TUEBDAY, MARCH 12, 1895.

FOR YAQUINA HARBOR

Congressman Hermann has introduced a bill in congress providing for the appointment of a board of engineers to consider and report on a new project for deeper water on the bar of Yaquina bay in Oregon. The bill provides that the president of the United States is hereby authorized to appoint a board to consist of three officers of the engineer corps, not below the rank of lieutenantcolonel, who, together with the chief engineers of the United States Army. shall make a careful and critical examination of the bar of Yaquina bay lo Oregon, with a view to a project for deeper water, and shall report the resuit of such investigation, with estimate of cost, to the next regular seslow of congress: Provided that such selection of engineers shall be from those not stationed or the Pacific coast And provided further, that the cost of said investigation and also surveys and fine expenses of said board shall be de frayed from the balance of money available of the appropriation madfor improving the harbor at Yaquina bay in Oregon, by act of congress of August seventh, eighteen hundred and ninety-four,

Mr. Hermann will work hard to secure the passage of this bill in the congress that meets next December.

Mr. Hermann, from the Committee on Rivers and Harbors, submitted the following report:

The Committee on Rivers and Harbors, to whom was referred the bill (H. R. 8938) providing for the appointment of a board of engineers to connider and report on a project for deeper water on the bay of Yaquina, in Oregon, having considered the same respectfully report as follows:

That the project of 1888, as modified in 1892, requiring the north jetty to be raised to full high tide, and that five groins be built from the south jetty channelwards in order to preyent the corrects undermining the jetty, is nearly completed, and it has found that said project has produced a depth of 14 feet at low water on the bar at the entrance to the bay, and this bar depth and location of channel has been kept uninterruptedly during the entire year. should be provided on the bar, with a view of accomodating the deep-draft foreign shipping which is now offered additional inducement to enter, by boom it for all it is worth. cantward of the Oregon Pacific, which it is proposed, under the new manage. Creek haptized 9 persons last week, the drogen and 16 times as much as oxyment now about to assume proprietor. result of two weeks of revival work. ern terminus on the water of Yaquina seven cents net.

to the great Willamette valley, as to \$5000 and \$6000. justify and imperatively require deeper water than has so far been obtained by the existing project. The bill now ommended proposes a board of three recommended proposes a builted States subtineer officers of the United States army, under the grade of lieutenantonel, to be appointed by the presitops, and such engineers, shall make a thorough examination and survey, and sport a project, with an estimate of A 100,000 box order for the Alacks.

It is the opinion of your committee nable ships engaged in foreign ship- tion. ing to enter Yaquina hay without angur or delay, regardies of a further very much interested, and will give tention of the present jetty works, of with this view your committee reper anid bill (printed a boye) back to mbouse with a recommendation that

CORPORATION SENATORS.

It is announced that John M. Thurstop, of Nebraska, resigns a salary of \$12,000 a year as attorney for the Union Pacific railroad to accept a salary of \$5,000 as a member of the United States eenate. Ex-Senator Dolph, of Oregon. would doubtless think that this was a foolish thing to do. He served the railroads more effectually in the senate than out of it.-Seattle Post-Intelli-

Thurston like Dolph took the people's salary, honor, position and influence and uses it to serve corporate power, against the encroachments of which he takes au oath to protect the

The Seattle P.-I. is a staunch Republican paper. It no doubt sees that until every vestige of such political diselicity and misrepresentation of the people is wiped out the corporations will run our country and the people will be their slaves.

A GOOD MOTTO.

Under its new management the Eugene Register has undergone quite a

"The Register, under its new mangement, will endeavor to follow out he principals on which it was estatished eleven years ago, and which ave been followed incessantly. "O: he people, by the people and for the eople," is the motto that has always tood at the head of this paper. It is ot original, but was borrowed from he wisest and most adored heads this country ever saw. Those words express a great deal to every American atizen, and we wish to follow the seniment in them expressed, in our busiuess, in our politics, in everything,"

The new men who have taken charge of the Register have the right idea of a newspaper. The whole idea of working the public for personal plunder and working politics for what there is in it, is at the bottom of bad government.

THE DISCOVERY OF ARGON.

Soincidences Connected With the Experiments Made by Scientists

Professor Ramsay explained in an interview last week how he discovered argon, the new element in the atmosphere which is now exciting the wonder of the scientific world. He said: The impulse came directly from Lord Rayleigh. He was much impressed by the fact that atmospheric nitrogen was heavier than chemical nitrogen. This might be due to an admixture of lighter gas with chemical nitrogen or to the presence of a gas of a greater weight in atmospheric nitrogen. Lord Rayleigh was inclined to the former explanation, and some four years ago be consulted me bout the manufacture of chemical ni-

"I regarded the second explanation as the true one, and after he had been experimenting for some time I asked his ermission to make experiments on my wn account. He never hesitated to accord his consent, and I set to work. It was dreary waiting for results that never came, but there were times of high excitement as my suspicions became probabilities, and probabilities grew into triumphant certainty. At length, in July last, I was able to send Lord Rayleigh three onness of the new

"He replied at once. He also had some of the gas. Our investigations, conducted independently, had led to simultaneous success, as has been the ease with so many discoveries and inventions. There was still another coincidence a little later. As soon as we got the gas we wanted to find out its nature. Was it a chemical combination or a mechanical mixture? Was it monatomic or diatomic, simple or compound? Professor Olszewski of Cracow was experimenting with it in communication with ma. By the application of herde rose to heat through intermolecular motion. We made out that argon was monatomic. I wrote the news to Cracow. My letter had hardly gone when I received to Wm. Davidson, and the latter will a communication from my confrere. He constomic nature of the new gas, but for another reason. gen. He had expected the heavier gas to liquefy at a higher temperature. To aton, and that was argon was monatom-But it was curious that letters announcing the same information should cross."-New York Sun's London Cor-

AN APPEAL ON WALL PAPER.

Getting Out the Edition of a Newspape Under Trying Conditions.

A recent issue of the Callaway (Neb.) Tribune was printed on wall paper and contained the following explanations: "Aid is being sent here for the farmers, but we can't besse on aid, flour or a piece of side meat, and having run all our white paper through we are using up the wall paper given us, which is ed for seven years. So we ask our brother printers to consider our elimation with a family to support, with nothing poming in, and we know their ever gen erous disposition will see some way to contribute a little paper or a coupl hours' work to keep my paper going for the good is will do the nutside world in telling them how this afflicted, drough stricken district is getting along; also to enable us to gut shous and proper wraps for our wife and four children. All communications will be chesefully answered and any donation will be acknowledged In the press, whether for us or to be divided with other printers in this dis-Arint.

NEWSPAPER.

Prospectus of the Salem Capital Journal.

The One Cent Daily and the \$1 Weekly.

Strongly and Aggressively on the Side of the People.

THOMAS. WATT & CO., This is Not the Goldbug Organ From Goldbugville.

A Program of Earnest Reforms on Great Public Questions.

THE JOURNAL is a Republican paper, but it independently advocates the interests of the people at all times. It places the public welfare above party interests, and believes thereby it serves its party and the people best.

A LEADER IN THE FIGHT.

For two years The Journal has led in the fight for a new leal. THE JOURNAL has been a leader in the fight against ring olitics and the corrupt methods of the old machine. It is a ecognized champion of the people's interests on the Pacific orthwest. It fights its battles consistently within practical imits, and wastes no time or space on impracticable theories. t is not pessimistic, but firmly believes in the capacity of the eople for self-government when acting intelligently and fully roused to the necessity of so doing.

NOT A GOLDBUG FROM GOLDBUGVILLE,

A young lawyer in the legislature, who is still voting for Dolph, boasts that he is a "Goldbug from Goldbugville." He must be strangely ignorant of the temper of the people of Oregon, who have very little use for a Goldbug of any kind. But his remark is evidence of considerable courage of an insane kind, because the man does not live who can go before the American people anywhere, declaring that he is opposed to any kind of money other than gold for purposes of ultimate redemption of debts, and receive an endorsement.

FOR FINANCIAL REFORM.

THE JOURNAL advocates a national monetary system, uncon-Union Pacific System trolled by corporations:

"One Country, One Flag, One Money" should be The watchword of this, the land of the free. One money that's good for the rich and the poor, One standard of worth, no matter its name, Be it gold, silver or paper, 'twill ever endure If stamped by the nation and backed by its fame ! One money for all men! Let that be the best,

Box Be it paper, or silver, or copper or gold; For the northland, the southland, the east and the west It should by the people be held and controlled.

THE JOURNAL is not a bourbon organ of the Wall street stripe, nor a partisan paper for bankers only. It does not believe in gold alone as the only means of ultimate redemption. We need gold and silver coined on equal terms and abundant national paper currency. Our country must pay all its obligations according to the terms of its contracts, but no more public obligations must be created payable in gold only.

In addition to all the gold possible in circulation, silver must be restored to its rightful place as primary metal currency where it had stood for over eighty years before it was fraudulently demonstized in 1878. It was the regret of the Patriot President Grant's life that he allowed that bill to become a law, and it is the duty of all patriots to labor to repeal that law at the earliest moment. Our country should not wait for an international bimetallic conference with England, Ger-NORTHERN RY. PACIFIC RY. many or any other country controlled by the Rothenids, we should remonstize silver at once as legal tender money. many or any other country controlled by the Rothehilds, but

THE CRIME OF 1878

in surreptitiously repealing free coinage 16 to 1 is only surpassed, in its depressing and devastating effects upon the procome summers remains a surprise of ducer, by the plutocratic policy of the present administration which insists on contracting the currency by retiring with gold bonds over 800,000,000 of paper money, redsemable in gold or silver, at the option of the government. The policy of Prosident Cleveland in horrowing gold of England to redown silver certificates, which by law are specifically redormable in silver only, caps the chines of the financial conspicacy that is oppressing the masses so that ventably they are making bricks
