A JOYOUS EVENT.

The Salem Water Company's Force Banqueted by Pres. Wallace.

Last evening at Strong's banquet rooms was assembled for an hour a happy company, consisting of the office force, officers and men employed by the Salem Water company. The object of the gathering was to celebrate the successful setting up of the big \$10,000 pump lately purchased by the company, and which is now in perfect operation.

The following named persons were in attendance: Miss Lizzie McNary, Messrs. J. M. Wallace, J. M. Martin, Paul Wallace, Frank Powers, A. L. Brown, Louis Kibbille, Joseph Martin, J. Bohan, Paul Rhodes, Martin Viecko, John Robertson, Wm. Bennett and J. S. Moyer.

After disposing of a hearty repast of Baltimore oysters and ceteras, including some happy conversation and repartee over the board, President Wallace stated that he wished to take this opportunity to thank all the employees of the company who had so faithfully assisted in placing the new pump into working order. He paid a high compliment to the engineer of the company, Mr. A. L. Brown, and on behalf of the company presented him with a silver medal or badge engraved "Chief Engineer Salem Water Co."

This was pinned onto the lapel of his coat by Miss McNary, and Mr. Brown made due acknowledgement of his appreciation in a few well-chosen remarks. In behalf of the working force he thanked Mr. Wallace for the many acts of kindness shown them from time to time.

Supt. J. M. Martin was called upon for a few remarks, and responded with his usual facility. He spoke of the success with which the men had removed the old pump, and replaced it with the new, handling hundreds of thousand pounds of machinery without the least mishap or accident. He paid a neat tribute to the "boys" who did the work. After the wisdom of President Wallace had been shown in ordering this magnificent new pump, and after the skilled mechanics had exhausted their resources in perfecting it, he said it still remained for the laboring men to put it into place and motion. No skill nor inventive genius can supercede the necessity for honest toil, and it should ever be respected and honored.

Paul Wallace was next called upon, and he responded by christening the new pump. The name he thought most fitting for it was "Jumbo," and all present approved the name. Thus ended a most pleasant affair, and after hearty congratulations, good nights, cigars, etc., all departed in the best of spirits.

School District No. 24.

At a meeting of the school board held yesterday afternoon it was decided necessary to fit up an additional room in the North Salem building to accommodate the increased attendance. A committee composed of Messrs. Johnson, Ohmart and Waite was appointed to look after the same.

A resolution was passed forbidding newsboys from being dismissed before school closes in the future.

Concerning the purchase of wood the following resolution was adopted: "Resolved, That we, the directors of school district No. 24, have purchased of Gilbert & Patterson 100 cords of body fir wood owned by them and now piled on the south side of the East Salem school block. In the city of Salem, Oregon, and that we agree to pay for the same on the first Tuesday in August, 1895; provided, the purchase price of said wood per cord shall be the same as the bid accepted by this board for like quality of wood delivered at said East Salem school building in 1895; and provided, further, that in the meantime this board shall be allowed to use and appropriate said wood or any portion of it for the use of the East Salem or any other of the schools of this district and that no interest shall be allowed on this agreement."

RIVER NEWS.

The river is still very slowly falling, the gauge this morning registering about two feet above low water mark.

The steamer Hoag will reach Salem on her trip up the river tomorrow evening, with a good load of freight.

The steamer Altona arrived from Independence this morning, on schedule time and proceeded on to Portland with about fifteen passengers.

The steamer Eugene came down from Corvallis yesterday afternoon, with a big load of merchandise for Salem merchants. She left for Portland this morning, one day behind time, and will return tomorrow night.

The Modoc will make her first trip up the river this evening since she has been taken off for repairs. She will go on to Corvallis if the water will permit. After this trip she will go to boning wheat from Wheatland to the Willamette Flouring mills for a short time. B. Campbell, general freight agent, and Mr. Lee, another officer of the O. R. & N. Co., will come up on the Modoc. The O. R. & N. Co. is preparing to give better service on the Willamette river than has been given for years. The officers are here on an inspection tour, to find out just what is needed on the river division.

The steamer Gray Eagle, which is being built at Newberg, is 110 feet long with twenty feet four inch beam. She is a freight and passenger boat, with a draught of fourteen inches. The owners of this new boat are Captain Carey and Engineer Kemp, of Corvallis. The engines and the boiler in the Gray Eagle, are what used to be in the Anetia, the owners of the Gray Eagle, having purchased the Anetia and have transferred her machinery to the new boat. This is the same machinery that was used in the steamer R. C. Young, which, will be remembered, was burned some time ago, at Dove's landing, in order to secure the insurance. She will be ready for work in about three weeks and will ply on the upper Willamette.

A reception will be given at the Y. M. C. A. next Saturday evening, commencing at 7:30 o'clock. It will be given in honor of the Monmouth football team and will take the form of an apple eat and chestnut roast. A short musical program will be rendered during the evening. Members and their lady friends are invited. No boys under sixteen will be admitted.

Anarchist Executed.

BARCELONA, Nov. 12.—Jos. Salvador French, the anarchist, who threw a dynamite bomb in Licea theatre in this city, November 7, 1893, killing over twenty people, was executed this morning. French displayed the utmost bravado, shouted "down with religion," and died almost with the words of the anarchist song on his lips. The wife and little daughter of the condemned man were admitted to see him in the chapel, but their tenderness and sympathy were utterly thrown away upon the anarchist. He scoffed at the supplications of the priests to prepare himself for death and laughed derisively at references to the future life.

A Second Election.

ATLANTA, Nov. 10.—The squabble over the election of congressional candidates in the tenth district has been settled by Mr. Black, the incumbent, who received a majority of 7000 on the face of the returns. In reply to Tom Watson's offer to arbitrate, he has proposed to submit the matter to a second election next year. Watson today signified his acceptance of the proposition. Black will take his commission but will resign March 4.

There was general rejoicing on the part of the speakers because of the result of the recent election in New York.

TELEGRAPHIC NEWS.

Chinese Soldiers Mutinous.
LONDON, Nov. 21.—A dispatch from Shanghai says the feeling in favor of the Japanese in the invaded districts is growing. Mutinous Chinese soldiers are reported pillaging and outraging the inhabitants. The Japanese force under General Ozaka is announced to have left Taku Shan November 10 to attack Sulyen (Siuch Yan), which the Chinese have fortified. De Lesseps Honored.
PARIS, Nov. 21.—Yesterday, the 90th anniversary of the birth of Count Ferdinand de Lesseps, but feeble as he is in body and beclouded in mind, the congratulations that were bestowed during the day upon the greatest engineer of modern times, were more grateful to the family than to the recipient. It is noteworthy also that this is the anniversary of the completion of his crowning work, the Suez canal, and likewise the anniversary of the conferring upon him of the highest honor he has attained, the cross of the Legion of Honor.

The Pardon List.
LONDON, Nov. 20.—The Standard's St. Petersburg correspondent says: The various ministers are extremely busy preparing lists of the criminals to be pardoned on the occasion of the czar's marriage. A manifesto proclaiming imperial clemency will probably be issued the day after the marriage.

Railroad Troubles.
NEW YORK, Nov. 21.—The Chicago and Northern Pacific bond holders committee have completed a plan of reorganization. It appears \$2,500,000 of the Chicago and Northern Pacific bonds had been used by the Northern Pacific company without authority and without compensation to the latter. A recourse must be had to the courts unless a satisfactory settlement can otherwise be made.

Committee of Seventy.
ALBANY, Nov. 21.—Upon complaint of the committee of seventy, Governor Flower today notified John H. Fellows to show cause why he should not be removed from the office of district attorney for New York county for neglect of duty.
