A NOBLE FIGHT

An Eminent Southern Lawyer's Long Conflict With Disease.

Twenty-Five Years of Prosperity, Adversity and Suffering—The Great Victory Won by Science Over a Stubborn Disease.

(From the Atlanta, Ga., Constitution.)

Foremost among the best known lawyers and farmers of North Carolina stands Colonel Isaac A. Hoke, of Greenville, Pitt county, a man who has been on the edge of eternity and whose life has been measured by minutes.

"It has been twenty-two years since I became a resident of this town," said Colonel Hoke, in telling his story to a reporter, even then the first symptoms of gravel were asserting themselves but were slight. Gradually, however, my disease developed and fight it as I would it seemed to gain a stronger foothold day by day until my misery was complete. For sixteen years I never knew what it was to be free from pain, not pain as an ordinary man thinks of it, but agonizing, excruciating, unendurable pain. Tortured from head to foot, at times thrown into spasms, when it would require the united strength of four men to hold me until I was stupefied with stimulants and opiates. I could not sit, lie or stand in any one position but the shortest time. Sleep was out of the question unless brought about by the strongest opiates and stimulants. Oh how many, many times have I thought of putting an end to that life of suffering. But then my mind would revert to my wife, my children, my home, and I would restrain my hand with the hope that some other means of escape would be offered. I searched the archives of medicine for relief. Doctors were consulted, lithia waters, mineral waters, drugs, opiates and stimulants of all sorts were tried without avail. Why I went clear to the West Indies for medicine and yet the results were the same.

"I kept at my work as long as I could but nature gave way at last and I succumbed to the inevitable. My entire nervous system had been shattered by the stimulants and opiates I had taken, my blood had actually turned to water, my weight had dropped from 175 pounds to 125, and it seemed to everybody that the end was in sight. Why, I could not bear the gentle hand of my wife to bathe my limbs with tepid water. I was simply living from hour to hour. I had made my will, settled my business and waited for the last strand of life to snap.

"It was at this time that a somewhat similar case as my own was brought to my notice. This man had suffered very much as I had, his life had been despaired of as mine had and yet he had been cured. Think what that little word meant to me—CURED. The report stated that the work had been accomplished by a medicine known as Dr. Williams' Pink Pills for Pale People. I investigated the report thoroughly and found that it was true in detail. Then I procured some of Dr. Williams' Pink Pills and began taking them and began to get better. I began to sleep like a healthful child, sound, calm and peaceful. My appetite came back and my nerves were soothed and restored to their normal condition and I felt like a new man. But the greatest blessing was the mental improvement. I began to read and digest, to formulate new plans, to take interest in my law practice, which began to come back to me as soon as my clients realized that I was again myself. After a lapse of 16 years I ride horseback every day without fatigue.

"That Dr. Williams' Pink Pills saved my life is beyond doubt, and I am spreading their praise far and wide."

Inquiry about the town of Greenville substantiated the above facts of Col. Hogg's case, and that many others are being benefited by Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills for Pale People, are considered an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la Grippe, palpitation of the heart, pale and sallow complexions, that tired feeling resulting from nervous prostration; all diseases resulting from vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also specific for troubles peculiar to females, suppressions, irregularities and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. Dr. Williams' Pink Pills are sold by all dealers, or will be sent postpaid on receipt of price, 50 cents a box or 6 boxes for $2.50—by addressing Dr. Williams' Medical Co., Schenectady, N. Y.

DOLPH ON JUDGE LORD.

The Oregonian's daily attacks on Judge Lord because his name is mentioned as a candidate of the people, against the Oregonian's candidate for the United States senate, will do for that gentleman just what similar attacks of Harvey Scott did for John H. Mitchell—make him senator. The charge that Judge Lord's hearing is defective and disqualifies him for senator is too weak to be considered from a practical standpoint. Judge Lord is physically, intellectually and politically the superior of the Oregonian's candidate. The senate is a reading, thinking and voting body. Judge Lord's hearing would not prevent his voting right on great vital issues, such as the money question, bond issues and the Pacific corporations. He would not hear so badly but that, when it comes to serving a handful of bankers represented by Scott and Dolph and the great producing masses, he would vote right. Besides he could read the main facts and speeches and his message shows he is a vigorous writer and speaker and if he could not hear all that was said in the senate he could not make the senate hear the voice of the people of Oregon. But as he said, all the Oregonian talk about his hearing is a base deception. It is editorial prostitution for purposes of individual gain. Harvey Scott simply wants his personal lackey in the senate to misrepresent and oppress the people of Oregon.

This editorial is a reiteration of the unjust subterfuge to which Mr. Dolph resorted to get rid of Judge Lord as a candidate for the United States circuit bench and put a corporation attorney in that position. His first nomination was his brother, who declining it he then pretended to be in favor of Judge Lord, when he was, at the same time, urging the present incumbent, who was a railroad attorney, and the people have got, as a result of it, the quadrant decision which has turned out a large lot of settlers from lands which they had improved and cultivated, and made them and their families homeless. To get rid of Judge Lord the excuse was that he was too deaf for judicial duty when Mr. Dolph knew that he had been performing those duties for a dozen years acceptably to the profession and the people. Our readers will remember that the principal objection urged against Judge Lord before his nomination for governor last spring was that he could not be spared from the bench because of his superior abilities, legal training and experience. Not a word was said about his defect of hearing. That defect seems only to be known when some one has an axe to grind or wants to get him out of his way. It is always unkind, it always betrays a bad heart and a bad cause to be served when one's misfortunes or infirmities must be used as a millstone to drag him down in order to elevate some less worthy man. It is true that Judge Lord is dull of hearing; but he is not deaf. His defect of hearing has never operated as a disqualification in any position in which he has served, and it comes at this time with a peculiarly bad grace from Mr. Dolph—or, what is the same thing, his agent, Mr. Scott who is the mouthpiece. Judge Lord owns his defect of hearing in service for his country in its hour of need. Had he done like Dolph, when the war was raging, put three thousand miles between it and himself, he would not be suffering from that infirmity nor Mr. Dolph here using that infirmity to elevate himself. Our readers know the career of both of these men, and, knowing them, their representatives ought to put their foot on the man who would use the scars of an old soldier to elevate himself when he had not the courage to meet the enemy.

The choice, if forced between the goldbug and corporation lawyer of the Oregonian and the plain old soldier who stands for the cause of the people in this fight, the man who is endorsed by men of all parties, as against the man, who, after twelve years, is repudiated by the people of all parties, the choice for Senator between these two men will be Lord.

A feast worthy of Epicurus could be prepared with the aid of Dr. Price's Baking Powder. No pastry is perfect without it.

Representative Conn made a telestrike Friday night, when he attached the California mortgage tax law to the Burke revenue bill, which now makes that a nearly perfect assessment law. It should be passed at once as the Conn amendment makes the bill acceptable.

Open the rivers! There should be unbroken waterway communication from the Idaho line to the sea and from Eugene to Astoria. A new steamer on the river today is a hopeful sign.

McElroy and other Dolph managers are just now laboring hard with Democrats and Populists to induce them to lay nothing in the way of the machine candidate.

NEW YORK, Feb. 16.—The total deposits of gold at the assay office and sub-treasury, on account of the bond syndicate, up to the close of business yesterday, was $10,63700. Russell Stage withdrew $550,000 gold from the subtreasury and deposited the same with the Mercantile Safe Deposit Co. The steamship Umbria will take out tomorrow, 240,000 ounces of silver.

Fifty Cents Per Ton Lockage.

The popular steamer Altona gives prompt, reliable and efficient service on the river. The only boat to issue a time card and stand by it. Passengers and shippers always know to the hour when she will arrive. Her motto is: prompt transmission of freight, rapid transportation of passengers, courteous treatment, low and living rates, thereby meriting a fair patronage of the public.

A Common Sense Housekeeper.

No one is better qualified to speak in regard to what is useful in family life than Marion Harland. In her popular and valuable book, "Eve's Daughters or Common Sense for Maid, Wife and Mother," on pages 109 and 445, she says:

"For aching back—should it be slow in recovering its normal strength—an ALLCOCK'S POROUS PLASTER is an excellent comforter, combining the sensation of the sustained pressure of a strong warp band with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in obstinate cases, for perhaps a fortnight.

"For pain in the back wear an ALLCOCK'S POROUS PLASTER constantly, removing as it wears off. This is an invaluable support when the weight on the small of the back becomes intolerant."

Should be Looked Into.

THOROUGH INVESTIGATION REQUESTED.

A BOLD ASSERTION.

Ever since Prof. Koch startled the world by promising to cure consumption with the Koch Lymph and his complete failure to do so, the people have been looking for some discovery which would prove an absolute, certain cure for that dread disease. Over a quarter of a century ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, put to a claim for a medicine, which he had discovered and used in his extensive practice, that would cure ninety-eight per cent of all cases of consumption which taken in all its early stages. Time has proved that his assertion was based on facts gained from experience. His "Golden Medical Discovery" has cured many thousand people in all parts of the world and Dr. Pierce invites all interested to send to him for a free book which gives the names, addresses and photographs of many prominent people who have willingly testified to the marvelous curative properties of his "Golden Medical Discovery." He has also written a book of the pages on "Diseases of the Respiratory Organs," which treats of all Throat, Bronchial and Lung diseases, gives Authors and Extracts that will be mailed by the World's Dispensary Medical Association of Buffalo, N. Y., on receipt of six cents in stamps, to pay postage.

Consumption, as most everybody knows, is first manifested by feeble vitality, loss of strength, emaciation, thin local symptoms, some dyspepsia, or cough, difficult breathing, or bleeding from lungs, when investigation proves that tubercular deposits have formed in the lungs. It is earnestly advised that "Discovery" be taken early and the latter stages of the disease can thereby be easily avoided. To build up solid flesh and strength after the fever, pneumonia, "lung fever," or bleeding lungs, and other prostrating diseases, it has no equal. It does not make fat like cod liver oil and its many compounds, but solid, substantial flesh.
