# But Struck a Rich Weekly Find of Silver.

A man who cannot find a gold mine and bring its rich yield into his daily stock of wealth, is very glad to strike a silver mine.

The man who strikes THE ONE CENT DAILY has got a gold mine of news for \$3 a year. But if he is not so situated as to get a golden harvest of news by daily mail, or to get mail two or three times a week, he can strike a silver mine and be in the name of, the entire Republican made happy.

SENATE.

It is assumed by many Republicans

that Mr. Simon of Multnomah county

will be president of the senate. The

press of the state has not discussed his

undidacy. Even the Oregon thun-

derer has maintained a profound silence.

The proper organization of the senate

is a very important matter and fraught

with vital consequences to the Reput-

lican party of Oregon, and at the risk

of seeming impertinent we venture to

Mr. Simon has the name of being an

admirable presiding officer. He is one

of the ablest lawyers and one of the

most astute political managers in the

-tate. He is a member of a law firm

as \$100,000 a year from salaries from

railway and other corporations. He

has twice been presiding officer of the

senate, an office easy to get with a

little wire pulling, as it only takes

eight or nine votes to get the caucus

nomination. But it is an office that

must be filled by the authority of, and

party, and so far as the people are con-

cerned by the authority and votes of

every senator. It is an office of im-

mense prestige and power. Four years

ago, when Mr. Tongue nearly defeated

discuss the subject.

WHAT IT MEANS.

The re-election of Dolph this year under present issues, circumstances and conditions means the election of a goldbug two years hence to John H. Mitchell's seat in the United States suffrage enate. It means the continuance of the club of millionaires to misrepresent the people at Washington. It means the forcing of similar tools of the Dolph machine to congress. It means the retention of our present

useless railroad commission and all ther useless boards and commissions and an extravagent national and state at Portland that has received as high militial to protect the Pullman's and other monopolists when they want to put the screws on labor.

> "Bringing in the sheaves" in the harvest season. To prepare for baking with Dr. Price's Baking Powder.

The tendency to a property and corporation aristocracy in our country is quite marked. Two legal phases of the present day are being carried to an excess. The one is the appointment of receivers on the alightest pretense, the

other the creation of trustees to evade the spirit of American law which is antagonistic to entails. Before long, unless a halt be called, the people will take up these questions in a legislative way and compel a reversion to earlier and wiser ideas and principles.

While money is going to be freely offered for votes by the senatorial ma chine, we predict not many will sell. It is not a popular thing to do. It is not a strife between Republican aspirants of equal merit or claims. But it is a square fight between Wall street, the corporations and the old machine by C. E. Averill. against the people. In such a contest, as clearly outlined as the sena'orial struggle is, there is little margin for selling votes.
