LOCAL AND NATIONAL RECORDS

The Young r Blood of Oregon Has No Use for It.

We print elsewhere the editorial of Editor Curtis of Classop county, a Republican representa ive, who cuts loose from the Dolph machine. From all over the state come similar evidences of courage and manly independence. The younger Republicans of Oregon have no use for the old Portland machine. They do not feel proud of its record or reputation, and its performances arouse no outhuslasm and no hope for the future. Its disposition of federal patronage under the Harrison administration was entirely to old party liners and not a few like Jim Lotan went out of office a stench in the nostrils of decent people. To enrepetition of such party management by the old Dolph machine, the Letter element of Republicans are saying bury it out of sight foreyer. When Judge Deady died Senator Dolph proposed first his own brother, then his partner, for federal judge. It was only when driven by the public sentiment which was aroused largely by THE JOURNAL that Judge Gilbert was ap-

The old Portland machine is in its deathtbroes. The death of it in the defeat of Dolph and the breaking of its grasp on the Oregon legislature wou'd and would send a thrill of hope across the continent, to the laborers and producers on the farthest Atlantic. Why? What does it stand for? We want to ask its most ardent advocate, What does Portland machine politics mean as applied to the government of Oregon? What is the experience of the people of this state with it? One of its judges on the bench of Multnomah county decided that one of the rotten banks there holding \$168,000 of the taxpayers' money could pay it when it pleased. A deposit of public funds was to be treated as any other ordinary deposit-not according to the good old banking custom as a trust fund not to wrongful uses of public funds belonging to city, schools, county and state, onducted under the old Portland political macnine. But many Republicans who would Thirty Feet of Water Doing not object to the gold-tandari do object to the ruinously hostile policy toward sliver. If the views of the Dr'ph-Scott machine prevail, it will be impossible to develop a single silver union in Oregon for ten years to come. It will be saying to the rest of the Settlers Are Moving Up Onto world Oregon descards after and paper money as currency.

Not only has the old Dolph m chine no claims upon the flepublicans of Oregon either on account of its manage ment of city government, or its financial theories, but owing to its being tied band and foot to the Pacific railroads in a way that will forever keep it hostile to the people's interests. The Negroes Deceived.

MARSHFIELD, Or., Jan. 7 .- The ne groes imported from West Virginia to dig coal at the Beaver Hill mine have quit work, and say they can't make a living digging coal at 45 cents per ton. About seventeen came to town and in a conversation with one of them we learn that the company's agent misrepresented things to them in order to induce them to come out here. The negroes say that they did not come out here to run wages down, but to raise them if anything. They have done no work in the mine to speak of, but sufficient to form an idea of what they can make.
