THE TRUST BOOK LAW. Lists of Books to Be Adopted for Six Years.

The state board of education has canvassed the votes on text books by county superintendents. The canvass as made by the state board exhibits the following results:

1.—Text books to be adopted for the following topics: Orthography, spelling, blanks, drawing, physical geography, rhetoric and composition and English literature. 2.—There has been no change in the following text books that are now in use, and they have been re-adopted for use in all of the public schools of this state, to-wit: Swinton's New Word Analysis, Barnes' New National Reader, Spencerian System and Copy Books, Fish's Arithmetics, Nos. 1 and 2, Brooks' Mental Arithmetic, Monteth's Elementary and Comprehensive Geographies, Smith's series of Primary text books in Physiology and Hygiene, Steele's Physiology and Hygiene for high schools and advanced schools, Barnes' Primary and Brief History of the United States, Loomis' series of Vocal music, Barnes' General History, Monteth's Popular Science, Robinson's Algebra and Geometry, Bryant and Stratton's system of Bookkeeping, Steele's Chemistry, Botany, Physics, Astronomy and Geology. 3.—The text books that have been changed are as follows: Maxwell's first book in Language, Introduction to English Grammar and Advanced English Grammar have been adopted instead of Barnes' Language Lessons, Mill's English Grammar and Clark's Normal Grammar, Peterman's Civ. Government, Oregon edition, have been adopted instead of Young's Class Book. 4.—The additional books adopted that may be used in all grades in the public schools are as follows: National Num. Tablets, 50 cent copy, Gow's Moral and Manners, Keit's Elementary and Vocal Culture, Johnson's National History and Historical series of text books for supplementary reading for primary and intermediate schools. For advanced schools and high schools the following: Geographical Reader, Irving's Sketch Book, Irving's Tales of a Traveller, Scott's Ivanhoe, Scott's Lady of the Lake, Scott's Abbott, Scott's Marmion, Scott's Woodstock, McCauley's Essay on Chatham, Shakespeare's Julius Caesar, Twelfth Night, Merchant of Venice, and Midsummer's Night Dream, Webster's Bunker Hill Oration, D's Coverly Papers, Arnold's Sobab and Rostom.

The result of all this will be to force people to buy high priced trust text books for six years to come and add about fifty new books to the official list, which will result in big profits to the publishers and prevent cheaper books or any and all competition in text books.

Last evening, at the annual meeting of the State Insurance company of Salem, the election of officers was the chief order of business. The election of directors resulted in the following gentlemen being chosen for the coming year: Edmund C. Giltner, Phil. Meteban, George Williams, B. C. Adams, E. B. McElroy, W. W. Thayer and Wm. England.

Upon the organization of the directors the following officers of the company were elected: Phil. Meteban, president; E. B. McElroy, first vice president; H. W. Cutler, second vice president; E. C. Giltner, secretary and manager; A. W. Giesy, assistant secretary and manager; George Williams, treasurer. The election of State Treasurer Meteban to succeed Dr. Rowland as president of the company is hailed as a good result.

Dr. Rowland tendered his resignation some months ago, and in securing a able man to succeed him to the presidency of the company is "in luck," as he is one of the few men able to do well all the time.
