LAST BUSINESS SESSION. Salem's Council Closes Up Some Im-portant Business Matters.

The city fathers convened last evening with Mayor Gatch in the chair. Present, Aldermen Duncan, Cross, Holman, Gray, Klein and Albert. Recorder Edes read minutes of past meet-ing.

Chairman Duncan, of the committee on ways and means made a verbal re-ports in regard to revising the general license ordinance. He called attention to certain discrepancies and moved that the recorder prepare an ordinance on that subject. Adopted.

HILLS ALLOWED. A. White; \$25; E. Eckersley, \$5 87; W. I. Staley, \$2 75; S. T. & D. Co., \$3; and the usual warrants for salaries.

Duncan brought up the question of the dog ordinance. Recorder Edes reported that dog license fees came in slowly, and also that dogs are gradu-ally growing less in the city.

Fire Chief Cross was called upon for information concerning defective hy-drants and reported that the experi-ment of repairing was a failure.

Alderman Cross suggested that the best way to solve the problem would be to put a gate into the water main at each hydrant.

Holman of the printing committee reported that 250 exempt fireman's cer-tificates had been secured at an expense of \$80.

The special committee on capital grounds sidewalk exemption reported in favor of the ordinance.

Alderman Duncan inquired whether the Consolidated Street Railway Com-pany was paying its license for operat-ing its cars. Mr. Edes reported that nothing had been paid during his term, although his predecessor had at one time collected \$30.

Duncan asked that the ordinance section covering this subject be read; which states that the company shall pay \$15 per year for operating each of its cars. The alderman argued that this provision should be enforced. He also moved that the city attorney investigate the ordinances governing this subject and report.

The ordinance exempting the capitol grounds from conforming to sidewalk grades was read the third time and passed. On motion of Albert the city recorder was ordered to file a certified copy of the ordinance with the secre-tary of state.

Two Syrian camels and two donkeys were offered the city by the Turkish company of Portland for \$150. Klein moved that the city invest, and the council adjourned amid great hilarity.

St. Joseph's Society. The hall of St. Joseph's society on Chemeketa street near Winter was crowded Tuesday evening by members of the congregation and invited guests, who were entertained by the presenta-tion of a literary and musical program lasting nearly two hours.

Huckestein and Hightower; recitation, Miss Grace Davis; debate, on the question of organized labor, between W. M. Kaiser and Frank Davey; interesting experi-ences, recited by W. F. The Shakespear Course. President Chapman lectured again last night to a larger audience at Unity church on Macbeth.

Macbeth and his lady resolved that Duncan should never leave their castle alive. A life of crime leads to everlasting destruction here and hereafter. God had set his curse upon anything but a life of righteousness. Macbeth realized the hideousness of murdering his king and guest. Like the rest of us, we are more afraid of the opinions of our neighbors than we are of our own consciences. Lady Macbeth faltered not in her determination to slay. She appealed to his passion with a threat to account his love as wavering as his hesitation. Her intense desire to have her own way prevailed over his horror of crime and he veered rapidly to the influence of her tempestuous, hysterical demand for Duncan's death.

There was nothing in dramatic litera-ture equal to the second act of this play except other acts from his own plays. The skill of the poet was ex-hausted in portraying awful scenes and actions yet without resort to the super-natural. Macbeth's frenzy of mind, the stress of passion from long medita-tion on his intended crime, unseated his brain. His sanity came and went by flashes. He saw the bloody dagger before his eyes one moment; the next it was gone; the same phenomena with the vision of Banquo's ghost. Pacho-logy teaches us that the mildest man-nered man is as capable of commit-ting crime as the most violent, pro-vided the brakes were taken off.

Lady Macbeth's conscience sleeps. But her mind never slept. It was the mind of a fiend, her eyes gleaming like fire, her soul raging but her voice calm as her intellect. Her reasoning was in-tact. Her courage was unflinching. Shakespeare gives her a wonderful intel-lect. Her utterances are always ex-tremely wise. There are no sound reasons why woman's intellect is not as strong as men's. But at present intel-lectual women are not as likely to be as well balanced as men. Morals are by no means an innate gift to man, but are developed out of necessities. The old code of morals will do well in modern politics or even in business if we once learn it. Our reformers tell us politics must be put on a business basis. That would prove no moral reform.

Like Lady Macbeth the American people are indifferent to moral depravity. She faints when they tell her the grooms have murdered Duncan. She chose the proper time. The murder of Duncan made the killing of Banquo necessary. But his son escapes. That unsettled all their plans. Then follows the famous ban-quet scene.

Macbeth cannot rid his mind of Banquo's death. The ghost rises and sits in his place. He says: Thou canst not say I did it; Shake not thy gory locks at me.

He sought to drive the image of his crime from his mind. But the spectre was an accusing spirit that would not down. "Hence horrible crime!" he says, and the ghost vanishes.

The lecture closed at the end of the third act. It was unanimously voted to have the course extended and in January Prof. Chapman will return and resume his lectures on Shakespeare.

H. S. Gile, of the O. F. & P. com-pany, has returned from a trip to San Francisco. Secretary of State Geo. W. McBride is still at Hotel Bartholdi, New York, for medical treatment.

T. D. Osburn, an assistant in Os-burn's racket store, was a passenger for Portland this morning for a short visit. Lute Westcott, who has been at San Francisco the past year, has returned to Salem, to make his home here again.

G. W. Eppler, the Marion merchant, was in the city today on business, coming down on the morning over-land.

Dr. M. B. Darnell, of Sheldon, Iowa, representing the Weekly Mail, is in the city for a few days. He is a tal-ented newspaper man and is writing up the coast.

Senator Johnson, of Linn county, is in the city for a few days. He is a ris-ing intelligent Republican from the forks of the Santiam, a native Oregon-ian and a successful business man. Mr. Johnson is probably the youngest man in the senate, but he is a quiet and de-termined ruler, of a family that have made an impression upon the history and development of our own state in whatever they have undertaken.

AT HOTEL WILLAMETTE. Wm. M. Percell, San Francisco; A. G. Long, Portland; M. Abrams, San Francisco; L. F. Lamping, Seattle; Lew Wasserman, Portland.

DISTINGUISHED GUESTS.—Mr. and Mrs. Trimble, and two children, of Pittsburg, Penn., arrived in the city this morning, and are guests at the Wallace farm in Polk county. Mr. Trimble is assistant chief engineer of the great Pennsylvania railroad system, and is making a tour of the West. Mrs. Trimble is a daughter of Dr. and Mrs. A. M. Black, and a sister of Mrs. R. S. Wallace. They will remain about a month.

A BLACK EYE.—The morning after election Hiram Smith, alderman elect of the third ward, showed up on the streets with a broad smile and a black eye. His friends all extended hearty congratulations, but felt rather timid about referring to his obscured vision. It seems his family horse extended congratulations by striking him with his head.

A NEAT OFFICE.—J. W. Shaffer, the implement dealer, has neatly carpeted and fitted up his private office, which will hereafter be presided over by his better half as bookkeeper. Mrs. Shaf-fer is a competent business lady, and will greatly assist that bustling business man in looking after office affairs.

The World's Tribute to Dr. Price's Cream Baking Powder. Highest Honors Awarded by the World's Columbian Exposition, Chicago, 1893. World's Fair HIGHEST MEDAL awarded to Dr. Price's Cream Baking Powder. The highest award was given on every claim, comprising superiority in leavening power, keeping properties, purity and excellence. This verdict has been given by the best jury ever assembled for such a purpose, backed by the recommenda-tion of the Chief Chemist of the United States Department of Agriculture, Washington, D. C., who made an elaborate examination and test of all the baking powders. This is pre-eminently the highest authority on such matters in America.

A SAMPLE "CITIZEN." Threatening Communication From a Salem Dynamiter. Following epistle was received at this office through the mails Tuesday. It was written on Sunday, but evidently mailed after election when the creature who dictated it could no longer contain his wrath. THE JOURNAL publishes it not to reflect upon the men who honestly and conscientiously engaged in the citizens movement, but to show the presence of a dangerous and intolerant individual in our midst, a being not entitled to be called a man, much less fitted to enjoy the privilege of American citizenship. THE EPISTLE. SALEM, Dec. 2, 1894. HOFFER BROS.—You attacked Rev. Mr. Grandis in a very scandalous way in your Saturday issue; if you had the feelings of the community against you Catholic villains you would keep your mugs shut; that is all you are good for, is to be telling some scandalous lie against some one. If you had your just dues you would be treated to a dose of tar and feathers—you scrubs; holding up such a dirty low down cur as Dilly for marshal another dirty Catholic like yourself. THE LETTER A CRIME. Postmaster Bonham is of the opinion that mailing such a scandalous and threatening letter is a crime against the postal laws, and that if the party writing it can be identified he will be prosecuted by the United States district marshal. The handwriting is pretty well known, as other commun-ications, but not so violent as this, have been received at this office in the same handwriting. As to the contents, we shall not stoop to notice them. The writer is a dangerous man, who if he had the courage, would stab a man in the dark, blow up his building with dynamite, or otherwise do him an injury. He ought to be in jail or an asylum. Drain Normal School Notes. W. B. Cornutt is with us again to take charge of the vocal music. Students are entering school every week, coming from different parts of the state. Hon. E. B. McElroy, superintendent of public instruction, will deliver the regular Sunday afternoon lecture on next Sunday, December 9th, in the evening. Hon. G. M. Irwin, state superintend-ent elect, gave one of the best lectures ever delivered before the school, on last Sunday evening to a crowded house. Thanksgiving eve was the general reception for students at the chapel and boarding hall. A large number of the citizens were present, also students and band boys, and all had an enjoyable time. C. C. Mincher, of New York City, organizer of the Y. M. C. A. for this coast, delivered the Thanksgiving ad-dress before the students in the chapel. It was a fine lecture. He organized Y. M. C. A. in the Normal. Salem men are coming to the front everywhere. Dr. J. C. Smith, formerly of the Red Front drug store, has just been elected mayor of the thriving city of Jefferson.
