River News.

Many of the curious minded have visited the O. R. & N. wharf today and yesterday to view the place where the unfortunate victim of Monday night's accident fell from. Scores of conjectures are proffered as to how Pettyjohn fell and the manner he struck the boulder, but no one knows definitely anything about it, not even Pettyjohn himself. Without exception the visitors commiserate his misfortune.

W. E. Coman, the traveling agent of the O. R. & N., has been in town for several days working up business for the company. Mr. Coman was seen today and he speaks very encouragingly of the outlook for freight business for the future. He says also that the company are about to inaugurate several changes that will materially facilitate the rapid transportation of trade between Salem and San Francisco. A line of iron steamers, the Columbia, the Oregon and the State, will leave Portland every third day, thus giving Salem shippers much better time than formerly, when the steamers ran every five days, between the two places. Mr. Coman has also completed the arrangements that have been hanging fire for some time regarding the repairing and enlarging the wharf.

The steamer left this morning for Portland to return Thursday.

The Altona started northward this morning. She is due here again tomorrow night.

The Eugene is due from Portland tonight.

MAYOR GATCH'S BOY DROWNED

Efforts Being Made to Resuscitate the Child.

THE JOURNAL press is stopped to give the bare statement that the little son of Mayor Gatch was drowned in the mill race this afternoon. No particulars are obtainable.

The body was found by his playmate and has been taken to Mr. Gatch's home, where every possible effort is being made to resuscitate the child.

VALLEY LOCAL NEWS.

AUMSVILLE.

Mr. Klass, our weather man, has been giving us a little too much rain and his promises for the future are not good.

Mr. Ole is working for James Moyer in his meat market.

Henry Vanburen has his fine new house finished. A large two-story house, well finished and handsomely painted. Henry and his good lady have a right to feel very proud of it. Some say that Henry does step a little high lately.

The hop question is considerably discussed here, and fears are entertained by some that hard times will effect the price of hops in the future. If it was food or clothing it might be so, but beer, like the Populists, flourishes best in hard times, and the more despondent a man is the more beer he will drink. As long as there is a stick of furniture, a wife's dress or baby's shoes that can be sold, the loving husband will have his beer. The family may be in rags and in want for food but the good man will supply his beer demand. We think hop men can take courage for there is no danger of hard times, want or distress reducing the amount of beer drinks, and this is another relief. The church members who are in the hop business intend to label their hops "for yeast cakes alone." It is said that Mr. Bayard has his tickets already printed.

The meanest man has been found, he gave a neighbor a piece of land to raise cabbage on. When the cabbage was full grown he turned his stock in and had it all eaten up.

We have a curiosity in town. A young man who does not like to see his name in print and he says he will put a head on anyone who puts it there. Moral: A barking dog never bites.

M. Reader's house is now enclosed and the carpenters can work in defiance of the rain.

We were wrong in our last item in saying that Mr. Orle Gilbert had been away from town. He is still with his father and mother.

Some ten days ago Mr. Orle Gilbert met with quite an accident. The neck yoke of his buggy broke and his horses ran away throwing him out and breaking the buggy badly, but we are glad to say Orle was not hurt.

Cash Market.

FOR PLEASURE AND PROFIT.

Members of College Literary Societies to Celebrate Halloween.

The literary societies of the Willamette university, have decided to enlarge their libraries, and in order to raise the requisite money, they tonight give a literary, a musical, an art museum, and a fortune-telling exhibition, as well as the usual number of old and reliable jokes and pranks always allowable on Halloween, the different exhibitions and games to take place at the residence of Prof. A. E. Yenx, on Winter street.

The home of the professor has been given over to the merry makers entirely, and the way they have worked to decorate the different rooms of the home, speak volumes for their industry and taste.

The dining room will be decorated with greens of different kinds. In the center of the room, suspended from the ceiling will hang a very large Japanese umbrella, and suspended from this and hung around the walls will be an abundance of little articles which only the Japanese can make. The whole effect will be to give this room a weird appearance.

The parlor has been liberally hung with floral decoration and ferns; white chrysanthemums predominate here, however.

The library has been very tastefully arranged, and a mammoth basket of yellow chrysanthemums as well as an endless variety and number of roses, make the place delightful.

Under the light of stairs leading to the second story of the house, has been arranged the fortune-telling booth. The young lady or gentleman who is to peep into the future for 5 cents a peek, refuses to divulge their names.

The cocoa booth will be located in the kitchen, and presided over by Miss Myrtle Marsh and Miss F. Jones. It will cost the gay collegians 5 cents a cup to taste of this "food fit for the gods."

The art museum will be the center of attraction no doubt and it is in truth work of art. The pictures on display are numerous, there being some seventy sketches in all, and some of them are by very proficient artists. Among the names given on the catalogue are such artists as Horn, Kitchen, Orsted, Murphy and Pike. A few of the titled exhibitors are "The Skippers Home," "Mustered in and Mustered Out," "The Old Mill and Pines Beyond," "Tax on Tea," "The Unopened Letter," and many others. The arrangement of these gems has been very artistically performed.

An admission of 25 cents is to be charged and each of the students have the privilege of inviting one person outside of the college, and saving these and the faculty the affair will be private.

Jack o' lanterns will decorate the porches and grounds and the university band will render the music. Nothing has been left undone that would tend in any way to make the affair pleasurable and profitable.

A HARBOR HOME.—The employees and patients at the asylum farm have this afternoon had a half holiday. The harvest has been gathered, the land has been plowed and in fact all the fall work has been completed, hence Supt. Rowland arranged to give all hands a good time. A dancing party will be had this evening.

Tombstone.—Thought at the W. C. T. U. house will be given the first of a course of lectures. Mr. Fagan will sing.
