The Vanderbilt Scandal. NEW YORK, Aug. 29.—In connection with the rumored divorce proceedings of Mrs. W. K. Vanderbilt, the Commercial Advertiser says this afternoon, that immediately after the running of the Grand Prix De Paris, June 17th, Mr. Vanderbilt was introduced to Nellie Neustretter, a woman well known in Paris for her beauty, and that he was so fascinated, that he openly presented her with the 40,000 francs he had won on the race.

He fitted up a magnificent establishment for her in Paris, and subsequently gave her a residence at Deauville, with servants who wore the same livery as that worn by Mrs. Vanderbilt's servants. It is alleged that some time ago Vanderbilt agreed to settle upon his wife \$10,000,000.

THE GREAT WAR NEWS

Fighting in China by Land and Sea.

THE CHINESE CLAIMING VICTORIES.

With Heavy Reinforcements They Rout the Japs.

A GREAT BATTLE WON.

SHANGHAI, Aug. 29.—The native associated press of China has received confirmation of the reported battle between Chinese and Japanese troops fought August 18th.

According to these reports 5000 Chinese troops attacked the Japanese forces detailed to guard the Ping Nang passes in North-west Corea, and eventually succeeded in driving the Japanese from their positions.

COREANS HELP CHINA. A large number of Koreans fled to the Chinese standard, begging for arms and asking permission to join an advance guard of the Chinese forces moving against the Japanese.

REINFORCEMENTS. August 14, according to reports, the Chinese were reinforced by 4000 troops from Yi Chow, and the day following they attacked the Japanese lines at Chung Ho and the Japanese retreated.

August 16th the Chinese army was further reinforced by 13,000 fresh troops and August 17th they attacked the Japanese, who are said to have lost 4000 men and heavy baggage.

FIGHT FROM SEA. The Chinese army in Corea August 18, advanced to Huang Chow, passing too near the Tatung river, 13 Japanese war ships opened fire upon them inflicting a loss of several hundred men. At ebb tide the same day three Japanese war ships found themselves grounded and were all towards severely damaged by fire of the Chinese artillery from ambush.

The bulk of the Japanese forces retreated southward, pursued by the Chinese cavalry until night stopped the latter's advance.

A SHARP DETOUR. General Yeh, the Chinese commander, made a detour and attacked the Japanese in the rear, completely routing them and capturing Huang Chow. The general news report received here does not confirm the reports of the native press.

CASE OF THE TATSUTA. A DEN, Aug. 29.—The Japanese torpedo boat Tatsuta, detained here by order of the British foreign office while on her way to Yokohama, was stopped under the foreign enlistment act, owing to the fact that her captain and crew were British subjects.

Moreover, the crew, in view of the neutrality laws and the outbreak of war between China and Japan, refused to do duty, and the Tatsuta was unable to proceed in any case.

HELPED BY COREANS. LONDON, Aug. 29.—A dispatch to the Times, from Shanghai, dated August 29th, says: It is reported that the Chinese forces, joined by 5000 Koreans, have beaten back the Japanese army, with heavy loss, to Kaiseng, forty miles north of Seoul. The Chinese are still advancing. They are helped everywhere by the Koreans.

A GERMAN'S OPINION. LONDON, Aug. 29.—A dispatch to the Times from Berlin says: The National Zeitung publishes advance sheets of an article to appear in the September Bundschau, by Herr Brandt, formerly German minister to Peking. The writer accuses Japan of absolutely wanton aggression toward Corea. The Japanese in Corea, he says, have conscientiously sought to make capital out of the period.

The log rolled lengthwise across his breast and killed him instantly. Ellis Young and Bert Harper were present and say that it happened so quickly no one saw the accident. He leaves a family of eight children who are destitute.

Colonial Wool Coming.

LONDON, Aug. 29.—Since the passage of the tariff bill by the American congress London's business in colonial grown wool with the United States has been very much more active. It is estimated that 1500 bales of colonial wool has been purchased at private sale for United States market since the last auction sale of wool, and the volume would have been vastly greater but for the fact that wool importers are unwilling to do business except at the public auctions, owing to the difficulty of getting what supplies they want in London, a fair quantity being drawn to the continent. There is more activity in the Liverpool docks, and shipowners are expecting the passage of the tariff bill will greatly revive trade. The Chemical works of Run-corn & Widner, which were recently reduced to short time, are expected to be run on full and even overtime.

Comment From Toronto. TORONTO, Ont., Aug. 29.—Commenting on the new tariff law, the Empire, a government organ, says: "The intimation in the president's letter, that 'the war is not over,' would be ominous of another long tariff struggle in the near future, if we did not reflect that Mr. Cleveland himself will disappear from the stage in about two years without leaving anyone behind him to continue his campaign. The chances of any lower tariff in the States for a long time to come are exceedingly slim. Tariff reformers have had their day."

The Tacoma Fair. TACOMA, Aug. 29.—Shortly after noon today Senator Watson C. Squire touched the electric button in the building of manufactures and liberal arts that set in motion all the machinery of the fair. In a brief speech Senator Squire declared the Interstate fair open to the world. There was no other exercises on the grounds. The great event of the day aside from the pressing of the button, was the street parade, which was a mile long and notable for many unique features. Thousands from all parts of the Northwest, were present.

Examination Completed. CHICAGO, Aug. 29.—The strike commissioners completed the examination of witnesses today. Tomorrow an opportunity will be given for the introduction of rebuttal evidence, but it is probable no more testimony will be heard.

A Quiet Place For a Nest. Four years ago a pair of robins built their home on the top of the farm bell of W. H. Wesmer in Douglas township, and notwithstanding that the bell was in daily use, they remained and raised their family. During the ringing of the bell the female would remain on the nest, swinging to and fro apparently as unconcerned as though she were hatching in some secluded spot. Whether it was the swinging that pleased the robins or whether it was the instinct implanted in the breast of every migratory bird to return each year to the same nesting place must remain a mystery, but it is a fact that every year since the supposed nest robins have returned and built their nest on the same old bell.—Greensburg Times.

A dentist at Buntingham, England, was mulcted in \$250 damages for the extraction of the whole of the teeth of a married woman. She only asked him to extract one tooth. Previous to the operation, she testified, she could eat a crust or pick a bone with any ease.
