COOL AS A CUCUMBER.

No matter how hot the weather is the cucumber is always one degree cooler than the surrounding air. No matter what is offered elsewhere, the buyer at G. W. Johnson & Son's always finds that he has done a little better, either in price or quality, than he could at any other store. Come and examine our goods.

BILL ANDERSON'S SALOON.

Notwithstanding the fact that no license has been granted W. R. Anderson by the city authorities, his place of business is open today. A Good Appetite

Always accompanies good health, and an absence of appetite is an indication of something wrong. The universal testimony given by those who have used Hood's Sarsaparilla, as to its merits in restoring the appetite, and as a purifier of the blood, constitutes the strongest recommendation that can be urged for any medicine.

Hood's pills cure all liver ills, biliousness, jaundice, indigestion, sick headache, etc.

THE BIG STEEL BRIDGE.

Mayor Gatch Thinks It Belongs to Salem.

The bicycle ordinance was laid over on account of Alderman Smith's illness.

In regard to wages of men on the streets, it was decided to maintain the same at 30 cents per hour.

Saloon licenses were, upon motion, granted to Messrs. Haack & Necker, Paul Oberheim, J. Fountain, Butte & Wenderoth, and to Eugene Eckert.

W. H. Anderson was requested to appear at the next session of the council to give reasons why he should not be refused a license.

City Engineer Culver reported that the state authorities would run the Court street sewer across Mill Creek if the city would bear half the expense, about \$175. Ordered.

City Attorney Bigger's opinion that Ex-City Attorney Condit should be allowed his claim for services in the circuit court was agreed to and same ordered paid.

Alderman Duncan suggested some changes in the fire department that would save the city some \$300 per year.

The following message from Mayor Gatch was then read and referred:

The Aldermen of the City of Salem: In a conversation with Judge Hubbard, he informed me that the petition of our citizens regarding the bridge across the Willamette had been referred to the city council. In the course of our talk he said that he thought the city should do repairing of the bridge and if we would render a bill to the county for one-third of the expenses he would advocate the payment of that amount by the county.

Now, as a citizen of Salem, I think this unfair treatment of the city. We pay our proportion of the county taxes, but the county court would tax us twice for the keeping up of the bridge. There is expended on bridges and roads in Marion county over \$17,000 per annum, one-third of which is paid by the city of Salem, and not a dollar of it expended within our limits. A bridge built by order of our county court in the extreme confines of the county costs Salem one-third of its price.

The bridge across the Willamette however, must have early attention, and aggrieved as we may feel over the matter we should see that it is protected and repaired. As it stands now, it is subject to the council and the whims of two county courts. If possible let the city assume control of it; we will be obliged to sooner or later, for there seems to be no prospect of its receiving just treatment otherwise.

In doing this I am fully aware of the expense the city will assume. We have issued \$50,000 of bridge bonds with an annual interest thereon of \$2,500 in addition to this the repairs will be of no little amount, so would it not be wise to raise this cost by a toll upon the users of the bridge? I think so, and that if we take the bridge it should be done and this vexed question of its safety and repairs settled.

How easily this trouble could have been avoided by a little foresight when the first bridge was built. A definite plan should have been entered into by the two counties and the city for its maintenance and this will give answerable parentage. An attorney friend cites me to the following: Sec. 4142, title V, chapter LXXXVI, Hill's code. "Whenever it shall be deemed necessary by the county court of any county in this state to erect or repair a bridge over a stream which is a boundary line between two counties, the county courts of said adjoining counties are hereby authorized to unite for the purpose of erecting or repairing such bridge; and when any person or persons interested shall apply in writing to the county court of either of the counties interested, the court shall proceed to appoint three viewers who shall, after being sworn to well and faithfully perform their duty as such viewers, proceed to view the bridge proposed to be repaired, or the site designated for
