THE CITY ELECTION.

Republicans Put Up Good Men and Make a Clean Sweep.

It was a walk-away for our side. The result of Monday's city election was no surprise to the well-informed citizen. The same movement, headed by a few of the preachers of the city, but mostly men who had no long residence in the city and who owned no property in the city, killed the citizens' ticket two years ago.

The result was so self-evident that a full vote was not brought out. As the incorporated part of the city does not contain one half the population, nor cover one-fourth the area of the city of Salem proper, the vote cast is not a criterion of population. At the election last June the ten precincts centering in this city cast a vote representing nearly 15,000 as the population of this city. The total vote Monday was 1,150 by wards as follows:

Table with 4 columns: Ward, 1st, 2nd, 3rd, 4th, Total. Rows for First ward, Second ward, Third ward, Fourth ward, and Total.

The foregoing was divided among the several candidates as follows:

Table with 4 columns: Mayor, 1st, 2nd, 3rd, 4th, Total. Rows for Mayor, Recorder, Eds., M. Estlin, Dilley, Griswold, Treasurer, and Swafford.

NEW COUNCIL.

G. F. Smith of the first ward, E. C. Cross of the second, George B. Gray of the third and A. Klein of the fourth will retire from the council and the new council for the next year will be as follows:

First ward—R. B. Duncan, G. G. R. Bingham, Thomas Holman, J. J. Murphy.

Second ward—Thomas Holman, J. J. Murphy.

Third ward—Thomas Kay, Hiram Smith.

Fourth ward—J. H. Albert, W. T. Rigdon.

Republicans—Duncan, Bingham, Holman, Murphy, Kay, Smith, and Rigdon.

Democrat—Albert.

Only by answering every requirement of an ideal baking powder has Dr. Price's secured and maintained its supremacy.

Miss Breyman was a highly esteemed young lady, accomplished, lovable and admired by all.

Prof. Chapman's Lecture on M.æbeth]

Prof. Chapman of the Oregon State University continued his series of lectures on Shakespeare last night. Duncan was a weak and puerile king of Scotland whose death was a benefit to the country. Macbeth in history is not so bad a man as Shakespeare makes him. But he reverses his historical character and pays little attention to his story as usual. The tragedy ends by Macduff killing Macbeth, who, steeped in crime until the people of Scotland detested him, is haunted to his death by the spirits of his victims. After a brief history of the play he entered into a discourse upon superstitions of religion.

Prof. Chapman shocked his hearers a little by his ridicule of the supernatural, going so far as to class hypnotism and religious revivals as forms of superstition repugnant to reason. Electricity a hundred years ago was considered as supernatural as spiritualism is today; many of its phenomena could not be explained away.

He called the play the tragedy of Calvinism and compared Calvin and Darwin with a fine cutting sarcasm. A man's destiny was born with him. The witches were the progressive instruments of Macbeth's downfall. The wise man does not forget that judicious skepticism is the proper attitude to take towards all things that transcend the natural laws. There was a time when Macbeth was as true and innocent as a child but the witches, corrupted him.

If women are unfitted for practical affairs it is because they have a faculty for ignoring consequences. Men are more cultured than women, because they have learned to wait and mature judgment. A woman like a very young man is always perfectly certain. The statement that a woman's at the bottom of nearly all crimes and trouble is too near true. Many a man is driven to crime by the injudicious extravagance of his wife who insists on living beyond her means. Women were ignorant because they have been kept so by the men.

In this play Lady Macbeth supplied the lacking evil will of her husband. She urged the murder of Duncan but after their sorrows fell thick upon them he never reproached his wife for her advice. Adam was less noble and soldierlike than Macbeth when he said the woman did tempt me and I did eat.

All women who think a great deal are too apt to be hysterical. Hysterical people are generally dishonest. They are self-conscious. That is their leading trait. Macbeth was married to this sort of a woman and would have gone down into hades with her. The lecture will be continued this evening.

Are opals unlucky? Or, is the ancient superstition exploded? Good luck invariably attends the use of Dr. Price's Cream Baking Powder.

SALEM, Dec. 4, 1894. ED. JOURNAL:—From a cursory glance at the city election returns, I see that "Gris" has been distanced. What is the reason? Is it another case of foul driving? If so, the driver should be promptly ruled off the track. Does Grany and McMahon run the city? Yours Respectfully, Inquirer.

THE TAX EQUALIZERS.

State Board Met and is Organized for Work.

Following members of the board were present at the opening session today: Geo. Watkins, Portland; H. U. Hunter, LaGrande; G. Wingate, Astoria; Mr. Wills, Prineville; L. D. Gibson, S. E.; A. C. Woodcock, Eugene; and A. C. Aulton of Lakeview.

BOARD ORGANIZED.

S. W. Gibson was made temporary chairman, W. G. Hunter was named for permanent chairman, but declined. Watkins of Portland declined. Gibson ditto. All the members in turn gracefully declined and honors were easy. Drawing by lot was next proposed, but finally a ballot was taken in the reporter's hat resulting in the choice of W. G. Hunter of the Sixth district. Mr. Coolidge was again appointed secretary.

SCRATCHED HIS TICKET.—It was hardly to be expected that a candidate on the regular Republican ticket would scratch his ballot, but such a thing occurred in the Second ward. J. J. Murphy, candidate for alderman, scratched his own name.

George D. Sprague, guardian of Don D. Sprague, a minor, has been ordered by the county court to purchase lot 8 in block 11 in Depot addition to Salem together with the dwelling and other buildings for the sum of \$625. It is to be deeded to his ward.

Attention is directed to the advertisement of the Great Northern Railway in another column, calling attention to its very attractive publications: An Atlas of the Northwest Valley, Plain and Peak.

LECTURE.—Miss Helen Hardford will give good logical reasons why women should be granted the right of franchise. All ye doubters come and hear them, W. C. T. U. hall tonight, at 7:30.

W. T. Rigdon came within sixteen of having as large a vote as A. Klein did two years ago, when there was no opposition, but of course there were more votes cast this year.

At the county clerk's office a marriage license was issued this morning to Geo. A. Miller and Miss Louie Inlah, James Inlah witness. The parties are from near Fairfield.

A crippled hobo was up before Recorder Eds this morning for a plain drunk. He was sent out of the town as a short solution of his case.

George Gray told the truth when he remarked that even if he should be beaten the Third ward would have a good man for alderman.

UNITARIAN SOCIABLE.—The ladies of the Unity church will give the regular monthly sociable on next Friday night in Channing hall.

A GOOD REASON.—When asked why he patronized the N. Y. Kitchen, a man replied it is the best place in Salem to get a 15 cent meal.

Rev. Belknap, who is the sweet singer at Rev. Shulze's revival in South Salem was a member of the Oregon legislature a few years ago.

PUPS FOR SALE.—A few pure bred Llewellyn pups at bargain figures. Inquire at JOURNAL office for information.

The report that the Oregonian is sold is denied. Scott & Pittcock claim still to be the owners and probably are.

VALLEY LOCAL NEWS.

AUMSVILLE.

Some road making was done in this district last week by Messrs. Garband Butler. It was raining hard, and with team and scraper they leveled up the road with liquid dirt. It is claimed that the road is now in fine shape and that it will remain good until spring. It will be impossible to make any rut as the wagon body will level them all down again as it passes over. Frank Pound thinks that it would be best to use the wagon body alone on this road. It might do, but the wheels would come handy when bad roads were struck.

In the JOURNAL—"umbrellas recovered"—several people in town would like to have their umbrellas recovered. Your correspondent has several.

We would like to hear from "Home-stead," on the subject he mentioned.

Thanksgiving was generally observed in Aumsville by good dinners, and the wearing of Sunday clothes. It is believed that everyone in Aumsville had a good dinner, and that is something to be thankful for.

Joe. Isham has improved his home greatly by grading it up all around, and by building a new porch.

Mr. Kilpatrick has purchased ten acres of land from Henry Porter.

Mr. Weaver owns a white horse named "Yipp," who has proven so valuable that every one wants to own him, and Weaver is afraid that a large price may be offered and he tempted to sell. He wants it understood that he will consider it an insult for any one to subject him to such a temptation.

There is talk of starting protracted meetings at this place. It will be labor lost, for while you pray for the salvation of some, you will have to pray that others may not be converted, and such prayers do not have much weight with the good Lord. It would be a fearful thing for the church if the wrong parties should be saved, for those who pray "Lord, I thank thee that I am not like other men," would not fellowship with the one who prays "Lord help me, a poor sinner."

Dan Smith is raising a fine set of burnside.

Weaver is busy hauling wood and hop poles.

STAYTON.

Dr. Derbyshire spent Thanksgiving in Portland returning Friday.

Mr. James Nelson, of Portland, is visiting friends in town this week.

Rev. Campbell, of Monmouth, is holding revival meetings at the Christian church this week.

The Thanksgiving dinner given by the ladies of the Christian church at the opera house proved to be quite a success in every way.

Miss Maggie Alderson, of Salem, has succeeded in getting up a musical class in our little city and will pay Stayton a visit once every week for some time to come, it is hoped.

Bert Keen, who is attending business college in Salem, came home to eat Thanksgiving turkey with his parents and friends.

Miss Nellie Starr, a former teacher in the Stayton public school, was visiting in town last week among her large circle of friends. Miss Starr will take her old room back after Christmas.

On the 25th of December our little city is to have a masquerade ball, and all are now busy thinking up some new and beautiful design for a costume that will out rival all others in the ball room.

Mr. Jarman has gone to Albany to go into a meat shop of his own. We all wish you success, Mr. Jarman.

Dyspeptics, naturally enough, are afraid of hot cake, biscuit, pastry, pie crust and muffins. Hot food may be eaten with impunity when made with Dr. Price's Cream Baking Powder.

Appropriations heretofore made annually for the enforcement of the Chinese exclusion law are declared to be inadequate for the purposes. In the judgement of the secretary they should be not less than \$100,000 per annum. Pending the treaty between China and the United States will necessitate the exercise of greater vigilance and consequent increase in expense. The most important feature of Mr. Carlisle's report is his decision of the subject of currency reform, in the course of which the administration plans of the new system of currency are set forth in detail.

1. The repeal of all laws requiring or authorizing the deposit of United States bonds as security for circulation.

2. Permitting banks to issue notes to an amount not exceeding 75 per centum of their paid up and unimpaired capital, but require each bank before receiving notes, to deposit a guarantee fund consisting of United States legal tender notes, including treasury notes of 1890 to the amount of 30 per centum upon circulating notes outstanding to be maintained at all times and whenever the banks retire its circulation in whole or in part, its guarantee fund is to be returned to it in proportion to the amount of notes retired.

3. To retain the provision of the law making stock holders individually liable and provide that circulating notes shall constitute the first lien upon all assets of the bank. 4. To impose a tax of one-half of one per centum per annum payable semi-annually upon the average amount of notes in circulation to defray the expenses of printing notes, official, supervisory, cancellation, etc. 5. No national bank note to be of less denomination than \$10 and all notes of the same denomination to be uniform in design, but banks desiring to redeem their notes in gold may have them made payable in that coin.

Destroying Diphtheria Germs.

A writer in The Medical Magazine who has witnessed the Berlin method of disinfecting a room describes the cleansing of an apartment in which a child had died of diphtheria. "For men were engaged. After everything that could be subjected to steam without detriment had been removed to the disinfecting station all the things were removed from the walls, and the men began rubbing these with brom. Ordinary Gorman loaves are used, 48 hours old. The loaves are cut into substantial chunks about six inches square, the back of each piece consisting of the crust, thus allowing of a good purchase. The walls are systematically attacked with strokes from above downward, and there can be no question as to its efficacy in cleaning them, nor does the operation take as long as one would imagine. The crumbs are swept up and burned. After this the walls are thoroughly sprinkled with a 5 per cent carbolic acid solution. The floor is washed with a 2 per cent carbolic acid solution, and all the polished woodwork and ornaments are well."
