticket.—Roseburg Plaindealer.

FREE COINAGE AND BIMETALISM.

We must have either international bimetalism, or American bimetalism. We do not want Mexican bimetalism, international bimetalism could be secured by an agreement of the great nations to use silver as money on par with gold to be maintained at an agreed ratio, or to use it as money on its own intrinsic value. American bimetalism as we understand it is the largest use of silver possible upon a parity with gold. Mexican bimetalism is not genuine bimetalism at all. It is the forced circulation of depreciated silver. The legal right to take either gold or silver to the mint and have it freely coined at a fixed ratio exists and has often existed, where genuine bimetalism did not exist.

You can take gold and silver to the mints of Mexico today and have them freely coined at a fixed ratio, but no one will claim that real bimetalism exists in Mexico, or that he favors such "bimetalism" as exists in Mexico.

The governor of Oregon could freely take both the precious metals to the mint in Mexico and have them there stamped, say as \$100 of gold and \$100 of silver. But the moment he had received the coins he would not exchange the \$100 of coined gold for \$100 of coined silver, and he could not exchange the \$100 of coined silver for \$100 of coined gold. No one would give him \$100 of coined gold in exchange for \$100 of coined silver. As a matter of fact he would part with 100 silver dollars for not far from 50 gold dollars, and anybody would give no more than about 50 gold dollars for 100 of his silver dollars. In other words, his gold and silver metal would be worth, after it had been run through the mint and stamped by the Mexican government, just about what it was worth before.

Yet the gold and silver coins would be equally legal-tender, and there is in Mexico "the legal right to take either precious metal to the mint and have it freely coined at a fixed ratio." Does anybody want that kind of bimetalism in this country? And is this really bimetalism?

Free coinage of silver if it is maintained at a parity with all other money is all right. But not without. The Mexicans have free coinage but the money passes only at its bullion value in gold. In 1884 silver averaged \$1.11 per ounce. Then Cleveland went in and it dropped to 93 cts. per ounce. In 1889 Harrison went in and silver rose to \$1.06. For the years 1889 to 1892 inclusive silver averaged 97 cts. per ounce. Then Cleveland went in again and silver dropped to 77 cents in 1893, and 59 cents per ounce at present, the lowest price in history. The Republican party under Harrison extended the use of silver money from \$2,000,000 a month to \$4,500,000 a month, and has always advocated the largest use of silver possible and all money of equal value. It passed the Sherman law requiring the secretary

of the treasury to maintain the two metals at a parity and all our money today is of equal value, of full debt paying value. Silver is as good as gold today. All our gold, silver and paper is of equal debt-paying value. The writer has in the past two years paid nearly a thousand dollars on a note payable in gold coin and nearly every dollar was paid in silver. Those who say silver is demotized or that any of our present money will not pay debts simply lie. We need more money in our country, but we do not want any depreciated money. Our country should do as England does in one respect. Government employes, army and navy, laborers and pensioners should be paid off every week in silver, instead of every three months in bank drafts. That would put silver in circulation instead of keeping \$400,000,000 piled up in the vaults at Washington. The proposition to stamp 40 cents worth of silver bullion as one dollar without by law maintaining it at a parity with all other money of our country, is the free coinage idea, and would place our country on a silver basis. It would drive all gold out of circulation as well as all good money. It would Mexicanize our finance. It would cause a contraction of currency such as our country has never seen. Financial reform must come in other ways than by disturbance of values. The gold basis is bad enough but it is infinitely preferable to any uncertainty. We need to use both gold, silver and paper. We need more of it in circulation. But how shall any of it circulate unless there is demand for labor and demand for products. Money is only the medium of exchanges. When no exchanges take place no money changes hands. If there was twice the money in the country, but factories closed and laborers idle, who could get any of that money? Does anyone doubt if there was demand for wheat, wool or labor that there would not be money to buy it?

Literary Notes.

Romance for May is a "realistic" collection of short stories. They are dramatic and entertaining fiction in a high degree without paandering to any depraved taste for cheap literature. Romance Pub. Co., New York.

Harpers for May has the first part of William Dean Howells' personal recollections of his first visit to New England. The editor's study contains a thoughtful criticism of our school system. Charles Dudley Warner has grasped some of the central defects of our public education. George du Maurier's great art novel—on the borderland of French realism but wonderfully human and cosmopolitan—is continued. Harpers remains the great leader of periodicals.

The Forum under Walter H. Page is steadily striding forward to great national success. Prominent articles in the May number are the political reviews—seven able numbers besides two striking religious contributions on taxing church property and the question of a declining religious faith. No cultured person or well-informed citizen can afford reading the Forum at its present price, \$3.00 a year.

The Kindergarten Magazine of Chicago for May is devoted to Pestalozzi and Pestalozzian literature. At \$1.50 a year no live teacher can well afford to not be in touch with the new education. The teachers who are not keeping up with the new thought on the subject of education will find the world slipping so rapidly away from them as to entirely lose their foothold in a few years. Address, Woman's Temple, Chicago.

"Our Dumb Animals" for May contains able and pathetic appeals for relief to the unemployed for the humane standpoint. Geo. T. Angell, the editor, will say: Stop building million dollar warships, \$50,000 cannon and \$500,000 torpedo guns, and build some canals or other public improvements that shall employ common labor. Boston, Mass., 50 cts. a year.

"The Blue and the Gray" for May is a beautiful Memorial day number. It contains nearly a hundred large quarto pages and is finely illustrated. It is a truly patriotic American magazine devoted to the noble cause of welding north and south more solidly together in sentiment, hopes and aspirations, through the literature of the 're' rebellion. Address Patriotic American Co., Philadelphia, Pa. It is non-political, non-sectarian, and purely literary and historical.

"Die Frau"—the initial number of Helen Lange's strange venture, a monthly German magazine representing the cause of women in the broadest sense, is before us. Its contents are noble and inspiring from cover to cover. There is not a line or a drawing portraying woman from the standpoint of physical charms, which may be set down as the expiring tribute of the sensualism and materialism which has been a curse upon her sex. There is a refined engraving of the Kaiser in Friedrich, a portrait of Marie von Ebner-Eschenback. The movements in which women are vitally concerned are fully set forth and literary quality in high degree is not lacking. Address W. Mosser, Hofbuchhandlung, Berlin, Germany.

The ceremony was private, except that the family were present. The groom is the well known surveyor of this county, where he has lived all his life. Mr. and Mrs. Gobalet took possession of a home in South Salem, where they will live, near the old school house.

DIED.

BREY.—At the residence on the southwest corner of Cottage and Union streets, Salem, at 2:15 p. m., Thursday, May 17, 1894, Moritz Brey, aged 79 years.

On May 7th, deceased was stricken with paralysis of the right side the effects being first noticed early in the morning and in this condition he lingered until yesterday when death came to relieve him of his sufferings.

Mr. Brey was born in Germany on April 14, 1815, and came across the Atlantic to the United States in 1834. In 1841 he and Sophia Veith were united in wedlock in the city of Peoria, Illinois. They concluded to come west in 1851 and arrived in Astoria that year. The next year they came to Salem and to look up their residence on the property mentioned above where they have resided ever since—over forty years.

Mr. Brey was a member of the German Lutheran church but was not connected with any religious denomination in this city. He was a member of the Masonic order having joined it in 1845 and he was also the oldest member of Salem lodge No. 4, A. F. & A. M. He was the father of ten children, those living being Mrs. Dr. Chance of Portland, Mrs. James Warner, of Salem, Wm. M. Brey, of San Francisco, George of Independence, and Ernestine and Clara of Salem.

The funeral services will be conducted at the residence at 2:30 p. m. Saturday, under the auspices of the Masonic order and interment will be in Rural cemetery.
