

This paper is not the organ, advocate or apologist of the Salem hog, or of any other hog.

What is Penoyer's "God," anyhow? As Bob Ingersoll says, he has probably constructed one to his own liking.

An exchange says: "Kincaid seems to be made of the kind of stuff they talked about before election, and that's what hurts some fellows."

The idea of committing an imbecile and deaf to a state insane asylum for life is an outrage on the taxpayer and insult to the really insane, who are sent here to be cured.

It looks as though Secretary Kincaid had pretty much all of Lane county backing him in his good work politically. Old Lane is a terror and goes solidly for a new deal.

Nellie Bly is to be married. Her husband is to be congratulated. Miss Bly went around the world, and has since had all kinds of adventures. Let us hope this last will not be the worst.

Business men appreciate something genuine—as for instance, a circulation such as was shown last evening. It is time to quit paying your money to advertising fakes and build up the regular newspapers of the city that fight for the progress of the city.

Ex-Governor Penoyer does not excuse himself for his thirty pardons after going out of office. He says: "I had the undoubted right to do what I did, which right I exercised conscientiously, and I am answerable neither to Lord nor the Oregonian, but only to my conscience and my God." It probably did not hurt his conscience, but it's a little rough on what he calls "my God."

A FALLACY SHOWN UP.

The Newberg Independent Says: "Say, Hofer, if you make 50 cents worth of silver pass for an irredeemable dollar, why object to making half-a-cent's worth of paper the same? Why make one redeemable in gold and not the other? Or where is the power that will make 50 cents' worth of silver a real dollar, that cannot be extended to make the same kind of money of paper? If Uncle Sam can make 1 cent of flat value he can make 50 cents just as well. If not, why not?"

The Independent assumes that because silver bullion at present is worth only half what it formerly was, as are nearly all other things produced in our country, that therefore a 50 cent dollar will always be a fifty cent dollar.

For the sake of argument, and that is all the objection most people have to free coinage 16 to 1, let us suppose that we put 100 cents' worth of silver into each of the 300,000,000 or 600,000,000 million silver dollars in our country. That would close the mouths of all who use that argument. That would remove that objection.

But we all know that silver, wheat, wool, lumber, horses, labor and everything is at present abnormally low. We are passing through a period of abnormally low prices that will not, cannot last. No one wants it to last. No one believes it will last. Before six months pass we may see silver 75 to 80 cents an ounce. What would happen then? All your silver dollars into which we had put 100 cents' worth of silver at present prices would then be worth more for bullion than for money and would all be withdrawn from circulation, or would only circulate at a premium. We would like to have the Independent tell us how we shall protect ourselves against that sort of contraction and the enormous loss the people and the government would suffer if that took place as it surely would. It is not a question of flat, but a question of fact, and it should tell us at what figure it would fix silver for monetary purposes, before it asked us to explain the flat interrogatories it puts. How much silver would you put in a dollar of silver, and then we will tell you how much flat we will put in.

any more than to demonetize both. If, therefore, silver has been demonetized, I am in favor of remonetizing it. If its coinage has been prohibited, I am in favor of having it resumed. If it has been restricted, I am in favor of having it enlarged."

It is said that the man is a public benefactor who makes two blades of grass grow where only one grew before, but in the matter of public institutions these hard times the state authorities have gained the approval of the people of Oregon by combining the deaf mute and blind schools under one management. This may not be altogether pleasant to the fellows who are after soft snaps and hard cash, but it will be easier on the taxpayers.—Yamhill Independent.

The civilized world would very gladly say farewell forever to Oscar Wilde and all of his kidney.

BLAINE ON BIMETALLISM

Mr. James G. Blaine, who was the greatest American statesman of his time, in a speech to congress said: "On the much-voiced and long-mooted question of a bimetallic or a monometallic standard, my own views are sufficiently indicated in the remarks I have made. I believe in the struggle now going on in this country and other countries for a single gold standard would, if successful, produce widespread disaster in and throughout the commercial world. The destruction of silver as money and establishing gold as the sole unit of value must have a ruinous effect on all forms of property except those investments which yield a fixed return in money. These would be enormously enhanced in value and would gain a disproportionate and unfair advantage over every other species of property. If, as the most reliable statistics affirm, there are nearly \$7,000,000,000 of gold or bullion in the world, not very unequally divided between gold and silver, it is impossible to strike out of existence as money without results which will prove disastrous to millions and utterly disastrous to tens of thousands."

"I believe gold and silver ought to be the money of the constitution; indeed, the money of the people anterior to the constitution, which the great organic law recognized as quite independent of its own existence. No power was conferred on congress to declare that either metal should be money. Congress has therefore, in my judgment, no power to demonetize either

There is a whole lot of truth in the following assertion of the CAPITAL JOURNAL: "Silver should be money on its own hook as well as gold. Or else, the more we issue the worse we are off, because we increase thereby the demand for gold."—Eastern Oregon Republican.

A Benton county paper says: Mr. George Davis, owner of the Pioneer stone quarry, was in town during the week. He thinks the quarry will be a permanent thing, the greatest drawback being the transportation which is quite excessive. The O. P. being in litigation throws a cloud over the business prospects of the country.

The hip trouble caused me great trouble and annoyance, and eczema

I Was on the Gain.

This was very encouraging, and I found that I could sleep well at night. My health steadily improved, and of course I continued taking Hood's Sarsaparilla. My hip has been restored to good condition, the sores have stopped discharging and healed up.
