Will Tackle the Devil

Next Sabbath at the South Salem M. E. Church, the pastor, Rev. J. M. Shouse, will preach both morning and evening on the subject of Demons. It is not the intention to view this subject from a sensational standpoint but to make the subject instructive and religious. What does the bible teach in reference to devils? Whence come they? What is their nature? What is Milton's argument in reference to them? It is possible that the great jury who read Milton's Paradise Lost do not catch his argument in reference to devils; the language is so highly poetical that we do not catch the thought. The pastor will give a brief paraphrase of Milton's argument. To thoughtful people this will be a subject intensely interesting. The ground cannot be gone over in one discourse, therefore this will be the subject morning and evening.

WE WANT 10,000 people to know we are in the picture framing business and turn out fine work at reasonable prices. No old mouldings shown, but all new, clean and artistic patterns.

If you see the editor going lumbering by on a machine with two wheels, please take note that it is a bicycle; it is not an elephant or a kangaroo, though it may have some of their characteristics. It does not eat straw, its cat oil. It was taken in pay for advertising, and while it is not at all as represented, the wheels turn round and the tires hold wind, but not so much as some people who make remarks about it. Share of its trimmings the apparatus weighs over forty pounds, about twice as much as some of your light framed affairs. Hence it will never fly. The editor is not proud, and hence had rather ride a wheel heavy enough to stay on the ground, paid for, than a light one costing twice as much nominally, not paid for. When you see him go by of course you have the privilege of rushing to the window and crying, there goes the editor on his new lumber wagon.—Albany Democrat.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or ringing in the ears, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be stopped forever, time comes out of the ear is caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness cured by our method that cannot be cured by other methods. Send for circulars to Dr. J. C. Sawyer & Co., 1001 Broadway, New York City.

HORSE THIEVES NOW.

A Man Visits W. N. Savage's Place but is Disappointed.

An attempt at horse thieving was neatly spoiled Tuesday night in East Salem. W. N. Savage's barn was desecrated by the would-be thief as a splendid place to secure a good horse—but he did not succeed in doing so. On the night above mentioned Oliver, the third son of Mr. Savage, the well known milk man, had delivered the milk about the city. Returning home about 9:30 o'clock, Oliver noticed a stranger come hastily out of the barn and run around to the back of the building. Not knowing that the man was after a horse but supposing he was stealing some horse feed, of which there was a large quantity in the barn, Oliver jumped from the wagon before reaching the barn, and ran into the house and secured his Herrington & Richardson 32 Calibre revolver. Returning to the barn he immediately began to search to find out if anything was missing. It did not take him long to discover that a 4-year-old bay gelding, the property of his brother Charles, had been taken from the barn. He then jumped onto a pony and rode rapidly down Twenty-fifth street until he reached the Turner road. Hesitating a moment he heard some one coming through the brush. Oliver spurred his horse up and dashed away toward the thief and when within about fifty yards of the man fired four shots from his revolver at him. Dropping from the horse, the thief ran rapidly through the brush and was soon lost to sight as the brush in that neighborhood is very dense. At this point an older brother, Charles, reached the scene of the tussle, on horseback, and with Oliver made a thorough search through the brush but discovered no one.

The boys then secured the horse and returned with it to the barn. The thief had taken a halter with the horse and had formed a rough bridle with which to guide the animal while riding.

Everyone should have his gun, revolver, or rifle handy and be ready for night visitors and give them a warm reception.

WILL BE SURPRISED.—The people who will see and hear the Reform School Cadets at the opera house on Tuesday evening next will be surprised at their skill in acting and at their well trained voices in singing. These boys, many of them picked up off the streets of the towns and cities, will make a much better showing than many traveling troupes. The proceeds, after expenses are paid, will go toward the purchase of a piano for the new chapel of that institution. Get your seats early.

CARELESS RIDING.—Last Saturday evening, while on her way home from church about 9 o'clock, Mrs. K. T. Russell, over 60 years of age, who lives on Trade street near Twentieth, was run into by a careless bicycle rider at the corner of Eighteenth and State streets and thrown into a ditch. Upon summoning a doctor, Wednesday, it was discovered that the fifth rib on her left side had been broken besides internal injuries. Such bicycle riding as this should be severely dealt with.

Y. P. S. C. E. STATE CONVENTION

Preparations Being Made for the Coming Meeting in this City.

The 9th, 10th, 11th, and 12th of May will be devoted to the deliberations of the state convention of the Young People's Society of Christian Endeavor and from all that can be learned from the various committees representing the Salem organization the affair promises to be the best and greatest, in the way of work done and results achieved ever known in the history of the movement in Oregon.

A special feature of the occasion will be the presence here, on the 11th and 12th, of Francis E. Clark, the founder of the famous Christian organization, and this of itself will afford much pleasure to all the busy workers in the field laid out for them.

H. S. Gile is chairman and Mrs. William Sargent, associate chairman of the central committee of Salem's contingent, the central committee being composed of the chairmen of the various special, or sub-committees.

The First Presbyterian church will be the central place of meeting and "overflowing" will be amply provided for as necessarily dictates.

It is estimated by the local committee on entertainment that nearly five hundred delegates will be in attendance during the session, something over three hundred having been provided for already.

Indications point very reliably to an immense and popular demonstration, one that will rebound largely to the benefit of Christianity in general and the Y. P. S. C. E. in particular.
