

THE RIGHT KIND OF TALK

The editor and publisher of the Cottage Grove Leader is a man who has had eight years practical experience in planting, cultivating, raising, packing, selling and shipping small and large fruits. He does not talk through his hat when he writes about the great fruit industry and progressive methods of diversified farming, and says: "The day has long since passed when every farmer can afford to raise grain to ship for a living. Too many new grain producing territories are being annually turned into raising grain by cheap labor. The grain producer of Oregon and the great Pacific coast country must feed a large portion of the grain on the land where it is produced. Grain must be converted into beef, mutton, bacon, lard, butter, cheese, poultry and eggs. With the coming of the railroad and the shriek of the iron horse, rolls in the irresistible wave of progressive farming and the newer and more thorough cultivation of fruit with which to supply the markets of the world. With the railroad comes the great wave of higher, more far reaching and grander, fuller and more complete factor of civilization. The period of native grass stock producing with the scales and pleasure it brings, with but little effort and poor management, has passed forever."

THE INSURANCE TAX

Another disappointing bill, when its features are fully understood, will be the insurance taxing bill. Most newspapers and its verbal advocates seemed to think and convey the idea that the new bill would raise a large amount of revenue to go into the general fund of the state and help to lessen the tax; that it would realize a big sum from the foreign insurance companies, much to the advantage of Oregon generally. Well, it is a good deal of soap bubble. The change from the old law is very slight, so far as aggregate amount is concerned, and not one dollar of the sums collected will go into the general fund. The provision of the old law remains which places it in the permanent school fund. The total amount collected the past two years from insurance tax was \$5,812.71; the new law doubles the rate, hence, should the business keep up the total amount for the current biennial period would be \$11,624.42—Baker Democrat.

Dartmouth Professors

Called it incurable. "I had a painful ulcer on my ankle, which physicians called an old man's sore, due to the poor state of my blood. The sore spread to the size of a saucer, and I had to give up business. The surgeons at Dartmouth College would not perform an operation, claiming that my advanced age, 78 years, in itself was a barrier, and that only temporary relief could be given. I was pining over my misfortune when a friend urged me to try Hood's Sarsaparilla. I had taken but part of a bottle when the eruption looked more healthy and after taking 9 bottles the sore completely healed, leaving only a scar. Hood's Sarsaparilla also helped my whole system as I have not felt so well for years." JOHN S. CURRIER, West Lebanon, N. H.

Col. Ingersoll thinks the nomination for president in 1896 will go to a free silver man. No non-committal statesman need apply.

No state official should have to be coaxed, urged or forced by the courts to help this state get rid of its useless nuisance, the railroad commission.

A Salem woman sold some Kentucky property at half price and invested it in Salem town lots at about half price. Not a bad exchange, she planted her lots in fruit.

The Oregonian has let up on its double-leaded finance editorials. It thought it would quit before everybody in Oregon had gone over to the free coinage of silver.

Religious intolerance has closed the Seventh Day Adventist academy at Grayville Tenn. Religious intolerance is digging its grave in these United States.

The Portland sun was started just at the right time and took just the right course to make a great success of itself, both in circulation, influence and cash receipts.

Somehow or other the fellows who organize new parties never happen to pick up a leader who is penniless. There is Jo. Sibley of Pennsylvania, chosen to lead the new silver party. He is a millionaire.

Has the devil been in Salem? The Kansas City Star says: "The devil is never in greater glee than when he can disturb the relations between the clergy and the press, which together form the greatest of all forces for moral and spiritual good."

Salem is having some hot city council meetings. At the last parliamentary gathering J. H. Albert and Judge Murphy got down to personalities in an unbecoming way.—Albany Democrat.

—And THE JOURNAL prints what it said on both sides without taking sides.

E. Springer Simms—we thought at first, it was Congressman Springer—writes a long-meter poetic effusion for the Brownsville Times. His "raptured breast like an anvil clangs when he thinks of the girl with the yellow hair." If Simms could lay up a rail fence half as well as he can make verses, we advise him to go at it.

If it had not been for an act of the late legislature the state house burglar alarm would not have been overhauled, the state treasurer might have been held up, and the treasury robbed. Nearly as bad as the story of the old maid who dreamed she had a baby, the lady went near the fire and fell in, and oh my! what would have become of that baby?

From what we see in exchange about the intemperance and corruption of the California, Washington, and even to older states, like Indiana, New York and New Jersey, we must conclude that the Oregon legislature, had as it was, was most responsible, in comparison at least. But legislators will never become decent law-abiding bodies until the people can have a whack at their ante with the referendum.

The governor of Washington asked the state last week publishing his got to name. We point looks for the fruit grower and farmer, but it is objected to when we propose to print a 300' long book, a primer, of a reader. The objection is not good. The measure should have a dangerous enemy in the book that had been thousands of good children out of school.

"Senator-elect Geo. W. McBride, of Oregon, was an ardent lover of outdoor life, an excellent horseman and a sure shot with the rifle, before he was crippled by a fall from a wagon a few years ago. Since the accident he has been compelled to use crutches. He is one of the land barons of Oregon, his estate in Columbia county extending from the river front several miles back to the mountains. Senator McBride is 41 years of age."—New York World.

"One of the land barons of Oregon" is good. It is almost as ridiculous as some of the fabulous statements circulated in Oregon during the last twelve months concerning the enormous income of the office which he filled during the last eight years. Notwithstanding these statements and the fact that he lived very economically his most intimate friends assert that all of his worldly possessions, including money, lands, and every other form of wealth, did not aggregate the value of ten thousand dollars when he retired from the office of secretary of state, on the 10th day of last January after a faithful service of eight years.—Exchange.

Sad commentary on our boasted Republican majority, it required a call of the senate yesterday to save the railroad commission rider and the general appropriation bill from ignominious defeat, and then it just did carry. Those voting nay were: Carter, Huston, Johnson, King, McAllister, McClung, Smith of Clatsop, Smith of Sherman, Vandenberg.—Baker City Blade, Feb. 28, 1895.

Mr. McBride is the first native Oregonian elected to the senate. He was also the first and only native born son to hold the office of secretary of state to Judge Bean, of the supreme court, is also a native Oregonian, born in 1854, the same year as Senator McBride and in the same county.—Oregon State Journal.

Although the session of the legislature just past was almost barren of results, Curry county secured justice in fish matters for the first time in years, notwithstanding it was freely predicted that the election of F. A. Stewart to the legislature would leave this county practically unrepresented.—Hudson Recorder.

The campaign of next year will be made upon the question of silver and protection. The Republican party will be found on the right side of both.—Marshfield Mail.

"Grocers," the last bonds sold by Cleveland for \$1.04 are now selling on the New York market at \$1.20, a profit of 16 cents on every dollar of the \$62,400,000, an even profit of \$10,000,000 on the whole amount. And the people of the United States must pay interest on the ten million dollar profit for thirty years. That's the way the people get it in the neck. A Democratic administration comes high, but the people would have it.—Ogden Standard.

The way to win on this issue, as on all other issues, is to remain true to the party that saved the Union and maintained its property unbroken for thirty years. That party will give the Nicaragua canal, the Hawaiian cable, the protective tariff, a subsidy for American ships and free silver as well.—M. F. Call.

A Victim of Fires.

Reuben Davis, a darkey who has been in this vicinity for the past two years, and of late has been working on James Youman's ranch, four miles north of here, burned the second cabin from over his head and this time burned himself fatally.

How the fire originated is somewhat of a mystery, but it is supposed that Reuben had made a good fire and then pulling his bed close to the fire laid down and went to sleep and the bed clothes caught on fire. When he awoke the bed and everything in the house was on fire and before he could escape his clothing was all burned from his body and he was literally cooked alive. He was found, still alive, about 9 o'clock in the morning by a neighbor, and brought to town, but nothing could be done for him, and he died at 4 o'clock that afternoon. The cabin and contents were all destroyed. He accidentally burned another cabin down on himself at the same ranch about three months ago, but escaped at that time with only a few slight burns.—Baker Herald.

A Program of Earnest Reforms on Great Public Questions.

The JOURNAL is a Republican paper, but it independently advocates the interests of the people at all times. It places the public welfare above party interests, and believes thereby it serves its party and the people best.

A LEADER IN THE FIGHT.

For two years THE JOURNAL has led in the fight for a new deal. THE JOURNAL has been a leader in the fight against ring politics and the corrupt methods of the old machine. It is a recognized champion of the people's interests on the Pacific northwest. It fights its battles consistently within practical limits, and wastes no time or space on impracticable theories. It is not pessimistic, but firmly believes in the capacity of the people for self-government when acting intelligently and fully aroused to the necessity of so doing.

NOT A GOLDBUG FROM GOLDBUGVILLE.

A young lawyer in the legislature, who is still voting for Dolph, boasts that he is a "Goldbug from Goldbugville." He must be strangely ignorant of the temper of the people of Oregon, who have very little use for a Goldbug of any kind. But his remark is evidence of considerable courage of an insane kind, because the man does not live who can go before the American people anywhere, declaring that he is opposed to any kind of money other than gold for purposes of ultimate redemption of debts, and receive an endorsement.

FOR FINANCIAL REFORM.

THE JOURNAL advocates a national monetary system, uncontrolled by corporations:

"One Country, One Flag, One Money" should be the watchword of this, the land of the free. One money that's good for the rich and the poor, One standard of worth, no matter its name, Be it gold, silver or paper, 'twill ever endure If stamped by the nation and backed by its fame! One money for all men! Let that be the best, Be it paper, or silver, or copper or gold; For the northland, the southland, the east and the west It should by the people be held and controlled.

The JOURNAL is not a bourbon organ of the Wall street stripe, nor a partisan paper for bankers only. It does not believe in gold alone as the only means of ultimate redemption. We need gold and silver coined on equal terms and abundant national paper currency. Our country must pay all its obligations according to the terms of its contracts, but no more public obligations must be created payable in gold only.

In addition to all the gold possible in circulation, silver must be restored to its rightful place as primary metal currency where it had stood for over eighty years before it was fraudulently demonetized in 1873. It was the regret of the Patriot President Grant's life that he allowed that bill to become a law, and it is the duty of all patriots to labor to repeal that law at the earliest moment. Our country should not wait for an international bimetallic conference with England, Germany or any other country controlled by the Rothschilds, but we should remonetize silver at once as legal tender money.

THE CRIME OF 1873

In surreptitiously repealing free coinage 16 to 1 is only surpassed, in its depressing and devastating effects upon the producer, by the plutocratic policy of the present administration which insists on contracting the currency by retiring with gold bonds over 200,000,000 of paper money, redeemable in gold or silver, at the option of the government. The policy of President Cleveland in borrowing gold of England to redeem silver certificates, which by law are specifically redeemable in silver only, sets the climax of the financial conspiracy that is oppressing the masses so that veritably they are missing like

by circulating a newspaper that is distinctly and always on the side of the People.
