WE PRINT THE NEWS.

The swellheads and bigheads who run the Salem Statesman have one way out of an argument. That is to call anyone they cannot answer otherwise a fool, liar or anarchist. That is a conclusive intellectual performance in the minds of the red-headed outfit. THE JOURNAL said that "the other daily papers in the state AT LARGE (except the Oregonian and Telegram), have ceased to take any telegraphic news." Now that is true. The "state at large" means all the rest of the state except the particular locality where the one who writes or speaks happens to be. The Statesman assumes some one said it took no telegraphic report and it secures statements from Manager Powell, of the Associated Press, and Manager Dumas, of the Western Union Telegraph Co., who each say in their official capacity that it, the Statesman, does take dispatches. Of course, this relieves our esteemed contemporary of a dilemma, as no one would know from its columns whether it received any telegraphic news or not except a second-class service copied from THE JOURNAL and the Evening Telegram, which is nothing but stale news that afterwards appears in the Oregonian. Of course, no one would believe its own assertion that it received any original telegraphic matter, its own news columns to the contrary. No one will believe anything the Statesman says about itself, any more than they will about other matters. THE JOURNAL let out a little truth about its bringing no important news but what appears in THE JOURNAL of the day before and its only answer is its customary one when it is stepped upon—you are a liar, a fool, an anarchist, etc.

HOW TO GET CAPITAL.

All the other woes of Oregon sink into utter insignificance, when compared with the laws that keep capital out of the state. It is to be hoped that Oregon lawmakers will get into the drift and accord outside capital the protection necessary to induce it to develop our latent resources.—Junction City Times.

As the editor of the Times is a member of the next legislature from Lane county, we would be pleased to hear his views upon the subject of protection to outside capital. It seems to us it is now quite well protected against taxation by the present assessment laws, which exempt the loans of non-residents from taxation, while attempting the difficult task of taxing loans, credits and mortgage notes of resident owners of such property.

Mr. Moorhead's views would be of great interest this early in the campaign and would give ample opportunity for discussion before the legislature meets. If anything further can be done to induce outside capital to come to Oregon, it should be done.

If Oregon extends fair treatment on an equality with other states to all capital to encourage its investment in our undeveloped resources, it seems to us we have done our part. It should be remembered that any man, whether from the outside or the inside, who invests \$500 or \$6000 in an Oregon farm or business, and comes here to live and make his home, is far more desirable than any combination or syndicate of a capitalistic character that talks about larger sums, but in reality does not become identified as closely with our commonwealth, and is only capital on the wing for purposes of speculation.

If possible, we should encourage the former class more than the latter. The latter class will come anyhow. They cannot be kept out if we have plenty of the former.

A LONG TIME.—It takes some people a long time to find out a good thing, but when they do find out how much better the Salem steam laundry can launder their clothes than they can themselves, they patronize it all-together.

Nebraska sorghum sold by grocers, Farrell & Co., Omaha, Neb.

IN THE HOP WORLD.

Condition of Crop and Prospects of Picking in Two States.
IN CALIFORNIA.

The following from a Westland paper indicates the condition and outlook in California:
Picking will not begin in earnest until the second week in August when in all probability hands will be plentiful. Jasper & Son begin picking next Monday with a small but full set of hands. Current average prices for picking will be \$1.00 per cwt. From \$1 to \$2.50 per day can be earned. Hop pickers coming in; all shades and colors; on foot, horseback and in wagons. Looks as if we would be over run with people in search of employment.

IN OREGON.

J. M. S. Powell, the well known hop man of Buena Vista, was in Corvallis Thursday. He has worked his twenty acre yard over fourteen times this season, and on account of so much rain has a few weeds yet. The crop is excellent and is estimated to yield 30,000 pounds. He has sprayed and his hops are free from lice. Dix Myers, who has a fourteen acre yard near Mr. Powell's, has contracted his hops, which are lousy, at 9 cents. The latest reports from England to William Wells, of Buena Vista, say that mold and honey dew have appeared on the English hops and spraying fails, on account of the latter to remove lice. Mr. Wells figures on 15 cents per pound for this season's crop.

The hop growers of Yamhill county met in convention at North Yamhill July 21, and decided to pay pickers 80 cents per cental, and fixed the wages of pole-pickers at \$1.00 a day and board.

A number of growers report that they have engaged their quota of pickers at 75 cents per box with the understanding that if hops brought reasonable prices at picking—say 12 or 13 cents—they would pay the regular price of \$1.

It is the belief of the citizen that those who either sacrifice or fail to pick their hops will realize that they have missed something. The hop market is fast finding out and the bears never make their attacks twice in the same manner. The manipulation of hops has been reduced to a finer science than their culture.

AT AUBURN.

Lice do not appear to be increased in this vicinity or in the upper Green River districts.

The weather continues fine for the growing crop, and vines, as a whole are making a good growth.

AROUND PUYALLUP.

Cases of where the yards have not been well attended to and where the lice have entered the burs are reported.

In such instances no crop can be hoped for but in yards that have been carefully, constantly and intelligently sprayed, there is reason to hope for a fair to a large crop of good hops.

A number of growers assert that if picking time the market does not advance materially they will leave their hops on the vines.

Geo. W. Vanderbeck, of Boise Creek, who owns a 25-acre yard was in town Tuesday, and asserted that he would not pick a hop this season.

The Chehalis Hop Growers Association meeting occurred at the same time of the convening of the Puyallup meeting and conference during the progress of the meeting was had over the telephone so as to make the agreements and resolutions of the two meetings conform to each other.

AT KENT, WN.

A report has become current among our exchanges that the crop will be light in the vicinity of Kent, this year. This is a mistake, for the present prospect is excellent for a heavy crop.

AT YAKIMA.

The meeting, Saturday, was well attended, although no particular business was accomplished. It was decided to send runners out to the various agencies, Tuesday, to make preparations for the early moving of the Slawish picking force. The association voted to extend its efforts toward providing pickers for members of that body only. The key to the situation seems to be held by the organization, and they profess a desire to control it on account of the apathy or opposition of several large growers to the movement. Several new names were added to the roll.

A Sad Awakening!

"When in the dark, on thy soft hand I hug,
And heard the tempting siren of thy tongue—
What flames—What darts—what anguish I endured,
But when the candle entered—I was cured!"

Such complexions as so many of our young ladies possess—dull, plumpy, and covered with sores and blackheads, is enough to cool the ardor of the warmest lover. To such young ladies we would say, that you can never have a soft, fair, smooth, attractive, kissable complexion, unless your blood is healthy and pure, for the condition of the blood decides the complexion. Dr. Pierce's Golden Medical Discovery will purify your blood, tone up your system, and drive away those distressing head aches and backaches, from which you suffer periodically, and give you a complexion a lily or a rose-leaf might envy.

Ask your grocer for Farrell & Co. syrups, they are pure and palatable. Refuse all others.

HE LIVED HIGH.

Deputy County Auditor Hineckley, of Moscow, Idaho, Arrested.

Sheriff Naylor, of Latah county, was in Pendleton yesterday, having in custody George N. Hineckley, deputy auditor of Latah county, who was arrested at Boise last night. A hasty examination of the records show that he has raised county warrants aggregating several thousand dollars, which he has appropriated. Sunday morning he left for Boise with the state delegation to the Republican convention. Hineckley was a high liver. He kept fast horses and fast women, and had one of the finest residences in town. His mode of life was well known and people marveled at his ability to live as he did on a salary of \$100 a month. His crookedness, which extended over two years, was just discovered Monday. An investigation shows that he has raised warrants to the amount of \$15,750. The work of the expert who is at work on the books is still incomplete. Some fear Hineckley's stealings will reach \$20,000 or \$25,000. His wife and children are with him. He is related to Governor McConnell.—Pendleton Tribune.

Sell or Lease.

IRVING, Or., Aug. 11, 1894.
ED. JOURNAL.—I see in your paper a petition asking, shall the government take the Pacific railroad? I am not in favor of taking the roads and have them run by the government. But I do say by all means foreclose and get the money out of the roads, either by selling or leasing. I have my just and honest debts to pay or be cleared out and no railroad corporation should be shown leniency more than private individuals. I would like to hear from all the readers of THE JOURNAL.

DEMOCRATIC READER.

PERSONAL AND SOCIAL.

Local Correspondence from Towns in the Valley.

FROM JEFFERSON.

Dr. W. C. Hawks and family are at Fish lake.

Quite a number of threshers started up this week.

Quite a number went to Albany Tuesday to attend the circus.

J. C. Seigmond returned this week from California where he has been for the benefit of his health.

Miss Ada Thomas, of Turner, was visiting friends and relatives in this vicinity this week.

The concert given by the Quail quartette was one of the grandest treats that was ever given in the city of Jefferson.

"Yankee Doodle."

The tune of "Yankee Doodle" has had seven or eight treatises written upon it in the last 30 years, ascribing it to various dates and origins, even back to The Netherlands and the days of Cromwell and the Charleses. Dr. George Grove of London, author of the "Dictionary of Music and Musicians," has investigated thoroughly the various musical libraries and the British museum in England, finding no traces of it whatever, thus exploding all the mystical, traditional and apocryphal accounts thereof.

But "Yankee Doodle" had an origin and has a history. It was written by Dr. Richard Schuchburg, whose commission dates 1787, in the French and Indian war of 1755 under General Jeffrey Amherst and was intended as a "take off" on the "rag, tag and bobtail" recruits of the colonies that came into the army. It "took" so well, however, that the Americans have ever adopted it and would not part with it for anything.

Economy in Foot Wear.

The neatest and most economical possible foot wear is a low cut shoe of a special pattern, to be worn with gaiters to match each dress. This style of foot clothing has many advantages. The low shoe is easily aired, and the inner sole will retain the odors of the feet with the neatest of persons if not properly aired, especially when one walks much. The gaiter breaks the apparent size of a large foot and forms a very attractive finish when matched to costumes.

Skirts rubbing against the front of high kid boots will wear them, while the lower part remains in perfect condition. Gaiters, upon the other hand, can be changed as soon as defaced and worn with the same boot. Many pretty gaiters are possible for different occasions and styles of dress.—Jennens Miller Monthly.

A Grand Feature.

Of Hood's Sarsaparilla is that while it purifies the blood and sends it coursing through the veins full of richness and health, it also imparts new life and vigor to every function of the body. Hence the expression so often heard: "Hood's Sarsaparilla made a new person of me." It overcomes that tired feeling so common now.

Hood's Pills are purely vegetable, perfectly harmless, always reliable and beneficial.

Our Grandmother's Way.

Was to steep root and herbs and use it every night. We can do the same by using Park's Tea. Nothing acts so promptly and without discomfort. Not a pill nor a cathartic but moves the bowels every day.

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have to much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

HEART DISEASE.

Fluttering, No Appetite, Could not Sleep, Wind on Stomach.

"For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I could not sweep a room without resting. My husband induced me to try

Dr. Miles' Heart Cure

and am happy to say it has cured me. I now have a splendid appetite and sleep well. Its effect was truly marvelous."
MRS. HARRY E. STARR, Postville, Pa.
Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at 25c a bottle for 6c, or it will be sent, prepaid on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

SHALL THE GOVERNMENT TAKE THE PACIFIC RAILROADS?

On July 21st the House Committee on Pacific Railroads reported favorably a bill for extending for 50 years the final payment of the debts due the government from subsidized overland railroad companies.

Every citizen of the states and territories of the Pacific Coast who is opposed to compromise with these corporate debtors, and who favor the taking of the roads instead by the government, in order that may be operated in public interest, is invited to sign once the subjoined petition, which will be forwarded to Congress by THE JOURNAL. If you can spare a few moments in this cause cut this petition out, paste it on a sheet of paper, and get as many signers as possible. If not, send in your name alone.

To the Senate and House of Representatives of the United States:
The undersigned citizens of the United States residing in the states and territories most vitally interested in the management of the subsidized transcontinental railways, respectfully represent:

That the bonds issued by the government in aid of the construction of the Central Pacific, Union Pacific, Western Pacific, Kansas Pacific, Central Branch and Sioux City and Pacific railroads will begin to mature on January 19, 1895, and will fall due within the following four years.

That the principal of these bonds amounts to \$64,623,512, and the interest paid by the government up to May 31, 1894, and not repaid by the companies to \$72,302,227.19.

That the companies are under obligations to repay the sums so advanced as the bonds may mature; that these obligations are secured by second mortgages on the roads, but there is no probability that any attempt will be made to meet them.

That the roads have been so managed as to diminish the value of the government securities and furnish plausible reasons for making such a compromise as would leave the debts of the company to be paid by future generations of stockholders.

That in the words of the report of Governor Pattison of the Pacific Railway Investigating Commission, "a mere creditor might consent to a compromise which, in a sovereign dealing with a dishonest debtor who had violated all laws and covenants, would be repugnant to public policy. It cannot afford to condemn fraud, to validate the iniquitous work of the Credit Mobilier, the Contract and Finance Company, and similar organizations, or to ignore the unlawful and outrageous discrimination and extortionate charges and criminal conspiracies for controlling trade which have characterized the administration of these railroads since the date of their completion."

That to the people of the Pacific Coast it is a matter of imperative necessity to have an independent means of communication with their eastern markets; that the allied transcontinental railroads at present constitute a high barrier to trade; that any new road built by private capital would at once join the old combination, and that the only trustworthy regulator of rates would be a line owned by the public and operated in the public interest.

That the necessity of such a line, obvious enough before, has just been startlingly impressed upon all by the absolute isolation of California and the other commonwealths served by subsidized roads, and the complete paralysis of business, caused by a quarrel between the roads and their employees in which the people had no interest; a disaster whose recurrence would be impossible in the presence of an open government line, free from strikers or labor difficulties of any kind, as all branches of the public service are.

In view of these facts we earnestly beg that no extension of time, on any terms whatever, be granted for the payment of the Pacific railroad debts, but that immediately on default in meeting the matured bonds the mortgages be foreclosed, and the roads bid in by the government and operated as national enterprises.

And your petitioners will ever pray, etc.:
