THE DOMINION NEWS

Canadian Pacific Earnings Falling Off.

PLANS FURTHER CONFEDERATION.

Roseberry Preparing to Resign as Premier.

ST. JOHNS, N. F., March 12.—The goods for the relief of the suffering poor of St. Johns, which were brought here by the steamer Grand Lake, from Boston, a few days ago, have been landed and stored free of cost and are being distributed. The opinion of the committee in charge of the distribution is that the quality of the goods was never excelled in St. Johns. The amount for distribution in outports are being carried to their destination by the railroad company free of cost. The number of destitute families in St. Johns is increasing daily, and the report from outports are to the effect that the people in many localities are in utter destitution. A dispatch from a small settlement on the southwest coast signed by the parish priest, was received here today, stating that forty families were starving there and there was nothing to give them. The dispatch also asked that assistance be sent immediately. This same condition exists in nearly all of the eastern districts. There are about 2800 families in St. Johns and its suburbs in distress and are now being assisted greatly by the relief committee.

LONDON, March 12.—The Daily News, Lord Roseberry's organ, is silent as to the renewal of the tory rumors of the premiership resignation. It remarks today, however, that "Lord Roseberry will occupy shortly his official residence in Downing street, while extensive alterations are being made in his own house."

THE LITTLE LOG BOAT NO GO. MARSHFIELD, March 11.—The Gustaf Adolph II, the little log boat, did not sail Sunday, as was expected. The launching about 11 o'clock was witnessed by the steamer Yarrow and proceeded to the government jetty, followed by four excursion steamers, where the lines were cast off and Captain Broman and his little craft started out on his long voyage to San Francisco. The 500 or more excursionists were doomed to disappointment, for when almost down to the bar she drifted onto the sand spit and there she still is high and dry.

OTTAWA, Ont., March 12.—Another acute stage in the Behring sea difficulty is engaging the attention of the British, United States and Canadian governments. Since the refusal of the American congress to vote the compensation agreed on, the Canadian government has been urging the home authorities that the indisposition of the United States to carry out the understanding justifies the refusal of Great Britain to assent to the enforcement of the restrictions upon sealing during 1895. So far no answer has been received to the representations. About this time last year a similar difficulty arose, when through the delay of the great powers interested, it began to look as if the award would not be enforced in the approaching season. At that time Senator Morgan, chairman of the senate committee on foreign affairs, made a bold declaration that in his opinion no change would ever be made by the United States. Though the government of the Republic is still declaring its desire, that the lump sum of \$450,000 agreed upon should be paid over, the action of congress is a plain intimation that Senator Morgan's views hold good with those who hold the strings of the national purse. Whether Canada is to be compelled to live up to her portion of the award while the United States refuses to be bound by the part which applies to it, is a question which is bothering the diplomats of the nations concerned.

CONFEDERATION. ST. JOHNS, N. F., March 12.—The New Foundland government is daily holding sessions for the purpose of considering a plan of confederation, but it is expected that a delegation from here will go to Canada by the next steamer to submit the terms from the dominion.

EARNINGS REDUCED.

MONTREAL, QUEBEC, March 12.—The Canadian Pacific railway earnings for the week ending March 7, were \$264,000. For the same period last year, \$308,000. This is a decrease of \$44,000.

ENGLISH PRIZE FIGHT.

LONDON, March 12.—At Central hall, Holborn, Slavin defeated Craig in one round. The hall was crowded when Slavin and Craig entered the ring at 9:00 p. m. and were received with much applause. When time was called both men sprang cautiously for fully thirty seconds, and then Slavin got home lightly on the head. This led to a rally, during which Slavin got in a couple of heavy blows on Craig's ribs. On breaking away, Slavin swung with his right, and catching Craig with the back of his fist on the jaw, knocked him down and out. The sudden conclusion of the battle, which lasted barely two minutes, created great excitement among the spectators. Charley Mitchell and Ted Pritchard acted as seconds for Slavin and Craig's interests were looked after by Jim Bevan and Bill Natty. Vize and Corrie respectively acted as referee and timekeeper.

ROSEBERRY WILL RESIGN.

LONDON, March 12.—The Daily News, Lord Roseberry's organ, is silent as to the renewal of the tory rumors of the premiership resignation. It remarks today, however, that "Lord Roseberry will occupy shortly his official residence in Downing street, while extensive alterations are being made in his own house."

THE LITTLE LOG BOAT NO GO.

MARSHFIELD, March 11.—The Gustaf Adolph II, the little log boat, did not sail Sunday, as was expected. The launching about 11 o'clock was witnessed by the steamer Yarrow and proceeded to the government jetty, followed by four excursion steamers, where the lines were cast off and Captain Broman and his little craft started out on his long voyage to San Francisco. The 500 or more excursionists were doomed to disappointment, for when almost down to the bar she drifted onto the sand spit and there she still is high and dry.

The Gustaf Adolph II was built here by Captain Gustaf Broman. In an interview, Captain Broman said if he met with southeast winds, which are too severe, he would change his course and sail for Portland, but he thought he could successfully beat down against any southeaster. He intends to keep reasonably in port, so that in case of anything going wrong with his company, he can make a port for repairs. The boat is made out of a white cedar log, and has a 12 foot keel, three-foot beam, two foot depth, and is thirteen feet six inches over all. The boat is provided with four compartments, or holes, forward, and one aft, which were dug out of the solid hull of the vessel, and which are used for water and provisions. She has one mast and is slooped rigged, but on arrival in San Francisco she will be refitted with three masts, as a full-rigged ship. She has a steel center board, that measures about two feet wide by three feet long and weighs about 110 pounds.

Mr. Urub, of Multnomah, has patented a crank for bicycles, which will materially affect the usefulness of cycles and may make Mr. Urub a rich man. It automatically adjusts itself from a 2 inch leverage to a 3 inch leverage for uphill work, which is a great advantage.

RIOT AND BLOODSHED.

The Race War Continues Amid Great Excitement.

THE POLICE FORCE POWERLESS.

White Laborers Are Armed With Rifles.

NEW ORLEANS, La., March 12.—The levee from Louisiana avenue to Mandeville Street is in the hands of an armed mob. The police are powerless. The white men are completely in control and have declared that no negro shall appear upon the levee front. All work on the levee is practically at a standstill. Rioting and bloodshed began this morning at 7 o'clock and resulted in the killing of two men and the wholesale discharge of firearms in two sections of the city. Everything was quiet when there came a message that a dozen men had been killed in front of Jackson square and that a terrible riot was in progress. The police were at once hustled into patrol wagons and hurried away. They had barely gone when the sergeant, Richard Walsh, in command of the precinct, heard a volley from the levee in front of the station. He rushed to the scene among freight cars. Between Phillip and First streets he found a crowd of negroes surrounding a wounded companion. The man's head was covered with blood. He had been shot in the mouth. The negro who Those about there declare he was organizing the levee and found a mob of 250 men, armed with Winchester and other guns. They marched along the levee to Eighth street and then back on Chopitoulas street to Jackson and dispersed, according to what seemed a pre-arranged plan. At Washington street they were accosted by Sergeant Walsh, who recognized that one man. Among the leaders was Walter Owens.

FOUR ARE DEAD.

NEW ORLEANS, March 12.—It is positively known that four negroes are dead. Of these three are unknown. The fourth is A. Caribbean. At the hospitable are eight wounded. Of this number two are dying. Mr. Bain, purser of the British steamship Engra, who was shot, is being cared for on board his vessel. His wounds are pronounced dangerous. The captain of the Engineer threatens to make the shooting an international affair. Later reports are to the effect that at least two negroes were shot and jumped into the river. They are still reported missing. Further trouble is expected. The governor has been telegraphed to for military aid.

\$50 A DAY.

That is what it is costing to revise the journals of the house. Three members and two clerks are employed at \$10 a day each under a resolution offered by Harwood of Lane. Heretofore this work has been done in a time limit of ten days and cost a great deal less. In the senate no provision was made for any pay of the senators who merely sign the final report on the revision.

Mail Steamer Fired Upon.

New York, March 12.—While the American mail steamship Alliance was proceeding from Union to New York she was chased and fired upon by a Spanish man of war. No doubt prompt demand will be made on the Spanish government for an explanation of the insult and reparation for the attempt made to stop the American mail steamer in the high seas in time of peace.

COMPARED TO ALLISON.

Following is from the Daily Iowa State Register, conducted by one of the Clarksons, Republicans of world-wide reputation:

Senator McBride of Oregon, who succeeds Senator Dolph, is spoken of by Iowa men in that state, as a man very much like Senator Allison of this state. He is also spoken of as a scholar, a gentleman and a man of literary as well as political tastes. He is kind and affable and full of good fellowship; a warm friend and inclined to draw near to the people. He is a Republican of unstained record and untainted faith. On the money question he is a bimetalist in the Republican sense, and not the radical man some have tried to make him out to be. Senator Dolph is a man of great abilities and his record has been in many respects consistent and courageous, but he seems never to have been very popular with the masses, as he is naturally proud, distant and austere—qualities that are not prized in the long run. Senator McBride has many warm friends in Iowa and other of the great middle western states, as well as in the east and will stand well in the senate for a new man.

WHEEL AND SPORTING NOTES.

A woman's athletic club is being organized at Tacoma. Bicycle clubs are being organized in nearly every town in the valley. Compressed air brakes is a new feature on many of the wheels. Chicago and Topeka, Kansas, are talking of taxing all bicycles \$2. W. A. Eberly and Dr. Miner, both of Tacoma, will shoot 50 birds each for \$75 aside. The Tacoma Cycling club is contemplating a relay race to Olympia on Decoration Day. At Sprague a bicycle club has been organized and bloomer costumes will be worn by the ladies. The Howard-Wallingford \$50 a side bird shoot will give the victor \$100 and gentlemen are Seattle crack shots. Wheelmen who want to make tours of a week or more in Western Oregon for pleasure, health and business combined, can learn of something to their advantage, safe, sure, quick and good by writing THE JOURNAL.

Katie Not Found.

TACOMA, March 12.—Katie Hackworth, the pretty 14-year-old daughter of Mrs. A. C. Arper, of Seattle, has been missing since Wednesday. For two years she lived at the Children's home in this city and became much attached to Matron Harrie. About January 1 her mother, having remarried, took her home. Wednesday afternoon Katie started to school in Seattle with another girl, but was handed a note, after reading which she said she had been called to Tacoma. Nothing has since been seen of her. Mr. and Mrs. Arper have been searching for her, and the police are on the outlook. The girl is well developed, being large for her age.

Smuggler "Jack" Forbes.

TACOMA, WASH., March 12.—The attorney of "Jack" Forbes, the alleged smuggler, made a vigorous attempt to have the \$2000 judgement against his pondman set aside. It was entered last week because Forbes was absent when the jury came in with the verdict of guilty, thereby causing a mistrial. Judge Hanford said that the judgment would stand unless the bondman pay \$500 into court promptly to cover the expenses of a new trial. In that case he would vacate the judgment.

Blameth Falls has a newly organized brass band. The leader is Mrs. Hauke.

J. H. McFall of the City Beach, dined at Bonanza on Washington's birthday night with a broken sabbie.

MOST HORRIBLE CRIME

Crazy Sailor Brown Kills His Wife.

HE PROCEEDS TO MURDER HIMSELF

Other Northwestern Criminal Occurrences.

SAN FRANCISCO, March 12.—Early this morning Harry Brown, a notorious water front character, known as "Sailor" Brown, murdered his wife and then shot and killed himself. Both were dead when found. Brown is believed to have been crazy. Though possessed of considerable wealth, he had lately been laboring under the hallucination that he was soon to lose it all and it is thought this fear drove him to commit the terrible crime.

After His Scalp.

SEATTLE, March 12.—Collector of Customs Saunders is investigating charges against his statistical deputy, Stephen House, preferred by Special Treasury Agent Bean. When Bean came here on his inspection tour he recognized House as a man who had been indicted five years ago, in Idaho, for cattle stealing. House admits having had trouble with the Mormons about horses, but says that he rounded up a bunch of horses and when he found some of them that did not belong to him, he turned them loose. His friends say that Bean is actuated by personal feelings, growing out of his own wrongs. House procured his indictment on trumped-up charges, out of revenge for his co-operation with Senator Dubois, then United States attorney, and with his brother-in-law, the United States marshal, in prosecutions for polygamy; also because the Mormons wanted to get possession of valuable water rights House owned. House is the only Republican remaining in the Puget sound customs service, and has served under the two preceding Republican collectors, his services being highly valued.

Chiu Yin a Murderer.

PORTLAND, March 12.—Gin Sute, the Chinese janitor who was cut by a fellow-countryman near the corner of Second and Alder streets February 23, died from the effects of his wounds at the Good Samaritan hospital soon after 1 o'clock this morning, and his remains will be turned over to the coroner at once. Chiu Yin, who is accused of cutting Gin Sute, is now locked up at the county jail without bail, and a charge of murder will probably be preferred against him today. He was arrested in a gambling-house close by the scene of the crime, and immediately after it was committed, by Captain of Police James and Officer Couch, who followed him to his hiding-place and caught him still red-handed. Chiu, however, stoutly denies his guilt, even in the face of the dying statement of his victim made about a week ago in the presence of the prisoner and his attorney, and a district attorney. At that time Gin Sute positively identified Chiu Yin as his assailant. The crime was a most cowardly one. The victim had just emerged from a shop where he had purchased some victuals when Chiu sprang at him from a doorway and plunged a knife into his back with sufficient force to sever two ribs. The wounded man was very well known down town, where he had worked as a janitor.

Highest of all in Leavening Power.—Latest U. S. Gov't Report. Royal Baking Powder. ABSOLUTELY PURE.
