BICYCLE FRIENDS.—The villainous act of throwing tacks on our streets, for the purpose of puncturing bicycle tires, is about as mental a crime as can be committed without injury to persons. This act has been committed in Marshfield with the desired result, but if the culprit is found out it will be all day with him. A sharp lookout is being kept.—Marshfield Sun.

A GREAT COW STORY.

A Most Remarkable Discovery by a Marion County Farmer.

Several weeks ago W. T. Ramsden, of the Waldo Hills, bought a cow that had been sold on the streets of Salem, and shortly after taking her home found that the animal was not all right. The owner being a pretty good hand with horses, decided he would know what ailed the cow or know the reason why. On feeding the animal she would not eat as much as she should, and would at once bloat up and be in distress for several hours, after which she would settle down to a normal condition again. But she kept on ailing, and could not get into a thrifty condition. She kept growing worse, and finally Mr. Ramsden called in County Stock Inspector W. L. Simeral, who pronounced the difficulty chronic indigestion, but decided that it was a remarkable case. The cow finally got so bad that a few days ago the owner decided to kill her and make an investigation. On examination of the stomach the trouble became very plain. It contained a half pail full of sand and gravel, weighing 50 pounds. This gritty substance was not only indigestible, but had the effect of wearing the inside of the stomach as smooth as a piece of satin. Several nails and scraps of crockery were found among the contents, and on beholding the terrible mass of stuff taken from her, it is a wonder the animal lived as long as she did. The results of the examination show that Mr. Simeral knew exactly what was the trouble, and Mr. Ramsden's investigation may prove of great value to stock raisers and dairymen, if they will only profit by it. It is evident that the cause of this accumulation must have come from feeding the animal off the bare ground. This is a common practice among many stock men, and while a cow may be able to work off some forms of dirt thus taken in, sand and gravel are certainly too much of a tax. The only safe and humane way is to feed all animals clean food and from clean dishes.

THE BATTLESHIP OREGON.

Mayors and Representatives Meet and Confer.

An informal meeting was held today at 11:30 at the senate chamber of mayors and representatives of city governments to consider plans for suitable recognition of the new battleship Oregon soon to be launched.

DELEGATES PRESENT. Astoria: Capt. Geo. Gray and C. S. Wright.

Portland: Mayor Frank, Col. Bob Mitchell, C. H. Dodd, Ellis G. Hughes, Frank M. Pitt, John L. Colby.

Salem: Mayor Gatch, Aldermen Murphy and Bingham. Jacksonville: C. H. Nickel.

Chas. H. Dodd of Portland was made chairman, Mayor Gatch of Salem, secretary.

Colonel Mitchell moved a committee of seven to be appointed by the governor to work up an interest all over the state. Mayor Frank spoke to the question, saying unless a more general movement, including all the principal cities of the state, it would not be a great success.

Captain Gray said a general cooperation of the whole state must be obtained. He favored a temporary organization to make headway and secure further progress.

The motion was adopted and the governor was notified to appoint a committee of seven to devise a plan of canvass and appoint a day for the meeting of delegates from all parts of the state. The committee will meet when appointed and elect its chairman. It was moved that the governor fix time and place for committee to meet.

There was a letter read from the Union Iron Works stating that the battleship Oregon would not go into service until October or November. This will give until after the harvest is in to raise what funds will be needed.

At the conclusion of the conference the mayors and officials were invited in the State House restaurant kept by Janitor Howell to take dinner with Adjutant General Tuttle.

MORE MAYORS.

Other mayors in attendance arrived on the 1:40 train, including Mayor Friendly of Eugene, Charles Nickel of Jacksonville and others. There was some dissatisfaction at the hasty action of the meeting in the forenoon.

There are 17755 miles of railroad in the United States. There are 66,835,880 rails used to cover this ground. There are 53,265,000 ties used to bind these rails together, but no such amount, however, is required to bind the hearts of the traveling public to the fact that the Wisconsin Central lines furnish superior facilities on all their trains between St. Paul and Chicago, which form close connections with all lines to the east and south. Edward Swartz, who was so fatally stricken by his father about three weeks ago and who has been in a comatose condition for two days, expired at 8:00 o'clock Sunday evening in St. Vincent's hospital, at Portland. A post mortem examination will be held over the body of Mr. Swartz today and the remains will probably be brought up from Portland tonight. A charge of murder has been filed against Lon Swartz by Prosecuting Attorney A. O. Cupdt.
