THE DAY'S OREGON NEWS.

Gathered by Telegraph and From Exchanges.

There are 100,000 acres of tillable land for rent on the Umatilla reservation. W. C. Winston, of Roseburg, expects to have about 30,000 pounds of dried prunes this year.

The Oregon grand lodge of the Knights of Pythias will be held in the city of Portland, October 9th, 10th and 11th.

The run of salmon at The Dalles is reported very heavy. Twenty five tons a day are handled but 100 tons could be caught.

A. L. Walling, of Oswego, exhibited the largest pear at the interstate fair at Tacoma, which lacked but an ounce of weighing five pounds.

The Newberg fair is reported to have been more successful in proportion than the state fair. The exhibits were of a superior character and the amusement program was very entertaining.

Loney, the Chinese cook at the St. Charles hotel in Albany, was arrested one day this week for galloping a horse across the Willamette bridge at that place and upon being convicted was fined \$10 and costs. Horses are driven over the bridge at Salem every day, more rapidly than the court allows.

Last Wednesday a Utah syndicate made a large purchase of placer ground in Baker county paying therefor the net sum of \$15,000. Within the boundaries of Baker and Grant counties are large deposits of the precious metal in quantities that justify the expenditure of large capital to extract the gold. Men of means are taking hold with unusual vigor and confidence.

Commended officially by U. S. Government Chemists for highest leavening power, purity and wholesomeness is Dr. Price's Baking Powder.

The following is from the Albany Democrat with regard to bonding the city in order to cancel its floating indebtedness: On Monday, October 8th, our citizens will vote on the matter of bonding the city for \$20,000 to pay off the floating debt of about that amount. The sentiment is almost universally in favor of the move, for while the debt remains the same, and is not increased, the interest will be decreased and there will be an actual saving of \$400 to \$600 a year. There should be an affirmative vote also on the other questions, the first of which is necessary in order to effect a good sale of the bonds.

The hop growers in the vicinity of Brownville adopted a novel plan of harvesting their crop this year. Not being able to pick their hops on account of the low prices they gave the use of their dry-houses to the pickers and furnished wood for drying. The price of sulphur, burlap and other necessities for drying and packing will be deducted from the money received for the hops, and if any balance remains above 40 cents per box for picking it will be the property of the owner of the yard, otherwise he makes no profit.—North Yamhill Record.

Sour Grapes.

CHICAGO, Sept. 29.—John L. Sullivan said today that Corbett's talk about Fitzsimmons not being in his class was all nonsense. In his opinion Corbett is afraid to meet Fitzsimmons.

"I have used your Pink Pills for Pale People and I can truly say they have cured my liver, kidneys, and stomach."—J. H. Jones, of Chicago, Ill., U. S. A.

CHINESE KNOCKED OUT.

Japan Keeps Her Enemy on the Run.

MUTINY IN THE CHINESE ARMY.

Foreigners in Peking and Tien Tsin Organize for Defence.

Japs Landing Troops.

SHANGHAI, Sept. 29.—It is rumored here that the Japanese have effected a landing on the coast of Shanghai Lung, a promontory to the northward of the Foo.

Foreigners Afraid.

SHANGHAI, Sept. 29.—Advice from Peking say there is ever increasing anxiety among the foreign population there and at Tien Tsin. Foreigners are actively organizing for the defense of foreign quarters.

National Guard Called Out.

YOKOHAMA, Sept. 29.—Reserves national guard has been called out for active service.

Panic in Peking.

NEW YORK, Sept. 29.—A special from Shanghai says that the Chinese army at Wiju, on the Yalu river, which is opposing the advance of the main Japanese army, has mutinied. The men are throwing away their arms, because they have no ammunition, being cut off from supplies. The Chinese defenses have completely collapsed and are now only a farce. There is a panic in Peking, and the very name of Japan inspires terror everywhere. China is perfectly helpless.

Manchurians Rebel.

LONDON, Sept. 29.—A dispatch from Vienna says a semi-official telegram from St. Petersburg announces that the Russian government has learned of a rebellion against the Manchurian dynasty.

Dr. Henry A. Mott, U. S. Government Chemist reports that Dr. Price's Baking Powder has reached "the acme of perfection" in wholesomeness and efficiency.

China's Situation.

LONDON, Sept. 29.—The Times says: Japan's next movement is now a question of the greatest importance. China's fleet is virtually paralyzed, and the Japanese are free to transport a force in any direction. There are two principal courses for them to pursue—to strike direct for Peking, or to occupy Formosa. Either course is more probable than a march to Moukden. It seems certain that 25,000 Japanese could take Peking, when Japan could obtain, so far as China is concerned, any terms she is likely to demand. On the other hand, the time available is very short owing to the approach of winter, and the venture, though not impracticable, would be very risky. A force of 20,000 would suffice to occupy Formosa and a decent upon that place is certainly among the immediate possibilities. Japan seeks territorial expansion, and Formosa offers obvious advantages.

Hung Chang to Command.

SHANGHAI, Sept. 29.—It is reported that the Emperor has granted Li Hung Chang's request to be allowed to take the field in person and that Li Hung Chang will make his headquarters at Lo Tai, near Kai Ping, the present headquarters of the provisional commander-in-chief of Chih Li. It is also reported that the Chinese troops have evacuated Corea and are now massed at Chih Lam Chang, thirty miles westward of the Yalu river. It is stated that the numerous desertions from the Chinese army of late is because of the faulty condition of the arms and ammunition supplied to troops.

Another junk that was sailing through the north channel in order to evade the gnat boats, struck a torpedo and was blown to pieces.

Revolutionists in Brazil.

NEW YORK, Sept. 29.—A special from Buenos Ayres says: "Comrade" agents at Rio Grande do Sul telegraph

that the revolutionists are actuated by a desire to avenge the recent cruelties and are assembling in the mountains near the frontier of Uruguay. It is reported these force numbers 5000, and that a demonstration against the government will soon be made."

Pacific Railroads.

LONDON, Sept. 29.—Sir Charles Rivers Wilson, controller of the general national debt office, is going to the United States as a representative of the European stockholders of the Central Pacific railway, and will negotiate with the government at Washington in regard to the Central Pacific's debt to that government. Wilson will also ascertain what modifications can be made in the lease between the Central Pacific and the Southern Pacific companies.

Celestials Must Go.

SAN FRANCISCO, Sept. 29.—Collector Wellburn, of the internal revenue, is busily engaged completing the final report of Chinese registration under the McCrea law, the treasury department having ordered the immediate return of the report. It is believed that the authorities will shortly commence a systematic crusade against all unregistered Chinese, and compel their deportation.

The gold deposits found at Cripple Creek are not richer in value than Dr. Price's Cream Baking Powder.

Mixed Marriages.

BUDA-PESTH, Sept. 29.—At the bishop's conference today the primate of Hungary read a letter from the pope directing the episcopate to use its efforts with the magistrates to obtain modification of the bill dealing with the religion of children of mixed marriages, but the letter added the agitation must not take an illegal form.

Work of Anarchists.

NEW YORK, Sept. 29.—A special from Panama says news has been received from Costa Rica of an anarchist attempt to assassinate President Iglesias during the military review at San Jose. Five shots were fired at the president by an anarchist named Mincaosa. Dynamite was found in the house where an accomplice named Jiminez lived.

Ashore and Afloat.

LONDON, Sept. 29.—A dispatch from Shanghai today says that the commander of the Japanese warship Naniwa has reported to the minister marine, that while cruising in company with the Akitsushima, September 23, a Chinese warship was sighted stranded in the Gulf of Talrawan. The Japanese believe her to be the Kwang Kai with a Chinese crew on board. Japanese cruisers approached and set fire to the ship and escaped ashore.

Legacy to Lord Churchill.

LONDON, Sept. 29.—Miss Balne, an eccentric lady, who died recently, left as a legacy to Lord Randolph Churchill, her mansion and estate in Oxfordshire, as a recognition of his commanding political genius.

Ministerial Scandal.

NEW YORK, Sept. 29.—A special from Lima says the report of the committee of the senate appointed to investigate the charges against the former minister of finance has been made, and that it recommended that he be indicted.

Dupuy to Resign.

PARIS, Sept. 29.—The newspapers report that Premier Dupuy will shortly resign.

Unpatriotic Administration.

WASHINGTON, Sept. 29.—Some half a hundred ex-soldiers and ex-sailors, who have been dismissed from the government service, have organized an association and adopted resolutions denouncing the present administration for its utter disregard for the rights of soldiers and sailors of the late war. Maj. Burton, president of the organization, says it will represent more than 200 ex-government employes, who have been dismissed since the present administration was inaugurated.

Engineer Drowned.

PORTLAND, Sept. 28.—A Northern Pacific freight engine was pushed off the Halmaas ferry into the river, this morning. Peter O'Connell, the fireman, was drowned, but his body has been recovered.

An English Syndicate.

APRINGTON, Wis., Sept. 18.—It is said that an English syndicate has secured a claim on the paper and pit pulp mills, along the Fox river. The value of the plants is estimated at \$10,000,000, and the value of the product at \$50,000 daily.

GAMBLING MUST GO.

Chicago Raiding Property Owners and Professionals.

THE BOARD OF TRADE IS INCLUDED.

Mayor Hopkins Charged With Bribe Taking.

Prominent Men Indicted.

CHICAGO, Sept. 29.—The grand jury investigating gambling returned its final report today, finding 20 indictments against owners of property used for gambling rooms. Among those indicted are J. Irving Pearce, proprietor of the Sherman house, Owen F. Olde a well known capitalist, and James R. Tod a wealthy real estate dealer. In addition about 50 men are indicted charged with keeping gambling houses.

It is said that the trade and labor assembly will start a crusade against high toned gambling, attacking the board of trade and the Washington Park race track. Club waiters, it is claimed, will reveal many secrets and the card games of Michigan boulevard, as well as those on Clark street, will be given publicity. During the investigation Detective Mat Pinkerton swore that Mayor Hopkins had received money from gamblers who gave it with the understanding that they would not be interfered with. The matter will be made the subject of further investigation. It is reported that several attempts have been made to kill Judge Brentano, who ordered the destruction of the Paraphernalia taken in the raids upon the gambling halls. In one instance it is said he was fired upon in his bedchamber from across the way.

Bicycle exercise, according to Miss Frances Willard, is marvellously healthful. So is Dr. Price's Cream Baking Powder.

McKinley Speaks.

GALLIPOLIS, Ohio, Sept. 29.—Gov. McKinley spoke here last night to a big audience. Many people came from nearby West Virginia points to hear him. In the course of his long address Governor McKinley inquired what industries the tariff law of 1894 created and what existing industries it had stimulated, and said:

"I find the answer to my question in a newspaper dispatch of today from London, furnishing particulars of the banquet given by the chamber of commerce of London to Mr. Wilson, member of congress from West Virginia. Sir Albert Rollitt, who presided at the banquet, said: 'That Mr. Wilson's name had become honored and familiar in England and that London is honoring him honored itself; that the new tariff law, while it might not have realized the expectations of its promoters, had already benefited England. Furnaces had been reopened in Wales and Yorkshire, and an impetus had been given to textile industries.'" This will be cheering news to the people of the United States and will bring comfort to idle men who for a year have been waiting for American mills to reopen. You have not heard of any commercial body in the United States, through its spokesmen, declaring that any industries in America have been stimulated by this law, whatever benefits have gone to other countries.

While the banquet at London was proceeding the board of trade at Edinburgh sent its congratulations. There was a singular absence of any American dispatches.

THE MARKETS.

SAN FRANCISCO, Sept. 29.—Wheat Cash 77 3/4 @ 78.
CHICAGO, Sept. 29.—Wheat, Cash 81; Dec. 81.
PORTLAND, Sept. 29.—Wheat valley 75; Walla Walla 85 @ 87.

CAPTAIN SAUNDERS' PARDON.

Gov. Pennoyer Will Probably Act Before Retiring.

The following news from the Oregonian with regard to the probable pardon of Capt. W. W. Saunders will be received with a great deal of interest by his many friends. Governor Pennoyer has pardoned many worse cases:

It can be definitely stated that before he retires from office, Governor Pennoyer will grant a pardon to Capt. William Wirt Saunders, sentenced to life imprisonment for the killing of Charles Campbell, at Albany, in 1885. Mr. George W. Belt, district attorney at the time of Saunders' second trial, has joined, it is understood, in recommending executive clemency for Saunders, and this coupled with the earnest solicitation of many others in behalf of the imprisoned man, has induced Governor Pennoyer to give the application favorable consideration. In doing so the pardon will be granted with the express understanding that Captain Saunders will leave the state and not return.

The case of Saunders has been one of the most celebrated in the criminal annals of Oregon. Sentenced to be hanged, a fugitive from justice, his recapture and second trial, resulting in a sentence of life imprisonment, all made Saunders notorious throughout the state, and the expression of opinion was in some quarters in sympathy with him. During his term of prison life no inmate of the penitentiary has attracted more attention among visitors than Captain Saunders. During the entire period he has been a model prisoner. During the sessions of the legislature many of the members and scores of others visited him, nearly all of whom signed the petition for his pardon, which he would present. He has always entertained the hope that he would soon be released, but it has been so long deferred that the realization of his great desire, so near at hand, will be a joyful surprise.

Saunders has always maintained his innocence of murdering Campbell, claiming he did the shooting in self-defense. Campbell as he lay dying, made his anti-mortem declaration in the presence of Mr. George Chamberlain, then district attorney, and Dr. Mission, saying he had been "shot down like a dog." Mr. Chamberlain has always refused to co-operate with those seeking the release of Saunders. He has no ill feeling toward the prisoner, and he says that when Saunders was convicted and sentenced his duty as a prosecuting officer ended; but he could not conscientiously join with others in asking clemency.

It was on the points of supreme excellence that Dr. Price's Baking Powder received the highest honors at the Columbian and Midwinter Fairs.

Disabled in a Storm.

ASTORIA, Or., Sept. 29.—The Collier Mactinaw was towed into port yesterday by the tug Escort and Relief. Captain Littlefield was seen by an Associated Press correspondent and stated that the entire rudder post and rudder were carried away by the heavy seas running on Wednesday afternoon. He was unable to make a bargain with the tugs so they will come in for salvage. The vessel and her cargo are fully insured and the loss will fall on the underwriters. The vessel will probably be towed to San Francisco for repairs as she will have to go on the drydock.

Tin Plate Plants to Close.

PITTSBURG, Sept. 29.—Tonight all the tin plate plants in the country will close down. There is a wide difference between the manufacturers and workers on the subject of wages. The workmen insist notwithstanding the reduction of the tin duty, that the wages agreed upon in June must be paid, for the remainder of the year.

A Test Case.

BOSTON, Sept. 29.—In the case of Bishop Bartwell versus Lavett Stollitz, ex collector of customs, Judge Gill today handed down a decision against the government. The question at issue was the interpretation of the statutes regarding protests against the payment of duty, and millions were involved, being a test case. The government will appeal.
