MEN'S AND LADIES' TAN SHOES.

Many new styles and novelties arriving at Krausse Bros. See them before making your purchase. They can please you in price, style and quality

IT IS THE THING.

Push it along. That's easily done as the public want it. Our shoes are a go, because they have the wear. Pedestrians find our footwear a study in ease and comfort. Walking, standing or sitting, you feel at home in a pair of our shoes. We believe in having shoes to fit the feet instead of squeezing the feet to fit the shoe. The fit of our shoe is as exact as a square, the adjustment to the foot as comfortable as a moccasin, and the quality and durability superior to any other footwear obtainable in town. Our shoe prices leave competition out of sight.

Yours respect fully,

NEW DANGER ARISES.

Gold Reserve Threatened From a New Quarter.

THE JAPANESE WAR INDEMNITY.

Should Gold Be Demanded Our Supply Would Vanish.

NEW YORK, March 21.—Special telegram.—A new menace to the financial system of the United States has suddenly come into being. The price of silver advanced 1 1/2 cents an ounce, following a similar advance in London, due to the beginning of hoarding here and abroad in anticipation of immense financial transactions when China begins to pay the war indemnity demanded by Japan of \$250,000,000 or \$300,000,000.

Will China have to pay in silver or in gold? In whatever coin, the effect upon the United States will be immediate. If gold is demanded it is feared that the rate of exchange in London will suddenly shoot up, and the treasury will be subject to a new and greater drain than any in its history—a drain that Morgan and Belmont will be powerless to stop.

Financiers with world-wide reputations, such as the Rothschilds, and the great Berlin, London, and Paris banking houses, have already begun to figure on the great profits of handling such a loan to China. One courier, Chester Holcomb has already gone forward from this city. It is generally understood that he has gone as the agent of a London banking firm. In Wall street it was announced that Charles S. Drummond, the investment agent of Baron Erlanger's banking house in Germany, had been asked to go to the East for his principal.

Long-headed financiers in Wall street see the possibility of some very important results when this big war debt to Japan comes to be paid. Japan may propose to sit in the Chinese custom houses, and by import and export duties, help herself. England will at once object and proffer to accept a Chinese and advance the cash. If it is to be silver in payment a squeeze throughout China may produce it, but a demand for gold by Japan will direct attention instantly to the one source of open gold supply in the known world, the United States treasury. There is not today a civilized nation which has such a vulnerable deposit as that which exists in this country, and it would be to the subtreasury in New York city that the English bond holders would turn for the yellow metal to enable China to meet her obligations to Japan, just as Austria helped herself by a slight commission paid the exporters when she was building up her gold base, and just as it is believed other governmental war chests of Europe have been filled at the expense of America in similar fashion. It is not unlikely that Japan will insist upon the advantage of having good official supply of gold in her ambition to take her place among the civilized nations, and will also the opportunity to get it. This might be done even without disturbing the silver business method of the Orient.

Reports of cargo shipment from the eight principal cargo mills of the state of Washington for the month of February show that a total of 4,490,240 feet of lumber was shipped to foreign ports and 14,410,592 feet to domestic ports, making a total of 18,900,832 feet of lumber. In addition to this there were shipped 1,573,530 lath, 200,000 shingles and 538 spars.

J. L. Castle has 500 head of sheep near Corvallis ready to market in Portland, and will probably start with them this week. Although there is a railroad to Portland, the entire band will be driven. It only costs 10 cents per head to drive them, and it costs over 30 cents per head to ship them by rail. Over 5000 head of Benton county sheep were marketed in Portland last season, and of the entire lot only one carload was shipped.

One day, last week, as the South Bend train was running from Chesham to Centralia, a load of cayuses ran ahead of the engine till they reached a 30-foot trestle, which they attempted to cross. Only one succeeded, though it went down several times. The others stuck fast, three of them in a bunch, ahead and between the rails. The crew, with the aid of a mass of passengers, among whom was Professor Glasgow, the horse-trainer, worked for an hour carrying fence posts and planking the trestle and then lifting the cayuses bodily out of the trestle and landing them safely. All were eventually rescued, with no broken limbs, though badly bruised and strained. Trains were delayed an hour.

CONTRACT LABOR LAW

Relied Upon to Shut Out Diamond Cutters.

IT IS NOT A NEW INDUSTRY.

Senator Thurston Gets a New Receiver for the O. R. & N.

NEW YORK, March 21.—One hundred and twenty-five diamond cutters arrived today on the Majestic, from Liverpool. They were detained and sent to Ellis Island, suspected to be contract laborers. They will be given a speedy examination, and those who are proven to have come under contract will be sent back in accordance with the decision of Secretary Carlisle last Saturday, that diamond cutting was not a new industry.

Thurston's Man Appointed.

PORTLAND, Or., March 21.—It became known today that Judge Gilbert of the United States circuit court has appointed John M. Egan receiver of the Oregon Short Line and Utah Northern Railroad to the approval of Judge Sanborn of the district of Wyoming. The proceeding came as a surprise.

The Armenian Massacre.

LONDON, March 21.—A special reporter of the Daily News has reported on his inquiry into the Armenian outrages. He says:

"There is abundant evidence of the bloodiest, most fiendishly and damnable perpetrated massacre of innocents. This I intend to prove, out of the mouths of the perpetrators themselves."

The correspondent sends from the Russian frontier, under the date of February 28, the story which he elicited from a Turkish noncommissioned officer. This officer, acting under orders, shared in the slaughter. He described the revolting horrors at great length. The correspondent says:

"He has now left the army and has fled to Russia, where he is persecuted by the infinite horror of his own thoughts and is dying surely and rapidly. I questioned him three hours, in the presence of responsible witnesses. I was deeply impressed with his resigned melancholy and invincible despair. He said that throughout the fighting he never heard of a single soldier being wounded, much less killed. Many Kurds were killed, however, especially in the earlier days of the affair."

Snow Storm in the East.

ST. LOUIS, March 21.—The snow storm in this vicinity has been general during twenty-four hours. Reports from southern Missouri and Illinois show that the storm has been severe in those sections. Columbus, Ind., since this morning a heavy snow storm has prevailed. The snow is six inches deep, and is drifting. At Perry, Ill., a steady northwest gale, with blinding snow and minute particles of ice, is blowing at the rate of 42 miles an hour. Snow has drifted three and four feet in places, and business is practically suspended.

The Red Canyon Disaster.

EVANSTON, Wyo., March 21.—It is now figured out from the company lists and pay-rolls that sixty-one men perished in the mine disaster at Red Canyon, Wyo., yesterday evening. Seven were killed on the outside. The greater part of the men who perished are covered with debris at the seventh level, where they were gathered awaiting the main trip. Work is being pushed with all possible speed to uncover the dead.

WOMAN'S PETITION

Presented to the Utah Constitutional Convention.

SALT LAKE, March 21.—Following was presented today.

To the honorable president and members of the constitutional convention of Utah. GENTLEMEN:—We, the undersigned delegates, in behalf of the women of Ogden city and Weber county, beg most respectfully to memorialize your honorable body, and ask that the action of your honorable committee on elections and suffrage, in reporting favorably on the right of suffrage, and equal rights being granted to the women of Utah, be sustained, and that the article adopted by said committee be incorporated in the constitution by the unanimous vote of the convention.

Both political parties, in their declaration of principles last fall, pledged themselves to grant full suffrage to women, and we feel assured that you will honor the pledge thus made.

Our great Creator has endowed women with the same attributes and power of mind possessed by man, hence her right to equal privileges and opportunities under the laws and in the government of a nation of which she is a member. Woman has been denied her right in the past, but toward the close of the Nineteenth Century her rights, her merits and her worth are being better understood and appreciated, which is evinced by the fact of suffrage being granted her in many states in the union, as well as some parts of Europe. And it will, beyond all question, reflect great credit and honor upon the framers of the constitution to provide that the mother, wife and sister shall have a voice in the conduct of the state of Utah equal to father, husband or brother.

We claim we are loyal to our government and our country; we love and honor its flag and its constitution. Give us an extended opportunity to demonstrate and furnish proof that our professions are sincere and true.

We claim a share and interest in all the greatness and glory our country represents.

A few men argue—but their numbers are diminishing every year—that politics are corrupt and that women will be defiled and injured by engaging in them. Experience in Wyoming and other states does not sustain this view, but, on the contrary, it is claimed that there is less drunkenness, immorality, less vice and crime, and that there are fewer criminals, according to the prison records, through the presence and influence of women in politics, than formerly, and that her efforts and example in the paths of sobriety and honor tend to purify the political atmosphere, to elevate man and not to lower woman.

With these facts briefly referred to before you, gentlemen, we feel that the most careful and scrupulous, and even the somewhat credulous, will do no violence to their feelings or any harm, but good to their state and country to grant our prayer, while we are thoroughly satisfied that the great majority of your honorable body will gladly and cheerfully do honor to the women of Utah by keeping inviolate the pledges of your respective parties.

Buried Under Dust.

SOUTH END, O. T., March 21.—This section was visited by one of the most remarkable storms in the history of this region. From 4 in the afternoon until 2 yesterday morning the wind blew 50 miles an hour from a north-westerly direction, filling the air with sand and dust, causing a complete suspension of travel and doing serious damage to property. Wheat and vegetables in the sandy lowlands are now hidden from view under several inches of dust.

Two Hard Sentences.

BUFFALO, March 21.—Sadie Robinson was, today, found guilty of manslaughter and Clarence Robinson guilty of murder in the second degree for killing Montgomery Glick. Robinson was sentenced to life imprisonment, and Sadie to twenty years imprisonment.

An Accident.

ANTONIA, March 21.—Henry Grule, proprietor of the Fayette saloon, was accidentally shot and instantly killed, by a friend named Leopold Gassenberger, while snuffing over a revolver. Grule was shot through the right side of the breast and expired without a word. The dead man was a member of several civic societies.

A RACE WAR IN CUBA.

A Negro Detachment Massacres Spaniards.

ESCAPED MURDERER RECAPTURED.

Blank and Other Jail Breakers Still at Large.

NEW YORK, March 21.—Special to a morning paper from Nassau, New Providence, says: "Additional news continues to be received from Cuba of insurgents' victories in the east. The latest and most startling yet received is that Guiller Moncada, a negro leader of a band near Guantanamo, is one of few men who want to turn the revolution into a race war. It is also reported that Moncada surprised a large detachment of Spanish troops near Guantanamo recently and completely routed them. In this battle it is said 200 Spaniards were killed and wounded. This was followed by cruel and inhuman treatment of the Spaniards by Moncada's forces. There was but one white man in the Moncada detachment. After the battle he ordered this man to leave the camp, saying the whites had failed to free Cuba in the last war and now independence would be secured by the negroes.

Negro Murderer Retaken.

SEATTLE, March 21.—Sheriff Hagan of Snohomish county, captured William Holmes the escaped negro murderer, near Snohomish this morning. Holmes was one of the men who broke the county jail with murderer Blank and others. Late news last night from Snohomish was that Willie Holmes, the negro murderer, was seen on the Lake Shore railroad at 6 o'clock, and after begging food of the section men, started toward Cathart, some distance north. About 100 men took after him.

Mine Explosion.

SALT LAKE, March 21.—A special to the Tribune from Red Canyon via Almy, Wyo., says:

Number 5, Central Pacific mine, blew up at 6 o'clock. Four men were killed in the engine house and fifty or sixty more are shut in the mine.

The dead, as far as recovered, are: James B. Bruce, mine foreman and ex-county commissioner of Uintah county, Wyoming; William Sellers, Jr., rope runner; James Clark and Edward Cox, head air putters; O. B. Malby, superintendent of motive power, and Jerry Crawford, a boy.

All were killed by flying timbers. From 25 to fifty were in the mine at the time, and they have not been rescued and are certainly dead. About 150 men are employed at this mine and most of them had gone out.

Among those in the mine thought to be dead are, William Brown, John Fears, Samuel Thomas and son, Mr. Burton, Samuel Hutchinson and Wm. Sellers, Sr., and son. The covering of the stop and buildings at the mouth were blown to splinters. The mine was considered one of the safest and best conducted in the state. Eight men have been brought out of the mine so burned as to be past identification, with the exception of one, James Labou. All hope of rescuing anybody alive is given up. The death toll now numbers eleven.
